*FINANCIAL AND MANAGERIAL ACCOUNTING* Jan 27 2020

**Accounting** Aug 02 2020 With this fourth edition, accountants will acquire a practical set of tools and the confidence they need to use them effectively in making business decisions. It better reflects a more conceptual and decision-making approach to the material. The authors follow a "macro- to micro-" strategy by starting with a discussion of real financial statements first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates accountants by grounding the discussion in the real world, showing them the relevance of the topics covered to their careers.

**Managerial Accounting** Sep 15 2021 The emphasis of Managerial Accounting, 8e is on teaching students to use accounting information to best manage an organization. In a practice Hilton pioneered in the first edition, each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. Known for balanced examples of Service, Retail, Nonprofit and Manufacturing companies, Hilton offers a clear, engaging writing style that has been praised by instructors and students alike. As in previous editions, there is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting and performance evaluation.

*Corporate Reporting* Dec 26 2019 The realm of corporate reporting has shifted significantly since the 7th edition of this book was published. With the world becoming an ever smaller place, the need for a set of global reporting standards has become all the more pressing. To this end two major frameworks have emerged as the flag bearers of global financial reporting standards viz International Financial Reporting Standards (IFRS) and US GAAP. The former has been mandatory for all companies listed on the JSE Securities Exchange Limited (JSE) since 2005. The differential framework ties in well with the recent amendments to the Companies Act in the form of

the Corporate Laws Amendment Act (CLAA). The CLAA marks the first phase of Corporate Law reform in South Africa and aims to introduce, amongst other reforms, differential reporting for limited interest companies as defined, to ease the burden of financial reporting on entities where external use of financial information is limited. It will be followed by the new Companies Act which is currently at the Bill stage. The CLAA has an effective date of 14 December 2007. The disclosure requirements set out in this book apply to South African enterprises. They can therefore be applied to companies, close corporations, trusts and partnerships, irrespective of differences in capital structure. Enterprises which are subsidiaries of foreign parent companies may also be required to prepare their financial statements in a format, and with disclosure, that complies with reporting standards abroad. This could lead to disclosure additional to that required in South Africa as set out in this book.
