Final Cuts: The Last Films of 50 Great Directors

Apr 10 2021 Critic-producer Nat Segaloff was granted access to private papers, production records, never-before-published interviews, and specialized archives in reconstructing the colorful, touching, and sometimes scandalous stories behind the making of the last films of some of Hollywood's top directors. Winningly readable and yet meticulously researched, its substantial entries

range from Robert Aldrich and Robert Altman to Peter Yates and Fred Zinnemann, and John Ford and Howard Hawks to Otto Preminger and Richard Brooks. Certain to attract controversy because of whom it ignores as well as whom it includes, Final Cuts presents fifty widely varied chronicles of success and failure, inspiration and ennui, elation and heartache, and every other emotion enjoyed or endured by the greatest filmmakers that Hollywood ever knew. About the Author Nat Segaloff always wanted to

write and produce, but it took him several careers before he learned how to get paid for it. He was a journalist for The Boston Herald covering the motion picture business, but has also variously been a studio publicist (Fox, UA, Columbia), college teacher (Boston University, Boston College), on-air TV talent (Group W), entertainment critic (CBS radio) and author (nine books including Hurricane Billy: The Stormy Life and Films of William Friedkin and, as co-author, Love Stories: Hollywood's Most

He was also senior reviewer for AudiobookCafe.com . His The Everything® Etiquette Book and The Everything

Trivia Book and The Everything® Tall Tales, Legends and Outrageous Lies Book are in multiple printings for Adams Media Corp. help instructors meet those challenges. Jump-Start Your Online Classroom prepares a first-time online instructor to successfully manage the first few weeks of a course, including activities to help instructors plan, manage, and facilitate online instruction; and provides resources helpful during the beginning weeks of class. Each chapter is developed around the immediate challenges instructors face when teaching online. The authors address everyday problems and suggest solutions informed by their extensive research and experience. The five challenges, which are designed

to be addressed in five days, are to:

- Make the transition to online teaching
- Build online spaces for learning
- Prepare students for online learning
- Manage and facilitating the online classroom
- Assess learner outcomes in an online classroom

The book is based on the authors' design and facilitation model that identifies five elements comprising an online learning environment: digital tools, participants, social practices, learning community, and outcomes. The book shows how each of those aspects influences instructional practices and interacts to create

an environment for a meaningful online educational experience.

Truth Feb 27 2020 My purpose in writing this book was to leave a mark on the hard face of passing time, a mark softened at the edges of a smile. An early glance shows a young family secure in its humor. Yet the grip of something stronger squeezes the three children apart and toward irony that laughter couldn't touch. It will touch readers, I am confident. My hope is that these pages will loosen the force that wrenched the siblings apart, even as they thought less and less of how to help each other. Still and all, they must turn their own thoughts around.
