Race, Ethnicity and Social Theory Jan 09 2021 "Race, Ethnicity and Social Theory provides a critical analysis of the main areas of scholarly research and debate about racial and ethnic relations over the past few decades. The book covers substantive areas of scholarly debate in this fast-changing field, including race and social relations, identities and the construction of the racial other, feminism and race, the relationship between race and nationalism, antisemitism, the evolution of new forms of racism, race and political representation and, more generally, the changing debates about race and ethnicity in our global environment. The book argues that there is a need for more dialogue across national and conceptual boundaries about how to develop the theoretical tools needed to understand both the historical roots of contemporary forms of

racialised social and political relations and the contemporary forms through which race is made and re-made. A key argument that runs through the book is that the need to develop conceptual frameworks that can help us to make sense of the changing forms of racial and ethnic relations in contemporary societies. This means developing more dialogue across national research cultures as well as empirical research that seeks to engage with the key issues raised by contemporary theoretical debates. The book will be of interest to both students wanting to develop a deeper understanding of this area of scholarship and to researchers of race, ethnicity and migration working in various national and disciplinary environments"--

Critical Perspectives on Racial and Ethnic Differences in Health in Late Life Feb 07 2021 In their later years, Americans of different racial and ethnic backgrounds are not in equally good-or equally poor-health. There is wide variation, but on average older Whites are healthier than older Blacks and tend to outlive them. But Whites tend to be in poorer health than Hispanics and Asian Americans. This volume documents the differentials and considers possible explanations. Selection processes play a role: selective migration, for instance, or selective survival to advanced ages. Health differentials originate early in life, possibly even before birth, and are affected by events and experiences throughout the life course. Differences in socioeconomic status, risk behavior, social relations, and health care all play a role. Separate chapters consider the contribution of such factors and the biopsychosocial mechanisms that link them to health. This volume provides the empirical evidence for the research agenda provided in the separate report of the Panel on Race, Ethnicity, and Health in Later Life.

Dictionary of Race, Ethnicity and Culture Sep 04 2020 Race, ethnicity and culture are concepts that are interpreted in various and often contradictory ways. This Dictionary of Race, Ethnicity and Culture provides the historical background and etymology of a wide number of words related to these concepts, looking at discourses of race, ethnicity and culture from a broadly multicultural perspective. This new and up-to-date dictionary contains numerous references to both European and American concepts, debates and terms. Contributors to the dictionary include well-known anthropologists, biologists, lawyers, philosophers, sociologists and psychologists, enabling the Dictionary to bring an interdisciplinary approach to the subject matter, and a rich variety of voice and content that would otherwise

Race, Ethnicity, and Socioeconomic Status Aug 28 2022 Providing an adequate conceptual apparatus for the explanation and interpretation of behavior associated with race, ethnicity, and socioeconomic status is the goal of this book. Empirical research findings and their theoretical analysis are linked. E. Franklin Frazier, recognized minorities as mirrors of their society. He hypothesized that study of their adaptations would provide a clearer understanding of the relation of human motivation to culture. Race, Ethnicity, and Socioeconomic Status confirms the Frazier hypothesis and extracts from studies of blacks and other racial and ethnic minority populations propositions applicable to majority as well as minority groups. These studies of intergroup relations were conducted during the past 25 years and provide a perspective on changing patterns of contact between cultural groups in the United States. Adaptations associated with race, ethnicity, and socioeconomic status are analyzed from the perspective of sociology as a science of humanity. Historical trends as well as contemporary situations are considered; social, psychological, and geographical factors are researched as contextual variables in intergroup relations. By analyzing demographic data pertaining to mortality, disease, delinquency, and poverty, the varying contributions to the human condition of individual attributes, group customs, and institutional regulations are ascertained. Institutional and community studies illuminate the prides, fears, and prejudices of dominant and subdominant groups, particularly with reference to racial and ethnic relations in education. Also identified in these studies are the rights and responsibilities of such groups toward each other in social interaction.

Researching ?Race? and Ethnicity Mar 23 2022 ?Gunaratnam?s framework is rich in its examination and synthesis of approaches to the study of "race"... the reward for the reader who does pick up the book is that the author deftly articulates the complicated view of research on "race" first from the quantitative perspective and then skillfully moves the reader to issues of "race" in qualitative research? - Studies in Ethnicity and Nationalism ?This is a welcome book for those engaged in policy and empirical work with an active research agenda... there is a level of theoretical sophistication in the text which is often missing from texts concerned with methods in this area? - Race Relations Abstracts `The particular value of this book to readers lies in the discussion of "race", ethnicity and research issues within a political and social context. The author states her intention to explore some of the theoretical and practical dilemmas of researching "race" and ethnicity. This is, without question, achieved. I recommend it as essential reading for those concerned with increasing their awareness of issues relating to race, ethnicity and research practice? - Nurse Researcher ?This is a thought-provoking and challenging book which demonstrated the fractured and fluid nature of difference and power in the research process. Importantly it offers a guide to the ways in which research can be effectively and productively used in challenging the status quo? - Diversity in Health and Social Care

Researching `Race? and Ethnicity provides an innovative discussion of the methodological, epistemological and ethical challenges of doing qualitative research that is informed by questions of `race?, ethnicity and social difference. By identifying and challenging `categorical thinking? and many longstanding assumptions about the meanings of `race? and ethnicity, the author gets to the heart of many of the everyday dilemmas and difficulties that researchers confront in the field, but are rarely theorised or openly discussed. Yasmin Gunaratnam?s insistence that `race? and ethnicity are a significant part of all qualitative research, and are not the `specialist? concerns of those whose work is explicitly focussed upon `race?, provokes a radical rethinking of current methodological debates. How do racial and ethnic categories inform our approaches to research? How does the racialised identity of the researcher and the research participants affect the research interaction and the knowledge that we produce? What are the assumptions that are made about racialised subjectivity and inter-subjectivity? How can we make sense of accounts in which `race? and ethnicity are silent or are non-manifest? How can we work ethically across difference? In examining these and other questions, the wide-ranging discussions in the book are animated by examples drawn from the author?s ethnographic research with white and minoritized research participants. Through these examples readers will be able to engage with some of the complexities of research relationships, power relations and ethical concerns about engagement, disconnection and complicity in research. The attention that the book gives to the excluded experiences of minoritized researchers will be of particular value to many readers. Researching `Race? and Ethnicity is essential reading for students and academics in the social sciences.

Eliminating Health Disparities Dec 08 2020 Disparities in health and health care across racial, ethnic, and socioeconomic backgrounds in the United States are well documented. The reasons for these disparities are, however, not well understood. Current data available on race, ethnicity, SEP, and accumulation and language use are severely limited. The report examines data collection and reporting systems relating to the collection of data on race, ethnicity, and socioeconomic position and offers recommendations.

The Wiley Blackwell Companion to Race, Ethnicity, and Nationalism Oct 30 2022 A broad examination of the rise of nationalism, populism, xenophobia, and racism throughout the world The Wiley Blackwell Companion to Race, Ethnicity, and Nationalism provides expert insight into the complex, interconnected factors that are influencing patterns of human relations worldwide in a time of rising populist nationalism, intensified racial and religious tensions, and mounting hostilities towards immigrants and minorities. Analyzing the underlying forces which continue to drive global trends, this volume examines contemporary patterns based on the most recent evidence spanning five continents—offering a diversity of interpretations, models and perspectives that address the challenges facing the study of race, ethnicity, and nationalism. The Companion features original contributions by both established experts and emerging scholars that explore an expansive range of theoretical, historical, and empirical case studies. Organized into five sections, the text first discusses growing trends in the United States, the significance of populism in major societies around the globe, and how global changes are influencing regional variations in race, ethnicity, and nationalism. An investigation of global migration patterns is followed by examination of conflict and violence, from urban riots and boundary disputes to warfare and genocide. The final section focuses on the policy debates resulting from changing patterns and their impact on politics, the economy, and society. Timely and highly relevant, this book: Discusses contemporary issues such as the failure of school systems to provide equal opportunities to minorities, the evolution of the School-to-Prison pipeline, and the Black Lives Matter movement Explores shifts in American race relations, the influence of social media and the internet, and the links between increased globalization and contemporary forms of

nationalism, racism, and populism Features essays on national and ethnic identity in China, Japan, and South Korea, India, Central Asia, Africa, Latin America, and Europe Analyzes policies regarding borders, immigration, refugees, and human rights in different countries and regions Offers perspectives on the radicalization of social movements, the creation of ethnic, linguistic and other boundaries between groups, and the models used to understand intractable conflicts in many global settings The Wiley Blackwell Companion to Race, Ethnicity, and Nationalism is an indispensable resource for scholars, researchers, instructors, and students across the social sciences, including sociology, political science, global affairs, economics, comparative race and ethnic relations, international migration, social change, and sociological theory.

Talking about Identity Apr 11 2021 "Where are you from?" "What is your nationality?" "I didn't know you were..." "I'm not racist, but..." "It's just a joke." "What does a white person know about racism?" "Some of my best friends are..." James and Shadd's enormously popular *Talking About Difference* (BTL, 1994) has been thoroughly revised and expanded and makes a fine introduction to dozens of key issues involving all of us in Canadian society. Some of these issues include ethnic, racial, class and social identity. All the authors provide analysis as well as personal reflections. The book also shows the rich experiences and many ways of growing up, immigrating to, and living in Canada.

Assessing Race, Ethnicity and Gender in Health Oct 25 2019 This book deals specifically with the historical basis for use of terms in race, gender, ethnicity, sex and sexual orientation. It brings much needed clarity to the debate by identifying the ethical issues as well as the technical challenges inherent in measuring these elusive concepts. The author expands on her work begun in *Gender, Ethnicity, and Health Research* by paralleling the evolution of racial and sexual categories with the development of health research. In addition, the book provides a salient guide to assessment tools currently used in measuring racial and sexual constructs, identity, and experience.

'Race', Ethnicity, and Education Jul 15 2021 This book is a major new investigation into the issues of 'race', ethnicity and education, following the educational reforms during the late 1980s. It provides an up-to-date and critical introduction to current issues and major research findings in the field, exploring the teacher-pupil relationship through a detailed account of life in an inner-city comprehensive. It reveals the influence of different racist stereotypes and highlights the especially disadvantaged position of Afro- Caribbean pupils within a school. Features: * Draws on a wide variety of research projects in ethnic schools to examine: achievement; curriculum content; language use; assessment and testing under the National Curriculum * Uses material collected during two years of research to consider young people's school experiences and issues relating to classroom discipline.

Routledge Handbook of Race and Ethnicity in Asia Aug 16 2021 The *Routledge Handbook of Race and Ethnicity in Asia* introduces theoretical approaches to the study of race, ethnicity and indigeneity in Asia beyond those commonly grounded in the Western experience. The volume's twenty-eight chapters consider not only the relationship between ethnic or racial minorities and the state, but social relations within and between individual and transnational communities. These shape not only the contours of governance, but also the means by which knowledge of national identity, 'self', and 'other' have been constructed and reconstructed over time. Divided into four sections, it provides holistic and comparative coverage of South, South East, and East Asia, as well as Australasia and Oceania; an area that extends from Pakistan in the West to Hawai'i in the East. Contributors to this handbook offer a variety of disciplinary and interdisciplinary perspectives, opening a domain of scholarship wherein the relationship between phenotype and racism is less pronounced than European and North American approaches, which

have often privileged the so-called 'colour stigmata', leading to further exclusions of particular ethnic, racial, and indigenous communities. This volume seeks to overcome racism and white ideologies embedded in theories of race and ethnicity in Asia, proving a valuable resource to both students and scholars of comparative racial and ethnic studies, international relations and human rights.

Understanding Racial and Ethnic Differences in Health in Late Life Oct 18 2021 As the population of older Americans grows, it is becoming more racially and ethnically diverse. Differences in health by racial and ethnic status could be increasingly consequential for health policy and programs. Such differences are not simply a matter of education or ability to pay for health care. For instance, Asian Americans and Hispanics appear to be in better health, on a number of indicators, than White Americans, despite, on average, lower socioeconomic status. The reasons are complex, including possible roles for such factors as selective migration, risk behaviors, exposure to various stressors, patient attitudes, and geographic variation in health care. This volume, produced by a multidisciplinary panel, considers such possible explanations for racial and ethnic health differentials within an integrated framework. It provides a concise summary of available research and lays out a research agenda to address the many uncertainties in current knowledge. It recommends, for instance, looking at health differentials across the life course and deciphering the links between factors presumably producing differentials and biopsychosocial mechanisms that lead to impaired health.

Race, Ethnicity, and the State in Malaysia and Singapore Jul 27 2022 This publication brings together the work of several writers in documenting and understanding the consequences of state-formation on ethnicity in Malaysia and Singapore, thirty years after the two nations went their separate paths.

Race, Ethnicity, and Consumption Sep 28 2022 Race, Ethnicity, and Consumption: A Sociological View looks at the central concerns of consumer culture through the lens of race and ethnicity. Each chapter illustrates the connections between race, ethnicity, and consumption by focusing on a specific theme: identity, crossing cultures, marketing and advertising, neighborhoods, discrimination, and social activism. By exploring issues such as multicultural marketing, cultural appropriation, consumer racial profiling, urban food deserts, and racialized political consumerism, students, scholars, and other curious readers will gain insight on the ways that racial and ethnic boundaries shape, and are shaped by, consumption. This book goes beyond the typical treatments of race and ethnicity in introductory texts on consumption by not only providing a comprehensive overview of the major theories and concepts that sociologists use to make sense of consumption, race, and ethnicity, but also by examining these themes within distinctly contemporary contexts such as digital platforms and activism. Documenting the complexities and contradictions within consumer culture, *Race, Ethnicity, and Consumption* is an excellent text for sociology courses on consumers and consumption, race and ethnicity, the economy, and inequality. It will also be an informative resource for courses on consumer culture in the broader social sciences, marketing, and the humanities.

Race, Ethnicity, and Health Nov 30 2022 Race, Ethnicity and Health, Second Edition, is a critical selection of hallmark articles that address health disparities in America. It effectively documents the need for equal treatment and equal health status for minorities. Intended as a resource for faculty and students in public health as well as the social sciences, it will be also be valuable to public health administrators and frontline staff who serve diverse racial and ethnic populations. The book brings together the best peer reviewed research literature from the leading scholars and faculty in this growing field, providing a historical and political context for the study of health, race, and ethnicity, with key findings on disparities in access, use, and quality. This volume also examines the role of health care providers in health disparities and discusses the issue of matching patients and doctors by race. New chapters cover: reflections on demographic changes in the US based on the current census; metrics and nomenclature for disparities; theories of genetic basis for disparities; the built environment; residential segregation; environmental health; occupational health; health disparities in integrated communities; Latino health; Asian populations; stress and health; physician/patient relationships; hospital treatment of minorities; the slavery hypertension hypothesis; geographic disparities; and intervention design.

Race, Ethnicity, and Multiculturalism Sep 24 2019 This book examines how teachers, administrators, and educational institutions contribute to racial and ethnic inequality and offers policy and practice suggestions for change. It reviews the literature, the national societal and cultural contexts, definitions of race and ethnicity, family influences, and then explores the topic in relation to teachers, classrooms, school programs, school organization, and district policy making. The book concludes with recommendations on how to integrate current school restructuring with multicultural education.

Below the Surface Jun 13 2021 A guide to the latest research on how young people can develop positive ethnic-racial identities and strong interracial relations Today's young people are growing up in an increasingly ethnically and racially diverse society. How do we help them navigate this world productively, given some of the seemingly intractable conflicts we constantly hear about? In Below the Surface, Deborah Rivas-Drake and Adriana Umaña-Taylor explore the latest

research in ethnic and racial identity and interracial relations among diverse youth in the United States. Drawing from multiple disciplines, including developmental psychology, social psychology, education, and sociology, the authors demonstrate that young people can have a strong ethnic-racial identity and still view other groups positively, and that in fact, possessing a solid ethnic-racial identity makes it possible to have a more genuine understanding of other groups. During adolescence, teens reexamine, redefine, and consolidate their ethnic-racial identities in the context of family, schools, peers, communities, and the media. The authors explore each of these areas and the ways that ideas of ethnicity and race are implicitly and explicitly taught. They provide convincing evidence that all young people—ethnic majority and minority alike—benefit from engaging in meaningful dialogues about race and ethnicity with caring adults in their lives, which help them build a better perspective about their identity and a foundation for engaging in positive relationships with those who are different from them. Timely and accessible, *Below the Surface* is an ideal resource for parents, teachers, educators, school administrators, clergy, and all who want to help young people navigate their growth and development successfully.

Race, Ethnicity, and Leisure Jun 25 2022 Race and ethnicity have a significant impact on leisure behavior and activity choices. Yet, until now, no book has thoroughly explored that impact, though this topic is critical for leisure professionals to understand as they shape services and programs to meet the needs of the diverse populations they serve. *Race, Ethnicity, and Leisure: Perspectives on Research, Theory, and Practice* brings together 28 world-renowned researchers who provide a comprehensive review and unified perspective on leisure in relation to five minority populations in the United States and Canada: African Americans, Latino Americans, Asian North Americans, Indigenous peoples, and religious minority groups. This text offers a compendium of knowledge as it • synthesizes leisure research on race and ethnicity and discusses how changing demographics will affect leisure behaviors and activities in the 21st century; • explains the leisure behaviors and participation patterns of racial and ethnic minority groups in the United States and Canada; • explores issues, including natural resource recreation, physical activity and health, tourism, and sport, as they relate to recreation activities among minorities; and • presents an international perspective, delving into the leisure behaviors of minority groups in Europe, Australia, New Zealand, and East Asia. *Race, Ethnicity, and Leisure* examines the current theories and practices related to minority leisure and reviews numerous issues related to these diverse groups' leisure, including needs and motivations, constraints, and discrimination. The authors consider leisure behavior of ethnic and racial groups, investigating issues such as types of recreation participation among specific groups, recreation in specific environments, and factors affecting participation. The book also suggests future directions in research and professional practice, guiding students and professionals in addressing the demographic changes in the U.S. and Canadian populations. The result is an unprecedented text that offers an extensive look at the changing landscape of recreation, leisure pursuits, our world, and the populations that are driving these changes. As such, *Race, Ethnicity, and Leisure* is an essential text for those preparing to enter the recreation and leisure field.

Race, Ethnicity, and Language Data Feb 19 2022 The goal of eliminating disparities in health care in the United States remains elusive. Even as quality improves on specific measures, disparities often persist. Addressing these disparities must begin with the fundamental step of bringing the nature of the disparities and the groups at risk for those disparities to light by collecting health care quality information stratified by race, ethnicity and language data. Then attention can be focused on where interventions might be best applied, and on planning and evaluating those efforts to inform the development of policy and the application of resources. A lack of standardization of categories for race, ethnicity, and language data has been suggested as

one obstacle to achieving more widespread collection and utilization of these data. Race, Ethnicity, and Language Data identifies current models for collecting and coding race, ethnicity, and language data; reviews challenges involved in obtaining these data, and makes recommendations for a nationally standardized approach for use in health care quality improvement.

The Palgrave Handbook of Race and Ethnic Inequalities in Education Nov 26 2019 This comprehensive, state-of-the-art reference work provides the first systematic review to date of how sociologists have studied the relationship between race/ethnicity and educational inequality over the last thirty years in eighteen different national contexts.

'Race', Ethnicity and Racism in Sports Coaching May 25 2022 In recent years there has been a steady increase in the racial and ethnic diversity of the playing workforce in many sports around the world. However, there has been a minimal throughput of racial and ethnic minorities into coaching and leadership positions. This book brings together leading researchers from around the world to examine key questions around 'race', ethnicity and racism in sports coaching. The book focuses specifically on the ways in which 'race', ethnicity and racism operate, and how they are experienced and addressed (or not) within the socio-cultural sphere of sports coaching. Theoretically informed and empirically grounded, it examines macro- (societal), meso- (organisational), and micro- (individual) level barriers to racial and ethnic diversity as well as the positive action initiatives designed to help overcome them. Featuring multi-disciplinary perspectives, the book is arranged into three thematic sections, addressing the central topics of representation and racialised barriers in sports coaching; racialised identities, diversity and intersectionality in sports coaching; and formalised racial equality interventions in sports coaching. Including case studies from across North America, Europe and Australasia, 'Race', Ethnicity and Racism in Sports Coaching is essential reading for students, academics and practitioners with a critical interest in the sociology of sport, sport coaching, sport management, sport development, and 'race' and ethnicity studies.

Key Concepts in Race and Ethnicity Jul 03 2020 "A conceptually power-packed volume that is at once erudite and accessible, expansive and focused, true to sociological traditions yet stimulatingly exploratory. Scholars and students will be served very well by this absorbing, far-reaching enquiry into ethnicity and race." - Raymond Taras, Tulane University "This concise, profound, and beautifully written book offers a tour de force across the landscape of race and ethnicity by a young author who masters them all." - Per Mouritsen, Aarhus University This book offers an accessible discussion of both foundational and novel concepts in the study of race and ethnicity. Each account will help readers become familiar with how long standing and contemporary arguments within race and ethnicity studies contribute to our understanding of social and political life more broadly. Providing an excellent starting point with which to understand the contemporary relevance of these concepts, Nasar Meer offers an up-to-date and engaging consideration of everyday examples from around the world. This is an indispensable guide for both students and established researchers interested in the study of race and ethnicity.

Ethnicity and Race in the UK Dec 28 2019 Available Open Access under CC-BY-NC licence. 50 years after the establishment of the Runnymede Trust and the Race Relations Act of 1968 which sought to end discrimination in public life, this accessible book provides commentary by some of the UK's foremost scholars of race and ethnicity on data relating to a wide range of sectors of society, including employment, health, education, criminal justice, housing and representation in the arts and media. It explores what progress has been made, identifies those areas where inequalities remain stubbornly resistant to change, and asks how our thinking around race and ethnicity has changed in an era of Islamophobia, Brexit and an increasingly diverse population.

Handbook of Race-Ethnicity and Gender in Psychology Oct 06 2020 Multicultural aspects of psychology have received some attention in the literature in the last decade. A number of texts currently address these significant concerns, for example, *Counseling the Culturally Different* (Sue & Sue, 2008); *Handbook of Multicultural Counseling* (Poterotto et al., 2009); and *Handbook of Multicultural Counseling Competencies* (Pope-Davis & Coleman, 2005). In their most recent editions, several of these books address more nuanced complexities of diversity, for example, the intersections of gender or social class with race-ethnicity. Meanwhile, other texts have addressed gender issues in psychology (*Handbook of Counseling Women, Counseling Men*), with some attention paid to racial-ethnic and other diversity concerns. Clearly the progression of scholarship in this field reflects the importance of incorporating multiple aspects of diversity within psychology. However, no book currently exists that fully addresses the complexities of race-ethnicity and gender together. Better understanding of the dual impact of race-ethnicity and gender on psychological functioning may lead to more effective conceptualizations of a number of mental health issues, such as domestic violence, addictions, health-related behaviors and achievement. Exploring the impact of race-ethnicity and gender also may provide a broader understanding of self-in-community, as this affects individuals, families and other social groups and work and career development. Topics of interest may include identity development, worldviews and belief systems, parenting styles, interventions for promoting resilience and persistence and strategies for enhancing more accurate diagnostic and treatment modalities. Today's world is comprised of multiple and intersecting communities that remain in need of psychological models and interventions that support and promote both individual and collective mental health. We believe that utilizing unidimensional conceptual models (e.g. focusing solely on race-ethnicity or gender) no longer adequately addresses psychological concerns that are dynamic, complex and multi-faceted. The proposed Handbook will focus on timely topics which historically have been under-addressed for a number of diverse populations.

Understanding 'race' and ethnicity 2e Nov 06 2020 In the last few years, national and international politics have been characterised by the erasure of 'race' and ethnicity within public policy and discourse. Events such as the escalation in 'race' hate crime associated with the EU Referendum in the UK, the rise of the far right across European polities, or Donald Trump's promise to build a wall across Mexico, contradict the political rhetoric of the 'arrival' of a 'post-race' era. This new edition of a widely-respected textbook examines welfare policy and racism, alongside institutional racism and community cohesion within a broad policy framework. Fully updated, it contains:

- a new foreword by Professor Kate Pickett, acclaimed co-author of *The Spirit Level*
- two new chapters on ethnicity, disability and chronic illness, and education policy and 'race' respectively
- recent changes in black and minority ethnic demographics in the UK
- a post-script from a minority student on her struggle to make a new home in Britain

Suitable for undergraduate and postgraduate courses in social policy, sociology and applied social sciences, it includes:

- updated empirical data and examples
- links to external sources for further reading
- questions for discussion, reflection and further learning.

Covering an unrivalled range of social welfare issues, the marriage of theory, history and contemporary data makes important and difficult debates about 'race', ethnicity, discrimination and social equality more accessible to a student audience as well as policy and welfare practitioners interested in its global themes of immigration, austerity and securitisation.

Race and Ethnicity Jun 01 2020 apartheid --

The Handbook of Race, Ethnicity, Crime, and Justice Jan 27 2020 This Handbook presents current and future studies on the changing dynamics of the role of immigrants and the impact of immigration, across the United States and industrialized and developing nations. It covers the changing dynamics of race, ethnicity, and immigration, and discusses how it all contributes to

variations in crime, policing, and the overall justice system. Through acknowledging that some groups, especially people of color, are disproportionately influenced more than others in the case of criminal justice reactions, the “War on Drugs”, and hate crimes; this Handbook introduces the importance of studying race and crime so as to better understand it. It does so by recommending that researchers concentrate on ethnic diversity in a national and international context in order to broaden their demographic and expand their understanding of how to attain global change.

Featuring contributions from top experts in the field, *The Handbook of Race and Crime* is presented in five sections—An Overview of Race, Ethnicity, Crime, and Justice; Theoretical Perspectives on Race and Crime; Race, Gender, and the Justice System; Gender and Crime; and Race, Gender and Comparative Criminology. Each section of the book addresses a key area of research, summarizes findings or shortcomings whenever possible, and provides new results relevant to race/crime and justice. Every contribution is written by a top expert in the field and based on the latest research. With a sharp focus on contemporary race, ethnicity, crime, and justice studies, *The Handbook of Race and Crime* is the ideal reference for advanced undergraduate students, graduate students, and scholars interested in the disciplines such as Criminology, Race and Ethnicity, Race and the Justice System, and the Sociology of Race.

Race, Ethnicity, and Place in a Changing America, Third Edition Sep 16 2021 Uses both historical and contemporary case studies to examine how race and ethnicity affect the places we live, work, and visit. This book examines major Hispanic, African, and Asian diasporas in the continental United States and Puerto Rico from the nineteenth century to the present, with particular attention on the diverse ways in which these immigrant groups have shaped and reshaped American places and landscapes. Through both historical and contemporary case studies, the contributors examine how race and ethnicity affect the places we live, work, and visit, illustrating along the way the behaviors and concepts that comprise the modern ethnic and racial geography of immigrant and minority groups. While primarily addressed to students and scholars in the fields of racial and ethnic geography, these case studies will be accessible to anyone interested in race-place connections, race-ethnicity boundaries, the development of racialization, and the complexity of human settlement patterns and landscapes that make up the United States and Puerto Rico. Taken together, they show how individuals and culture groups, through their ideologies, social organization, and social institutions, reflect both local and regional processes of place-making and place-remaking that occur within and beyond the continental United States.

Not Quite White Jan 21 2022 White trash. The phrase conjures up images of dirty rural folk who are poor, ignorant, violent, and incestuous. But where did this stigmatizing phrase come from? And why do these stereotypes persist? Matt Wray answers these and other questions by delving into the long history behind this term of abuse and others like it. Ranging from the early 1700s to the early 1900s, *Not Quite White* documents the origins and transformations of the multiple meanings projected onto poor rural whites in the United States. Wray draws on a wide variety of primary sources—literary texts, folklore, diaries and journals, medical and scientific articles, social scientific analyses—to construct a dense archive of changing collective representations of poor whites. Of crucial importance are the ideas about poor whites that circulated through early-twentieth-century public health campaigns, such as hookworm eradication and eugenic reforms. In these crusades, impoverished whites, particularly but not exclusively in the American South, were targeted for interventions by sanitarians who viewed them as “filthy, lazy crackers” in need of racial uplift and by eugenicists who viewed them as a “feeble-minded menace” to the white race, threats that needed to be confined and involuntarily sterilized. Part historical inquiry and part sociological investigation, *Not Quite White* demonstrates the power of social categories and boundaries to shape social relationships and institutions, to invent groups where none exist, and

to influence policies and legislation that end up harming the very people they aim to help. It illuminates not only the cultural significance and consequences of poor white stereotypes but also how dominant whites exploited and expanded these stereotypes to bolster and defend their own fragile claims to whiteness.

Community Organising Against Racism Aug 23 2019 Gary Craig and his contributors blend theory and practice-based case studies to review how different community development approaches can empower minority ethnic communities to confront racism and overcome social, economic and political disadvantage.

Race, Ethnicity and Gender in Education May 01 2020 Race, Ethnicity and Gender in Education: Cross-cultural, which is the sixth volume in the 12-volume book series Globalisation, Comparative Education and Policy Research, presents scholarly research on major discourses of race, ethnicity and gender in education. It provides an easily accessible, practical yet scholarly source of information about the international concern in the field of globalisation and comparative education. Above all, the book offers the latest findings to the critical issues concerning major discourses on race, ethnicity and gender in the global culture. It is a sourcebook of ideas for researchers, practitioners and policymakers in education, globalisation, social justice, equity and access in schooling around the world. It offers a timely overview of current issues affecting research in comparative education of race, ethnicity and gender. It provides directions in education and policy research relevant to progressive pedagogy, social change and transformational educational reforms in the twenty-first century. The book critically examines the overall interplay between the state, ideology and current discourses of race, ethnicity and gender in the global culture. It draws upon recent studies in the areas of globalisation, equity, social justice and the role of the State (Zajda et al. , 2006, 2008). It explores conceptual frameworks and methodological approaches applicable in the research covering the State, globalisation, race, ethnicity and gender.
