*The Fiddler's Fakebook* Dec 23 2021 From the author's preface: "This book was conceived four years ago, almost to the day, at a time when I was teaching fiddle and mandolin in New York City. It was my idea then, with my students in mind, to compile a book of the most often played, most important and most interesting fiddle tunes from the various Celtic and North American traditions. The tunes were chosen by cataloging a large number of recordings by tune title. A tally was taken to find out which had been recorded most often. This established a foundation of material that could not be left out. To this list I added the names of other pieces which had not been recorded as frequently, but which I knew were played regularly and with respect. I admit to sprinkling the collection with a few lesser known tunes which happen to be personal favorites, but I am sure they will hold their own when placed next to the old war horses of the fiddler's repertoire. . . . Although I started out with my students in mind this book has turned out to be the book that I've always wanted and I hope that it will serve the advanced player as well as the beginner."
