**Understanding Jihad** Sep 24 2019 "First published in 2005, Understanding Jihad unraveled the tangled historical, intellectual, and political meanings of jihad within the context of Islamic life. In this revised and expanded second edition, author David Cook has included new material in light of pivotal events over of the past ten years, such as the revolutionizing events of the Arab Spring, the death of Osama bin Laden, and the rise of new Islamic factions such as ISIL. Jihad is one of the most loaded and misunderstood terms in the news today. Contrary to popular understanding, the term does not mean "holy war." This judiciously balanced, accessibly written, and highly relevant book looks closely at a range of sources from sacred Islamic texts to modern interpretations of the term, opening a critically important perspective on the role of Islam in the contemporary world. As David Cook traces the practical and theoretical meanings of jihad, he cites from scriptural, legal, and newly translated texts to give readers a taste of the often ambiguous information that is used to construct Islamic doctrine. He looks closely at the life and teaching of the Prophet Muhammad and at the ramifications of the great Islamic conquests in 634 to 732 A.D. He sheds light on legal developments relevant to fighting and warfare, and places the internal, spiritual jihad within the larger context of Islamic religion. He describes some of the conflicts that occur in radical groups and shows how the more mainstream supporters of these groups have come to understand and justify violence. He has also included a special appendix of relevant documents including materials related to the September 11 attacks and published manifestos issued by Osama bin Laden and Palestinian suicide-martyrs"--Provided by publisher.

**Majn'n** Feb 07 2021 This is a study of madness in the medieval Islamic world. Using a wide variety of sources, from the fields of history, literature, and art, the late Michael Dols explores beliefs about madness in Islamic society, and examines attitudes towards individuals afflicted by mental illness or disability. The book demonstrates the links between Christian and Muslim medical beliefs and practices, and traces the influence of certain Christian beliefs, such as miracle-working, on Islamic practices. It breaks new ground in analysing the notions of the romantic fool, the wise fool, and the holy fool in medieval Islam within the framework of perceptions of mental illness. It shows that the madman was not regarded as a pariah, an outcast, or a scapegoat. This is a comprehensive and original work, whose insights into magic, medicine, and religion combine to open up our understanding of medieval Islamic society.

**Self-Criticism After the Defeat** Sep 16 2021 A devastating critique of the Arab world's political stagnation by one of its most revered thinkers. The 1967 War - which led to the defeat of Syria, Jordan and Egypt by Israel - felt like an unprecedented and unimaginable disaster for the Arab world at the time. For many, the easiest solution was to shift the blame and to ignore some of the glaring defects of Arab society. Syrian philosopher Sadik al-Azm was one of the few to challenge such a view in his seminal *Self-Criticism after the Defeat*. Exposing the political and cultural faults that led to the defeat, he argued that the Arabs could only progress by embracing secularism, gender equality, democracy, and science. Available in English for the first time, *Self-Criticism after the Defeat* is a milestone in modern Arab intellectual history. It marked a turning point in Arab discourse about society and politics on publication in 1968, and spawned other intellectual ventures into Arab self-criticism.

**The Sun of Knowledge (Shams Al-Ma'arif)** Oct 30 2022 The Sun of Knowledge (Shams al-Ma'arif) is one of the most revered historical grimoires of the Arabic corpus. Feared by some, hallowed by others, it is one of the most famous - or infamous - books in the Arabic-speaking and Islamic world. Written in Egypt in the thirteenth century by a Sufi mystic and mage of Algerian origin, the Shams presents the fundamentals of Arabic-Islamic occult work - from spiritual cosmology and astrology (including various particularly lunar magics) to working with spirits and jinn, magical employment of letters and numbers, and the occult applications of the Qur'an - thereby comprising a veritable encyclopedia of Islamic magical wisdom and formulae. Images and descriptions of amulets and talismans adorn it. Numerous beautiful manuscripts of the Sun of Knowledge have survived, various of which have been used as a basis for this present work. Never before published in English, this selected translation includes sections of the Sun of Knowledge on the mysteries of the letters, astrological timings, lunar mansions, the ancient Arab beliefs surrounding the stars, planetary matters, astronomy, the angels for and workings pertaining to the four seasons, summoning the jinn, the employment of the names of God for many and varied purposes, the construction of the famed ring of Solomon, and a miscellany of tried-and-true talismans. This selected translation takes a general approach to a much vaster text, and features illustrations, original artwork, and commentary to assist those unfamiliar with Islamic magic and culture. This edition is also ideal for any student of magic or the occult, classical Arabic astrology and astronomy, Islamic esotericism, or Sufism.

*I Will Judge You by Your Bookshelf* Mar 30 2020 A look at the culture and fanaticism of book lovers, from the beloved New York Times illustrator and creator of *Incidental Comics*. It's no secret, but we are judged by our bookshelves. We learn to read at an early age, and as we grow older we shed our beloved books for new ones. But some of us surround ourselves with books. We collect them, decorate with them, are inspired by them, and treat our books as sacred objects. In this lighthearted collection of one- and two-page comics, writer-artist Grant Snider explores bookishness in all its forms, and the love of writing and reading, building on the beloved literary comics featured on his website, *Incidental Comics*. *I Will Judge You by Your Bookshelf* is the perfect gift for bookworms of all ages. "This playful, self-aware collection of strips and gags on the joys and frustrations of reading and writing is equal parts lighthearted and sincere . . . The panels range from gently clever to surprisingly profound to laugh-out-loud."

**Extremist Shiites** Jul 15 2021 Little is known in the West about the division of the Islamic world into Shiites and Sunnites and even less about the stratification of these two groups, with most of the attention going to the Sunnites. Moosa's comprehensive study of the origins and cultural aspects of the different extremist, or Ghulat, Shiite sects in the Middle East is a ground-breaking work. These sects whose 'extremism' is essentially religious are generally a peaceful people and, except for the Nusayris of Syria, are not political activists.

**Magic and Ritual in the Ancient World** Oct 06 2020 This volume contains a series of provocative essays that explore expressions of magic and ritual power in the ancient world. The book begins with several papyrological studies presenting important new texts in Greek and Coptic, continuing with essays focussing on taxonomy and definition. The concluding essays apply contemporary theories to analyses of specific text cases in a broad variety of ancient Mediterranean cultures. Paul Mirecki, Th.D. Studies at the University of Kansas. Marvin Meyer, Ph.D. (1979) in Religion, Claremont Graduate School, is Professor of Religion at Chapman University, Orange, California, and Director of the Coptic Magical Texts Project of the Institute for Antiquity and Christianity.

**Grimoires** Nov 18 2021 What is a grimoire? The word has a familiar ring to many people, particularly as a consequence of such popular television dramas as *Buffy the Vampire Slayer* and *Charmed*. But few people are sure exactly what it means. Put simply, grimoires are books of spells that were first recorded in the Ancient Middle East and which have developed and spread across much of the Western Hemisphere and beyond over the ensuing millennia. At their most benign, they contain charms and remedies for natural and supernatural ailments and advice on contacting spirits to help find treasures and protect from evil. But at their most sinister they provide instructions on how to manipulate people for corrupt purposes and, worst of all, to call up and make a pact with the Devil. Both types have proven remarkably resilient and adaptable and retain much of their relevance and fascination to this day. But the grimoire represents much more than just magic. To understand the history of grimoires is to understand the spread of Christianity, the development of early science, the cultural influence of the print revolution, the growth of literacy, the impact of colonialism, and the expansion of western cultures across the oceans. As this book richly demonstrates, the history of grimoires illuminates many of the most important developments in European history over the last two thousand years.

**Radical Love** Jul 27 2022 This stunning collection showcases the love poetry and mystical teachings at the heart of the Islamic tradition in accurate and poetic original translations. At a time when the association of Islam with violence dominates headlines, this beautiful collection offers us a chance to see a radically different face of the Islamic tradition. It traces a soaring, poetic, popular tradition that celebrates love for both humanity and the Divine as the ultimate path leading humanity back to God. Safi brings together for the first time the passages of the Qur'an sought by the Muslim sages, the mystical sayings of the Prophet, and the teachings of the path of "Divine love." Accurately and sensitively translated by leading scholar of Islam Omid Safi, the writings of Jalal al-Din Rumi can now be read alongside passages by Kharraqani, Attar, Hafez of Shiraz, Abu Sa'id 'Abi l-Khayr, and other key Muslim mystics. For the millions of readers whose lives have been touched by Rumi's poetry, here is a chance to see the Arabic and Persian traditions that produced him.

**The Prophet's Heir** Aug 28 2022 The life and legacy of one of Mohammad's closest confidants and Islam's patron saint: Ali ibn Abi Talib. Ali ibn Abi Talib is arguably the single most important spiritual and intellectual authority in Islam after prophet Mohammad. Through his teachings and leadership as fourth caliph, Ali nourished Islam. But

Muslims are divided on whether he was supposed to be Mohammad's political successor—and he continues to be a polarizing figure in Islamic history. Hassan Abbas provides a nuanced, compelling portrait of this towering yet divisive figure and the origins of sectarian division within Islam. Abbas reveals how, after Mohammad, Ali assumed the spiritual mantle of Islam to spearhead the movement that the prophet had led. While Ali's teachings about wisdom, justice, and selflessness continue to be cherished by both Shia and Sunni Muslims, his pluralist ideas have been buried under sectarian agendas and power politics. Today, Abbas argues, Ali's legacy and message stands against that of ISIS, Al-Qaeda, and Taliban.

**Visual Arts and Religion Oct 18 2021** Images have caused uproar, violence and even casualties in the meeting of religions and cultures during the last years. Iconoclasm and iconolatry are on the agenda once more. Late Modern Culture is dominated by images and is understood in concepts such as aestheticization and symbolisation. Theological debate is likewise performed through images, symbols and rituals rather than through doctrines and beliefs. In this book, authors from various research backgrounds seek to clarify the terms of reference, and explore the diversity and disagreements in their use from a Christian perspective.

**Desiring Arabs Nov 06 2020** Sexual desire has long played a key role in Western judgments about the value of Arab civilization. In the past, Westerners viewed the Arab world as licentious, and Western intolerance of sex led them to brand Arabs as decadent; but as Western society became more sexually open, the supposedly prudish Arabs soon became viewed as backward. Rather than focusing exclusively on how these views developed in the West, in *Desiring Arabs* Joseph A. Massad reveals the history of how Arabs represented their own sexual desires. To this aim, he assembles a massive and diverse compendium of Arabic writing from the nineteenth century to the present in order to chart the changes in Arab sexual attitudes and their links to Arab notions of cultural heritage and civilization. A work of impressive scope and erudition, Massad's chronicle of both the history and modern permutations of the debate over representations of sexual desires and practices in the Arab world is a crucial addition to our understanding of a frequently oversimplified and vilified culture. "A pioneering work on a very timely yet frustratingly neglected topic. . . . I know of no other study that can even begin to compare with the detail and scope of [this] work."—Khaled El-Rouayheb, *Middle East Report* "In *Desiring Arabs*, [Edward] Said's disciple Joseph A. Massad corroborates his mentor's thesis that orientalist writing was racist and dehumanizing. . . . [Massad] brilliantly goes on to trace the legacy of this racist, internalized, orientalist discourse up to the present."—*Financial Times*

**Islam, Context, Pluralism and Democracy Jul 03 2020** Islam, Context, Pluralism and Democracy aspires to clarify the tensions and congruences between the revelational and the rational, the text and the context, the limits and the horizons of contextualization in Islam, as these emanate from the Islamic interpretative tradition. This book examines

classical and modern Muslim interpretations with regard to the concepts of diachronic development, pluralism and democracy based on Arabic-Islamic sources and literature. Focusing on the parameters of semantic changes, methods of interpretation and cultural variables, it shows how this interpretative tradition offers a diversity of ideas and approaches that can be utilized in contemporary debates concerning the socio-political contextualization of Islamic genuine thought. However, within this diversity, Islam presents generic principles and core values as 'moral paradigms' that can deal with such modern challenges. Based on the analysis of core Islamic texts and key-terms related to the discussed issues, mainly from the Quran and the Sunnah, and the broader Arabic-Islamic literature, it explores the boundaries of the mutable and constant in the Islamic worldview. Presenting classical Muslim interpretations and scholars as possible interlocutors in debates over the compatibility of Islam with challenges of modernity, this book is essential reading for researchers and postgraduates interested in Islamic Studies, Philosophy of Religion and Political Science.

**Shrines of the 'Alids in Medieval Syria** Jan 09 2021 The first illustrated, architectural history of the 'Alid shrines, increasingly endangered by the conflict in SyriaThe 'Alids (descendants of the Prophet Muhammad) are among the most revered figures in Islam, beloved by virtually all Muslims, regardless of sectarian affiliation. This study argues that despite the common identification of shrines as 'Shi'i' spaces, they have in fact always been unique places of pragmatic intersectarian exchange and shared piety, even - and perhaps especially - during periods of sectarian conflict. Using a rich variety of previously unexplored sources, including textual, archaeological, architectural, and epigraphic evidence, Stephennie Mulder shows how these shrines created a unifying Muslim 'holy land' in medieval Syria, and proposes a fresh conceptual approach to thinking about landscape in Islamic art. In doing so, she argues against a common paradigm of medieval sectarian conflict, complicates the notion of Sunni Revival, and provides new evidence for the negotiated complexity of sectarian interactions in the period.
