Social Welfare in Asia Nov 23 2021 First published in 1985, this book analyses social welfare in the major countries of Asia, at that time. For each country it considers the ideological framework underlying the social welfare system and describes the historical development of both the system and the political and socio-economic context. Contributions examine the nature of the different parts of the welfare system, surveying social security, personal social services, and the treatment of the following key target groups: the aged; those with disabilities and handicaps; children and youth; disadvantaged families; the unemployed; and the sick and injured. Each chapter concludes with an assessment of the effectiveness of the system considered.

The Evolving Landscape of Media and Communication in Hong Kong

Oct 11 2020 Over the last twenty years Hong Kong society has witnessed dramatic change, and nowhere is this better reflected than in the realm of media and communications. Across the fields of journalism, public relations and advertising, we can see the changing trends in terms of audience consumption and interaction. From technological developments to the shift in audience participation, the expectations and functions of these professions have been greatly altered. While many of these changes are occurring worldwide, within Hong Kong the processes of change have been further complicated by recent social and political events. Through a selection of essays by field experts, this volume

explores the evolution of media itself as well as the complex causes underlying these developments. It identifies not only the difficulties and opportunities for media professionals today, but also the evolving role of the audience.

Defying the Dragon Jul 20 2021 Defying the Dragon tells a remarkable

story of audacity: of how the people of Hong Kong challenged the PRC's authority, just as its president reached the height of his powers. Is

Xi's China as unshakeable as it seems? What are its real interests in

Hong Kong? Why are Beijing's time-honoured means of control no

longer working there? And where does this leave Hongkongers

themselves? Stephen Vines has lived in Hong Kong for over three

decades. His book shrewdly unpacks the Hong Kong–China relationship

and its wider significance—right up to the astonishing convergence of

political turmoil and international crisis with Covid-19 and the 2020–21

crackdown. Vividly describing the uprising from street level, Vines

explains how and why it unfolded, and its global repercussions. Now,

the international community is reassessing relations with Beijing, just as

Hong Kong's rebellion and China's handling of the pandemic have

exposed the regime's weakness. In a crisis that has become existential all

round, what lies ahead for Hong Kong, China and the world?

A Small Band of Men Apr 28 2022 Les Bird joined the Hong Kong Marine Police in 1976 during a period of rapid change in one of the British Empire's few remaining colonies, and witnessed the last years of the hard-working, hard-drinking colonial policemen handing out rough justice in the World of Suzie Wong. He led his men in combat with the growing organized crime in the years leading up to the handover of the colony back to China in 1997 and was one of a handful of senior officers instrumental in dealing with highly sensitive issues including a flood of refugees fleeing Vietnam and the increase in the smuggling of guns, drugs, people, and luxury goods either to or from Communist China. Filled with gripping stories spanning 20 years, A Small Band of Men follows Bird and his cohorts including his mentor, "Diamond" Don Bishop, an eccentric officer whose volatile temper, larger-than-life personality, and overbearing presence was a major influence in Bird's career. These tales provide a fascinating insight into the intersection of cultures that is Hong Kong. Supported by his second-in-command, Joe Poon, Bird gained the trust of his band of men to such an extent that they were willing to follow him into danger, even at the risk of their own lives.

Doing Business 2008 Jun 30 2022 Regulations affecting 10 areas of everyday business are measured: starting a business, dealing with licenses, employing workers, registering property, getting credit, protecting investors, paying taxes, trading across borders, enforcing contracts, and closing a business. 'Doing Business 2008' updates all 10 sets of indicators, ranks countries on their overall ease of doing business, and analyzes reforms to business regulation - identifying which countries are improving their business environment the most and which ones slipped. The indicators are used to analyze economic outcomes and identify what reforms have worked, where and why. 'Doing Business 2008' focuses on how complex business regulations dampen investment, growth and job creation in all businesses, and especially opportunities for women entrepreneurs.

Hong Kongers in the British Armed Forces, 1860-1997 Aug 01 2022

"The historical experience of the Hongkongers during the 19th and 20th centuries is unique, as Hong Kong has been a multi-ethnic and multi-cultural society, an international trading hub, and a geopolitically crucial British colony until 1997. In the past decades, historians produced works on different aspects of the Hong Kong history, but one particular group remained obscure: the more than 30,000 Hong Kong men and women who served in the British armed forces from the Opium Wars to the end of the British rule. This book is the first systematic study of the experience of the Hong Kong servicemen in the British armed forces during the colonial period. It puts the Hong Kong servicemen in the contexts of Hong Kong history, the history of overseas Chinese, the history of the British Empire, and the military history of the 19th and 20th centuries. It details the agency of Hongkongers, who were more often than not portrayed as victims or beneficiaries during the two world wars and the Cold War and highlights the relevance of Hong Kong in the modern history of East Asia. It also looks at how the intertwined issues of class and race played out among these servicemen, who came from a variety of ethnic, cultural, and social backgrounds. It reveals the complexity of the colonial Hong Kong society by illustrating the interplay between the colonizers and the colonized of different classes and ethnicity and informs the on-going discussion about colonial Hong Kong by providing concrete examples of the collaboration between ethnic groups"--

Electoral Politics in Post-1997 Hong Kong Feb 12 2021 This book offers a novel and parsimonious framework to help understand Hong Kong's lengthy democratic transition by analyzing the electoral dynamics of the city's competitive authoritarian political system, where pro-Beijing and pro-democracy parties have struggled to keep each other in check. The author demonstrates how a relatively liberal media environment has shaped the electoral incentives of the opposition and the pro-establishment elite differently, which has helped the latter improve its basis of electoral support. The political explanation the book puts forward seeks to shed new light on why many autocracies are interested in regularly holding elections that are considered somewhat competitive. This book will be of great interest not only to specialists in comparative studies of democratization, but also to all those concerned with Hong Kong's democratic transition.

Social Security Programs Throughout the World: Asia and the Pacific, 2008 Aug 09 2020 SSA Publication 13 11802. Unemployment in China Oct 30 2019 Unemployment in China offers a new and invaluable insight into the Chinese economy, keenly analyzing the new directions the world's next superpower is now taking.

Successfully bringing together a wide range of research and evidence from leading scholars in the field, this book shows how unemployment is one of the key issues facing the Chinese economy. China's market-oriented economic reform and industrial restructuring, while greatly improving efficiency, have also sharply reduced overstaffing, leading to a large increase in unemployment. At the same time, further restructuring is predicted as the full impact of the accession to the WTO is felt throughout China. A further problem is that new jobs in China's growth industries are more likely to be secured by younger, better-qualified workers than by older, poorly educated and unskilled workers who have been laid off. This book discusses a wide range of issues related to the growing unemployment problem in China and examines the problems in particular cities, appraises the government response, and assesses the prospects going forward.

Comparative Social Welfare Dec 25 2021 First published between 1985 and 1992, this set of books analyses social welfare in Asia, the Middle East, Africa, Latin America, highly developed economies and socialist countries at the time. Each title considers the ideological framework underlying the social welfare system for each country and describes the historical development of both the system and the political and socio-economic context. Each chapter looks at the structure and administration of the systems in place and how these are financed. Contributions examine the nature of the different parts of the welfare system, surveying social security, personal social services, and the treatment of the following key target groups: the aged; those with disabilities and handicaps; children and youth; disadvantaged families; the unemployed; and the sick and injured. Each chapter concludes with an assessment of the effectiveness of the system considered. This set will be of interest to those studying international social welfare and development.

Doing Business 2007 Jan 02 2020 "Doing Business 2007 focuses on reforms, identifies top reformers in business regulation, and best

practices in how to reform. This volume is the fourth in a series of annual reports investigating global regulations that enhance business activity and those that constrain it. Co-sponsored by the World Bank and the International Finance Corporation - the private sector arm of the World Bank Group - this year's report measures quantitative indicators on business regulations and their enforcement compared across 175 countries - from Afghanistan to Zimbabwe - and over time. Doing Business 2007 updates indicators developed in the three preceding reports. The ten indicators are: starting a business, dealing with licenses, hiring and firing, registering property, getting credit, protecting investors, trading across borders, paying taxes, enforcing contracts, and closing a business. The indicators are used to analyze economic and social outcomes, such as informality, corruption, unemployment, and poverty. This annually published report gives policymakers the ability to measure regulatory performance in comparison to other countries, learn from best practices globally, and prioritize reforms. This year's report covers 20 additional countries."

Social Unrest and the Poverty Problem in Hong Kong Oct 23 2021 This book discusses the policy and public health challenges in Hong Kong from the perspective of economic and social welfare challenges, specifically focusing on the poverty and inequality research supported by the Hong Kong Jockey Club (HKJC) Charities Trust. Conducted by Prof Yip and his research team at the HKJC's Centre for Suicide

Research and Prevention at the University of Hong Kong across a five-year period, the book presents analyses based on high quality statistical data to explore some of the socioeconomic roots of the civil unrest in 2019, while also acknowledging the limitations and challenges of trying to build a stronger society under the constraints of the One Country Two Systems policy. Building on extensive research done by the research team and some governmental data, it provides concrete, evidence-based suggestions for reducing poverty in a high-income society, which are useful not only for Hong Kong but also for other societies experiencing similar challenges. It makes an original contribution to research into inequalities, poverty and social policies, and will be of interest to those seeking to understand the ongoing political challenges in Hong Kong and how they relate to the socioeconomic challenges and policies that affect the everyday lives of ordinary people there. It is relevant to academics, students and policymakers concerned with social inequalities and policy intervention.

The Other Hong Kong Report 1998 Aug 28 2019 This is the first volume of The Other Hong Kong Report after Hong Kong returned to China. The whole world is interested to know how Hong Kong has fared, whether its transition has been smooth, and whether the vaunted "one country, two systems" model is working. Twenty-five experts have contributed papers on topics in their specialties. The topics are divided into five broad groups, covering the political scene, the economy, population and manpower, social welfare, and infrastructure and the environment. The papers deal with latest developments of Hong Kong during the first year of the Special Administrative Region (SAR), paying particular attention to changes since the handover and the current problems. Following the tradition of freedom of speech and respect for divergent views of the previous volumes, the book contains papers with critical as well as supportive views of the SAR policies. The book will be of value to scholars, students, professionals, journalists, businessmen, government officials, and the general public and will appeal to all those who have an interest in Hong Kong, especially those living abroad.

The Global Journalist in the 21st Century May 30 2022 The Global Journalist in the 21st Century systematically assesses the demographics, education, socialization, professional attitudes and working conditions of journalists in various countries around the world. This book updates the original Global Journalist (1998) volume with new data, adding more than a dozen countries, and provides material on comparative research about journalists that will be useful to those interested in doing their own studies. The editors put together this collection working under the assumption that journalists' backgrounds, working conditions and ideas are related to what is reported (and how it is covered) in the various news media round the world, in spite of societal and organizational constraints, and that this news coverage matters in terms of world public opinion and policies. Outstanding features include: Coverage of 33 nations located around the globe, based on recent surveys conducted among representative samples of local journalists Comprehensive analyses by well-known media scholars from each country A section on comparative studies of journalists An appendix with a collection of survey questions used in various nations to question journalists As the

most comprehensive and reliable source on journalists around the world, The Global Journalist will serve as the primary source for evaluating the state of journalism. As such, it promises to become a standard reference among journalism, media, and communication students and researchers around the world.
