How to Make Good Things Happen: Know Your Brain, Enhance Your Life Aug 02 2020 An empowering journey through the mechanisms of the mind from one of the world's leading mental health experts. For those in pursuit of a better life, psychiatrist Marian Rojas Estapé presents the essential guide to neuroscience-driven mindfulness. Understanding your brain, managing your emotions, and being aware of your responses to stressors can give you greater self-control. Rather than a gimmicky guidebook, this is a thorough look at how our brains react to stress, threats, hyperstimulation, and the vices of our digital age. With proven techniques backed by solid, up-to-date psychiatric research, Estapé teaches us how to make the best of our lives. Combining science, psychology, and philosophy, Estapé delivers practical advice about how we can cultivate a happy existence. This includes understanding the parts of the brain, setting healthy goals and objectives, strengthening willpower, cultivating emotional intelligence, developing assertiveness, avoiding excessive self-criticism and self-demand, and mastering the proven art of optimism.

Day My Father Became a Bush Jul 25 2022 A clear-eyed and off-beat illustrated novel about a girl surviving in a baffling world at war. From the author/illustrator of Eep!. Before he becomes a bush, Toda's father is a pastry chef. He gets up at the crack of dawn to bake twenty different sorts of pastries and three kinds of cake. Until, one day, everything changes. Fighting breaks out in the south and Toda's father has to go there to defend his country. Luckily he has a manual called 'What every soldier needs to know'. This tells him how to hide from the enemy by using branches and leaves to disguise himself as a bush. Toda remains in the city with her grandmother but even there it's no longer safe. She is sent to stay with her mother who lives across the border. Toda's journey is full of adventure and danger. But she doesn't give up. She has to find her mother.

Life Is a Dream Feb 26 2020 The masterwork of Spain's preeminent dramatist—now in a new verse translation Life Is a Dream is a work many hold to be the supreme example of Spanish Golden Age drama. Imbued with highly poetic language and humanist ideals, it is an allegory that considers contending themes of free will and predestination, illusion and reality, played out against the backdrop of court intrigue and the restoration of personal honor. In the mountainous barrens of Poland, the rightful heir to the kingdom has been imprisoned since birth in an attempt by his father to thwart fate. Meanwhile, a noblewoman arrives to seek revenge against the man who deceived and forsook her love for the prospect of becoming king of Poland. Richly symbolic and metaphorical, Life Is a Dream explores the deepest mysteries of human experience. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

I Am Malala Sep 27 2022 A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to inspire change in the world.

Be the Dad She Needs You to Be May 11 2021 From the New York Times best-selling author of Have a New Kid by Friday comes a call to dads to step up to the plate and become the loving, actively engaged father that a daughter needs for life and relational success. The relationship that matters most to your daughter isn't always the one with her mother—sometimes it's the one with you, Dad. Her self-esteem, choices, behavior, character, and even her ideas about or choice of a marriage partner are all directly tied to you, as the most important representative to her of the male species. In Be the Dad She Needs You to Be Dr. Kevin Leman—internationally-known psychologist, New York Times best-selling author, and father of four daughters—will show you not only how to get the fathering job done and done well, but also how to: Make each daughter feel unique, special, and valued. Discipline the right way . . . when it's needed. Talk turkey about what guys are really thinking. Keep the critical eye at bay. Wave the truce flag when females turn your family room into a battleground. Set your daughter up for life and relational success. With some effort on your part, you can gain the kind of lasting relationship you dream of with your daughter—one based on mutual love and respect. The simple yet profound suggestions in this book will transform you into the kind of man your daughter needs . . . for a lifetime.

Wild Wings Apr 22 2022 This “vividly imagined and well-written novel” (Booklist, starred review) tells a gripping story about a boy from Scotland and a girl from West Africa who join together to save a migrating Osprey—and end up saving each other. When Callum spots crazy Iona McNair on his family’s sprawling property, she’s catching a fish with her bare hands. She won’t share the fish, but does share something else: a secret. She’s discovered a rare endangered bird, an Osprey, and it’s clear to both her and Callum that if anyone finds out about the bird, it, and its species, is likely doomed. Poachers, egg thieves, and wild weather are just some of the threats, so Iona and Callum vow to keep track of the bird and check her migratory progress using the code a preservationist tagged on her ankle, no matter what. But when one of them can no longer keep the promise, it’s up to the other to do it for them both. No matter what. Set against the dramatic landscapes of Scotland and West Africa, this is a story of unlikely friendships, the wonders of the wild—and the everyday leaps of faith that set our souls to flight.

A Massacre in Mexico Oct 24 2019 The definitive account of the disappearance of forty-three Mexican students On September 26, 2014, a party of students from the Ayotzinapa Rural Teachers’ College were en route to a protest when intercepted by local police. A confrontation ensued. Come the morning, the students were nowhere to be found. The crime that had transpired and the resultant cover-up brought the profound depths of corruption in the Mexican government and police force—as well as the vulnerability of ordinary Mexicans—into stark relief. Investigative reporter Anabel Hernández reconstructs the terrible events of that night and its aftermath, giving us the most complete picture available. Her sources are unparalleled. In researching this book, she secured access to internal government documents that have not been made public and to surveillance footage the government has tried to hide and destroy. Hernández demolishes the Mexican state’s official version of events, which the Peña Nieto government cynically dubbed the “historic truth.” As her research shows, state officials at all levels, from police and prosecutors to the upper echelons of government, conspired to put together a fake case, concealing and manipulating evidence, and arresting and torturing dozens of “suspects,” procuring forced confessions to back up the official lie. By following the role of the various Mexican state agencies through the events in such remarkable detail, *A Massacre in Mexico* shows with exacting precision precisely who is responsible for this monumental crime and who needs to be held accountable.

Ho'oponopono and Family Constellations Mar 29 2020 Take a moment to think hard about your relationships. The first one to come to mind may be with your partner or parents but there are many others in your life: relationships with your colleagues at work, your body, your past and future, your finances, even with the clutter still left in your closets. Many problems are relationship-related, and the good news is that you can heal all your relationship issues! With his best-selling title "Ho'oponopono", Ulrich Emil Duprée revealed a healing method for solving problems and conflicts by using the Hawaiian reconciliation ritual to forgive both ourselves and others. This is given even greater power when combined with the method of systemic family constellations. A constellation allows underlying conflicts to be aired and resolved. It helps us to experience love and inner peace through the feeling, deep in our hearts, that we are all interconnected.

The Fractal Geometry of Nature Mar 09 2021 The Essential Guide that Introduced Fractals to the World Explore the wondrously complex repeating shapes of the natural world in *The Fractal Geometry of Nature*. Written in a style that is accessible to a wide audience, computer scientist, professor, mathematician, economist, and visionary Benoit B Mandelbrot's fascinating work has inspired popular interest in the geometry inherent in the natural world. Unlike the squares, circles, spheres, and cones of fundamental geometry, nature has rough edges and no straight lines or perfect curves. Mandelbrot observed that, even with this roughness, there still exists a kind of symmetry, which he dedicated his work to document and study. This became the basis for his development of a new kind of geometry; indeed, he coined the term "fractal." Mandelbrot spent 35 years with IBM, which allowed him access to the level of computing power that would enable him to manipulate computer-generated images and develop his theory of a geometry found throughout our natural environment. He was among the first to use computer graphics to illustrate and test these kinds of concepts, demonstrating that natural phenomena which appear to be rough or chaotic actually have a certain degree of order and predictability. This definitive overview builds on Mandelbrot's 1977 work, *Fractals: Form, Chance and Dimension* (also published by Echo Point Books), revealing an in depth look at this still-emerging field. Richly illustrated and presented in an engaging manner which embraces geometric and visual dimensions interspersed with aspects of theory, this book will inspire curiosity and wonder in artists, mathematicians and naturalists alike. This book is also available from Echo Point Books in hardcover (ISBN 1648370403). Be sure to check out Benoit Mandelbrot's other definitive work, also available from Echo Point books: *Fractals: Form, Chance and Dimension* (use the web address <https://www.amazon.com/dp/1635619025/>).

Mindcode. the Science of Getting the Brain to Buy Sep 15 2021 The latest book by Jürgen Klari? focuses on how to successfully sell products and services. The method and techniques presented in this book come from various lab studies. They are also endorsed by anthropological and neuroscientific research. In this book, the author proves that the sales processes we commonly use are extremely exhausting and not very effective, mainly because we don't know how the mind works, even if we listen to people. A bestseller shortly after its launching, MINDCODE has become a commercial and sales model of companies such as General Motors, Movistar, Claro, SAB-Miller and Ikea.

Narcoland Nov 17 2021 The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *Narcoland* has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, *Narcoland* takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names – not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."

Basic Epidemiology Oct 04 2020 Basic epidemiology provides an introduction to the core principles and methods of epidemiology, with a special emphasis on public health applications in developing countries. This edition includes chapters on the nature and uses of epidemiology; the epidemiological approach to defining and measuring the occurrence of health-related states in populations; the strengths and limitations of epidemiological study designs; and the role of epidemiology in evaluating the effectiveness and efficiency of health care. The book has a particular emphasis on modifiable environmental factors and encourages the application of epidemiology to the prevention of disease and the promotion of health, including environmental and occupational health.

I Am Malala Sep 22 2019 'Malala is an inspiration to girls and women all over the world.' - J.K. Rowling *I Am Malala* tells the remarkable true story of a girl who knew she wanted to change the world - and did. Raised in the Swat Valley in Pakistan, Malala was taught to stand up for her beliefs. When terrorists took control of her region and declared girls were forbidden from going to school, Malala fought for her right to an education. And, on 9 October 2012, she nearly paid the ultimate price for her courage when she was shot on her way home from school. No one expected her to survive. Now, she is an international symbol of peaceful protest and the youngest person ever to win a Nobel Peace Prize. A must-read for anyone who believes in the power of change. * This teen edition is a first-hand account told in Malala's own words for her generation. The paperback includes extra material, a Q&A and updated

discussion notes. * This book inspired the film HE NAMED ME MALALA, the winner of the BAFTA for Best Documentary.
