**American Nation** Mar 26 2022 This middle grades geography and cultures program puts the world at your fingertips in a single convenient text - ideal for curriculum that covers the whole world in one school year. A grade-appropriate narrative combines with stunning visuals and an accessible layout to motivate all students to read. The program's innovative approach sparks interest and helps middle grades students make interdisciplinary connections.

[Comparative Perspectives on School Textbooks](#) Aug 26 2019 This book examines the discourses on nation-building, civic identity, minorities, and the formation of religious identities in school textbooks worldwide. It offers up-to-date, practical, and scholarly information on qualitative and mixed-method textbook analysis, as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries. The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social, political, and economic groups affect textbook production and the curricular aims in different educational systems worldwide. Chapters address the role of school textbooks in developing nationhood, the creation of citizenship through school textbooks, the complexity of gender in normative discourses, and the intersection of religion and culture in school textbooks.

*The American Nation* Mar 14 2021 A textbook for United States history from earliest Indian civilizations to the present, with maps, charts, activities, study questions, and review chapters.

**Machine Habitus** Dec 31 2019 We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technologies, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality by drawing algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely and the unlikely - on and beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as social agents, actively participating in social life. Through a wide range of examples, Massimo Airoidi shows how society shapes algorithmic code, and how this culture in the code guides the practical behaviour of the code in the culture, shaping society in turn. The 'machine habitus' is the generative mechanism at work throughout myriads of feedback loops linking humans with artificial social agents, in the context of digital infrastructures and pre-digital social structures. Machine Habitus will be of great interest to students and scholars in sociology, media and cultural studies, science and technology studies and information technology, and to anyone interested in the growing role of algorithms and AI in our social and cultural life.

*The Common Law* Nov 29 2019 Much more than an historical examination of liability, criminal law, torts, bail, possession and ownership, and contracts, The Common Law articulates the ideas and judicial theory of one of the greatest justices of the Supreme Court. G. Edward White reminds us why the book remains essential reading not only for law students but also for anyone interested in American history. The text published is, with occasional corrections of typographical errors, identical with that found in the first and all subsequent printings by Little, Brown.

[Custom Nation](#) Jun 04 2020 Smart brands such as Chipotle, Zazzle, Nike, and Pandora are ditching the outdated 20th century model of a one-size-fits-all approach to providing products and services. From a Netflix movie night to a marriage courtesy of eHarmony, customization is changing every corner of American life and business. The New York Times bestseller Custom Nation is a practical how-to guide by someone who has built his business on the power of customization. YouBar founder Anthony Flynn and business journalist Emily Flynn Vencat explain how marketers, brand managers, and entrepreneurs across all industries can reinvigorate their businesses and increase profits. In Custom Nation, learn: • Why customization is key to today's businesses and what does and doesn't work • How to incorporate customization in new and established businesses to make your products stand out and sell • What strategies work for the most successful and profitable custom brands Drawing on firsthand interviews with the CEOs and founders of dozens of companies specializing in customization, Custom Nation reveals how customization can make any business stand apart and generate market share, increase profit margins, and develop customer loyalty.

[The Secret History of America](#) Oct 21 2021 A compilation of rare works on the untold history and destiny of America by acclaimed occult writer Manly P. Hall. Writer and scholar Manly P. Hall (1901-1990) is one of the most significant names in the study of the esoteric, symbolic, and occult. His legendary book The Secret Teachings of All Ages has been an underground classic since its publication in 1928. The Secret History of America expands on that legacy, offering a collection of Hall's works—from books and journals to transcriptions of his lectures—all relating to the hidden past and unfolding future of our nation. Hall believed that America was gifted with a unique purpose to explore and share principles of personal freedom, self-governance, and independent thought. PEN Award-winning historian, Mitch Horowitz has curated a powerful collection of Hall's most influential and insightful works that capture and explore these ideas. Never before collected in one volume, the material in The Secret History of America explores the rich destiny, unseen history, and hidden meaning of America.

*The Second Media Age* Jul 26 2019 This book examines the implications of new communication technologies in the light of the most recent work in social and cultural theory and argues that new developments in electronic media, such as the Internet and Virtual Reality, justify the designation of a "second media age".

*America: History of Our Nation 2011 Survey Student Edition* Apr 26 2022 Prentice Hall America: A History of Our Nation is a program designed to engage today's students in the exciting story of our nation's past. Built around meeting the way you teach and the way your child learns, the program provides different pathways into the content for all levels and types of learners, while providing cutting-edge support developed to provide a "wow!"

factor at each stage of instruction. The program is built around Essential Questions designed to stimulate conversation, emphasize source analysis, hands-on learning, and critical thinking with a goal of helping students to achieve an enduring understanding of America's past. Authors focus on the "why" of history--helping students make meaning of what happened long ago and why it remains important to us today. The Survey Edition - supports all American History courses from the beginnings to the modern day The Beginnings Through 1877 Edition - supports courses covering up to the Civil War and Reconstruction. The Civil War to the Present Edition - can be used for the second part of a two-year American History course and includes a review of American History to the Civil War.

**Dangerous Nation** May 04 2020 Most Americans believe the United States had been an isolationist power until the twentieth century. This is wrong. In a riveting and brilliantly revisionist work of history, Robert Kagan, bestselling author of *Of Paradise and Power*, shows how Americans have in fact steadily been increasing their global power and influence from the beginning. Driven by commercial, territorial, and idealistic ambitions, the United States has always perceived itself, and been seen by other nations, as an international force. This is a book of great importance to our understanding of our nation's history and its role in the global community.

**Shasta Nation** Feb 22 2022 Archival images help trace the history of the Shasta Nation, profiling the people, places, and events that have shaped its development.

*Next American Nation* Apr 02 2020 Are we now, or have we ever been, a nation? As this century comes to a close, debates over immigration policy, racial preferences, and multiculturalism challenge the consensus that formerly grounded our national culture. The question of our national identity is as urgent as it has ever been in our history. Is our society disintegrating into a collection of separate ethnic enclaves, or is there a way that we can forge a coherent, unified identity as we enter the 21st century? In this "marvelously written, wide-ranging and thought-provoking"\* book, Michael Lind provides a comprehensive revisionist view of the American past and offers a concrete proposal for nation-building reforms to strengthen the American future. He shows that the forces of nationalism and the ideal of a trans-racial melting pot need not be in conflict with each other, and he provides a practical agenda for a liberal nationalist revolution that would combine a new color-blind liberalism in civil rights with practical measures for reducing class-based barriers to racial integration. A stimulating critique of every kind of orthodox opinion as well as a vision of a new "Trans-American" majority, *The Next American Nation* may forever change the way we think and talk about American identity. \*New York Newsday

Patriarch Jun 16 2021 Presents an intimate account of Washington during his presidency, recounting his struggle to contain the conflicts in his cabinet (especially the celebrated feud between Jefferson and Hamilton) and to keep the new nation out of Europe's influence. 25,000 first printing.

**The American Nation** Aug 19 2021 Resources to help students link main ideas in American history to other disciplines.

**The American Nation** Oct 01 2022 US social studies textbook (advance copy) for study and reference.

**Land, People, Nation** Sep 07 2020 Based on the CALLA model, the "Land, People, Nation" series is an effective tool for students to acquire English and academic content simultaneously. It also serves as a valuable alternative for students experiencing difficulty with a basal social studies text. New in the Second Edition: Alignment with national history standards, including correlations to assist in lesson planning. Explicit instruction on learning strategies. The inclusion of CALLA Phases (Preparation, Presentation, Practice, Self-evaluation, and Expansion) on each page of the student text. Website listings to assist instructors in integrating technology into the program.

**The American Nation** Jun 28 2022

**American Nations** Jan 24 2022 An illuminating history of North America's eleven rival cultural regions that explodes the red state-blue state myth. North America was settled by people with distinct religious, political, and ethnographic characteristics, creating regional cultures that have been at odds with one another ever since. Subsequent immigrants didn't confront or assimilate into an "American" or "Canadian" culture, but rather into one of the eleven distinct regional ones that spread over the continent each staking out mutually exclusive territory. In *American Nations*, Colin Woodard leads us on a journey through the history of our fractured continent, and the rivalries and alliances between its component nations, which conform to neither state nor international boundaries. He illustrates and explains why "American" values vary sharply from one region to another. Woodard (author of *American Character: A History of the Epic Struggle Between Individual Liberty and the Common Good*) reveals how intranational differences have played a pivotal role at every point in the continent's history, from the American Revolution and the Civil War to the tumultuous sixties and the "blue county/red county" maps of recent presidential elections. *American Nations* is a revolutionary and revelatory take on America's myriad identities and how the conflicts between them have shaped our past and are molding our future.

**The American Nation** Nov 02 2022

**The Soul of America** Jul 06 2020 #1 NEW YORK TIMES BESTSELLER • Pulitzer Prize-winning author Jon Meacham helps us understand the present moment in American politics and life by looking back at critical times in our history when hope overcame division and fear. ONE OF OPRAH'S "BOOKS THAT HELP ME THROUGH" • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The Christian Science Monitor • Southern Living Our current climate of partisan fury is not new, and in *The Soul of America* Meacham shows us how what Abraham Lincoln called the "better angels of our nature" have repeatedly won the day. Painting surprising portraits of Lincoln and other presidents, including Ulysses S. Grant, Theodore Roosevelt, Woodrow Wilson, Franklin D. Roosevelt, Harry S. Truman, Dwight Eisenhower, and Lyndon B. Johnson, and illuminating the courage of such influential citizen activists as Martin Luther King, Jr., early suffragettes Alice Paul and Carrie Chapman Catt, civil rights pioneers Rosa Parks and John Lewis, First Lady Eleanor Roosevelt, and Army-McCarthy hearings lawyer Joseph N. Welch, Meacham brings vividly to life turning points in American history. He writes about the Civil War, Reconstruction, and the birth of the Lost Cause; the backlash against immigrants in the First World War and the resurgence of the Ku Klux Klan in the 1920s; the fight for women's rights; the demagoguery of Huey Long and Father Coughlin and the isolationist work of America First in the years before World War II; the anti-Communist witch-hunts led by Senator Joseph McCarthy; and Lyndon Johnson's crusade against Jim Crow. Each of these dramatic hours in our national life have been shaped by the contest to lead the country to look forward rather than back, to assert hope over fear—a struggle that continues even now. While the American story has not always—or even often—been heroic, we have been sustained by a belief in progress even in the gloomiest of times. In this inspiring book, Meacham reassures us, "The good news is that we have come through such darkness before"—as, time and again, Lincoln's better angels have found a way to prevail. Praise for *The Soul of America* "Brilliant, fascinating, timely . . . With compelling narratives of past eras of strife and disenchantment, Meacham offers wisdom for our own time."—Walter Isaacson "Gripping and inspiring, *The Soul of America* is Jon Meacham's declaration of his faith in America."—Newsday "Meacham gives readers a long-term perspective on American history and a reason to believe the soul of America is ultimately one of kindness and caring, not rancor and paranoia."—USA Today

The American Nation Nov 09 2020 A textbook for United States history from the Civil War to the present, with maps, charts, activities, study questions, and review chapters.

**Independence Hall in American Memory** Sep 19 2021 Independence Hall is a place Americans think they know well. Within its walls the Continental Congress declared independence in 1776, and in 1787 the Founding Fathers drafted the U.S. Constitution there. Painstakingly restored to evoke these momentous events, the building appears to have passed through time unscathed, from the heady days of the American Revolution to today. But Independence Hall is more than a symbol of the young nation. Beyond this, according to Charlene Mires, it has a long and varied history of changing uses in an urban environment, almost all of which have been forgotten. In *Independence Hall*, Mires rediscovers and chronicles the lost history of Independence Hall, in the process exploring the shifting perceptions of this most important building in America's popular imagination. According to Mires, the significance of Independence Hall cannot be fully appreciated without assessing the full range of political, cultural, and social history that has swirled about it for nearly three centuries. During its existence, it has functioned as a civic and cultural center, a political arena and

courtroom, and a magnet for public celebrations and demonstrations. Artists such as Thomas Sully frequented Independence Square when Philadelphia served as the nation's capital during the 1790s, and portraitist Charles Willson Peale merged the arts, sciences, and public interest when he transformed a portion of the hall into a center for natural science in 1802. In the 1850s, hearings for accused fugitive slaves who faced the loss of freedom were held, ironically, in this famous birthplace of American independence. Over the years Philadelphians have used the old state house and its public square in a multitude of ways that have transformed it into an arena of conflict: labor grievances have echoed regularly in Independence Square since the 1830s, while civil rights protesters exercised their right to free speech in the turbulent 1960s. As much as the Founding Fathers, these people and events illuminate the building's significance as a cultural symbol.

**Civic Gifts** Jan 12 2021 In *Civic Gifts*, Elisabeth S. Clemens takes a singular approach to probing the puzzle that is the United States. How, she asks, did a powerful state develop within an anti-statist political culture? How did a sense of shared nationhood develop despite the linguistic, religious, and ethnic differences among settlers and, eventually, citizens? Clemens reveals that an important piece of the answer to these questions can be found in the unexpected political uses of benevolence and philanthropy, practices of gift-giving and reciprocity that coexisted uneasily with the self-sufficient independence expected of liberal citizens. *Civic Gifts* focuses on the power of gifts not only to mobilize communities throughout US history, but also to create new forms of solidarity among strangers. Clemens makes clear how, from the early Republic through the Second World War, reciprocity was an important tool for eliciting both the commitments and the capacities needed to face natural disasters, economic crises, and unprecedented national challenges. Encompassing a range of endeavors from the mobilized voluntarism of the Civil War, through Community Chests and the Red Cross to the FDR-driven rise of the March of Dimes, Clemens shows how voluntary efforts were repeatedly articulated with government projects. The legacy of these efforts is a state co-constituted with, as much as constrained by, civil society.

**The American Nation** Oct 28 2019 A textbook for the middle grades exploring American history from prehistory to the present day in a multicultural and interdisciplinary context.

**The Secret History of America** Oct 09 2020 A compilation of rare works on the untold history and destiny of America by acclaimed occult writer Manly P. Hall. Writer and scholar Manly P. **The American Nation** Aug 07 2020

**The Virginia Dynasty** Dec 23 2021 A vivid account of leadership focusing on the first four Virginia presidents--George Washington, Thomas Jefferson, James Madison, and James Monroe--from the bestselling historian and author of *James Madison*. From a small expanse of land on the North American continent came four of the nation's first five presidents--a geographic dynasty whose members led a revolution, created a nation, and ultimately changed the world. George Washington, Thomas Jefferson, James Madison, and James Monroe were born, grew to manhood, and made their homes within a sixty-mile circle east of the Blue Ridge Mountains. Friends and rivals, they led in securing independence, hammering out the United States Constitution, and building a working republic. Acting together, they doubled the territory of the United States. From their disputes came American political parties and the weaponizing of newspapers, the media of the day. In this elegantly conceived and insightful new book from bestselling author Lynne Cheney, the four Virginians are not marble icons but vital figures deeply intent on building a nation where citizens could be free. Focusing on the intersecting roles these men played as warriors, intellectuals, and statesmen, Cheney takes us back to an exhilarating time when the Enlightenment opened new vistas for humankind. But even as the Virginians advanced liberty, equality, and human possibility, they held people in slavery and were slaveholders when they died. Lives built on slavery were incompatible with a free and just society; their actions contradicted the very ideals they espoused. They managed nonetheless to pass down those ideals, and they became powerful weapons for ending slavery. They inspired Abraham Lincoln and Frederick Douglass and today undergird the freest nation on earth. Taking full measure of strengths and failures in the personal as well as the political lives of the men at the center of this book, Cheney offers a concise and original exploration of how the United States came to be.

**Lincoln on the Verge** Dec 11 2020 WINNER OF THE LINCOLN FORUM BOOK PRIZE "A Lincoln classic...superb." —The Washington Post "A book for our time."—Doris Kearns Goodwin *Lincoln on the Verge* tells the dramatic story of America's greatest president discovering his own strength to save the Republic. As a divided nation plunges into the deepest crisis in its history, Abraham Lincoln boards a train for Washington and his inauguration—an inauguration Southerners have vowed to prevent. *Lincoln on the Verge* charts these pivotal thirteen days of travel, as Lincoln discovers his power, speaks directly to the public, and sees his country up close. Drawing on new research, this riveting account reveals the president-elect as a work in progress, showing him on the verge of greatness, as he foils an assassination attempt, forges an unbreakable bond with the American people, and overcomes formidable obstacles in order to take his oath of office.
