Twitter and Tear Gas May 21 2022 A firsthand account and incisive analysis of modern protest, revealing internet-fueled social movements' greatest strengths and frequent challenges To understand a thwarted Turkish coup, an anti-Wall Street encampment, and a packed Tahrir Square, we must first comprehend the power and the weaknesses of using new technologies to mobilize large numbers of people. An incisive observer, writer, and participant in today's social movements, Zeynep Tufekci explains in this accessible and compelling book the nuanced trajectories of modern protests—how they form, how they operate differently from past protests, and why they have difficulty persisting in their long-term quests for change. Tufekci speaks from direct experience, combining on-the-ground interviews with insightful analysis. She describes how the internet helped the Zapatista uprisings in Mexico, the necessity of remote Twitter users to organize medical supplies during Arab Spring, the refusal to use bullhorns in the Occupy Movement that started in New York, and the empowering effect of tear gas in Istanbul's Gezi Park. These details from life inside social movements complete a moving investigation of authority, technology, and culture—and offer essential insights into the future of governance.

Contesting Nordicism Jul 23 2022 The terms 'Nordic' and 'Scandinavian' are widely used to refer to the politics, society and culture of Denmark, Finland, Iceland, Norway and Sweden. But why have people felt the need to frame things as Nordic and why has the adjective Nordic become so prominent? This book adopts a rhetorical approach, analysing the speech acts which have shaped the meanings of the term. What do the different terms Nordic and Scandinavian have in common, and how have the uses of these terms changed in different historical periods? What accounts for the apparent upsurge in uses of the rhetoric of Nordicism in the 2010s? Drawing on eight case studies of the uses of Nordic and Scandinavian from the nineteenth century to the present day, the book explores the appeal and the flexibility of the rhetoric of Nordicism, in relation to race, openness, gender equality, food, crime fiction, Nordic co-operation and the Nordic model. Arguing that 'Nordic' and 'Scandinavian' are flexible and contested concepts that have been used in different, often contradictory and inherently political ways, the book suggests that the usage of the term has evolved from a means of creating a cultural community, to forging political co-operation and further to marketing models in politics and popular culture. The rhetorical approach also shows how many of the hallmarks of Nordic political culture, such as the Nordic model, Nordic gender equality or Nordic openness are more recent conceptualisations than usually assumed. As such, the book argues for the need to turn attention away from analysing the different components of Nordicism into studying how, when, and for what purpose different features were made Nordic.

A Zen Harvest Oct 14 2021 One of the vital aspects of traditional Rinzai Zen koan study in Japan is jakugo, or capping-phrase exercises. When Zen students have attained sufficient mastery of meditation or concentration, they are given a koan (such as the familiar "What is the sound of one hand clapping?") to study. When the student provides a satisfactory response to

the koan, he advances to the jakugo exercise—he must select a “capping phrase,” usually a passage from a poem among the thousands in a special anthology, the only book allowed in the monastery. One such anthology, written entirely in Chinese, was translated by noted Zen priest and scholar Soiku Shigematsu as *A Zen Forest: Sayings of the Masters*. Equally important is a Japanese collection, the *Zenrin Segoshu*, which Mr. Shigematsu now translates from the Japanese, including nearly eight hundred poems in sparkling English versions that retain the Zen implications of the verse.

On the State Mar 07 2021 What is the nature of the modern state? How did it come into being and what are the characteristics of this distinctive field of power that has come to play such a central role in the shaping of all spheres of social, political and economic life? In this major work the great sociologist Pierre Bourdieu addresses these fundamental questions. Modifying Max Weber's famous definition, Bourdieu defines the state in terms of the monopoly of legitimate physical and symbolic violence, where the monopoly of symbolic violence is the condition for the possession and exercise of physical violence. The state can be reduced neither to an apparatus of power in the service of dominant groups nor to a neutral site where conflicting

interests are played out: rather, it constitutes the form of collective belief that structures the whole of social life. The 'collective fiction' of the state is a fiction with very real effects - is at the same time the product of all struggles between different interests, what is at stake in these struggles, and their very foundation. While the question of the state runs through the whole of Bourdieu's work, it was never the subject of a book designed to offer a unified theory. The lecture course presented here, to which Bourdieu devoted three years of his teaching at the Collège de France, fills this gap and provides the key that brings together the whole of his research in this field. This text also shows 'another Bourdieu', both more concrete and more pedagogic in that he presents his thinking in the process of its development. While revealing the illusions of 'state thought' designed to maintain belief in government being oriented in principle to the common good, he shows himself equally critical of an 'anti-institutional mood' that is all too ready to reduce the construction of the bureaucratic apparatus to the function of maintaining social order. At a time when financial crisis is facilitating the hasty dismantling of public services, with little regard for any notion of popular sovereignty, this book offers the critical instruments needed for a more lucid understanding of the wellsprings of domination.
