Identifying Business Opportunities Apr 14 2021 No one is born successful. When we were born, we even did not know how to spell "successful", knowing its meaning was something quite far-off. As we grew up, we began chipping in efforts to turn our lives into successful lives. Some of us do achieve the success that we have thought about, but that doesn't come without a great deal of effort. One of the most important ingredients in becoming successful is to have a vision, a dream. If you don't know how to dream, you will most probably not achieve anything in life. Some people are afraid to dream, thinking they would be terribly frustrated if they don't achieve their goals. But the fact is that if you don't dream, you probably won't get it. Great people dreamed of flying, going to the moon and so on... you see now that we can fly, we can go to the moon. In this age when people are thinking how to build gadgets that can turn objects and even people invisible, it is quite unwise to restrict one's thoughts. What do you dream about? Probably you dream about having a great business or buying a home or a car of your own. In the light of all the achievements that people have made, do you think all this is as difficult as you think? This shows there is nothing impossible in this world you if you do it the right way, if you take initiatives and plan it properly. Practically the whole world today uses his Microsoft products, not realizing that these products belong to a person who is a computer dropout. Take a look at Facebook. It started as a college project and has today made a revolution in the field of social networking. How can we not talk about Google, which started in a dingy office and today it dominates our online world. All these successes have been achieved in just a few short years! So, don't lose hope, hold on to your big dreams and try to achieve them. The simple steps that you need to take are hard work, and to be there at the right time and the right place.

And the Baby's Name Is... Jun 04 2020 *And The Baby's Name Is...* is a book that every family and household should have. This book sheds light on the connection between the name given to a child and the destiny of that child. Unknown to many, along with every name comes a calling. The average name is called or pronounced hundreds of times a day. And because of the power of the tongue, that child is being prophesied to each time the name is called. As kids, we used to say that "sticks and stones may break my bones but words can never hurt me." However, as we grow older, we realize that this saying is very far from the truth. So God's Word is true; The power of life and death is in the tongue. Therefore, the choice of names for our children may impact their journey in life more than we can imagine! In today's society, choosing a child's name has become as simple as taking polls from friends and associates, or merging portions of two names. In fact, some parents would just give a child a name simply because it sounds cute! Sadly, many children (and parents alike) do not even know the meaning of their names. And *The Baby's Name Is...* enlightens one on how to carefully and diligently handle the task of selecting a child's name. A name is powerful. A good and godly name is even more powerful. May the Lord bless you and grant you godly counsel as you read. Samuel Jonathan
