**Love and Vulnerability** Jul 28 2019 Love and Vulnerability: Thinking with Pamela Sue Anderson developed out of the desire for dialogue with the late feminist philosopher Pamela Sue Anderson's extraordinary, previously unpublished, last work on love and vulnerability. The collection publishes

this work for the first time, with a diverse, multidisciplinary, international range of contributors responding to it, to Anderson's oeuvre as a whole and to her life and death. Anderson's path-breaking work includes *A Feminist Philosophy of Religion* (1998) and *Re-visioning Gender in Philosophy of Religion: Reason, Love and Epistemic Locatedness* (2012). Her last work critiques, then attempts to rebuild, concepts of love and vulnerability. Reason, critical self-reflexivity, emotion, intuition and imagination, myth and narrative all have a role to play. Social justice, friendship, conversation, dialogue, collective work are central to her thinking. Contributors trace the emergence of Anderson's late thinking, extend her conversations with the history of philosophy and contemporary voices such as hooks and Butler, and bring her work into contact with debates in theology; Continental and analytic philosophy; feminist, queer and transgender theory; postcolonial theory; African-American studies. Discussions engage with the Me Too movement and sexual violence, climate change, sweatshops, neoliberalism, death and dying, and the nature of the human. Originally published as a special issue of the journal, *Angelaki*, this large, wide-ranging collection, featuring a number of distinguished contributors, makes a significant contribution to the burgeoning interdisciplinary research on interpersonal relations, sympathy and empathy, affect and emotion.

**Art and the Creative Unconscious** May 06 2020 "First Published in 1999, Routledge is an imprint of Taylor & Francis, an informa company."

**Emergent Teaching** Feb 12 2021 Inspiring teachers to teach with more spontaneity and creativity within a highly constrained educational environment, this text demonstrates through descriptive stories strategies for emergent teaching. The text is consistent with the theoretical understandings and research in the complexity sciences but takes a narrative approach, giving examples through stories, myths, and parables.

**Advanced MIS and Digital Transformation for Increased Creativity and Innovation in Business** Sep 09 2020 As businesses undergo digital transformation, technologies will lead to greater efficiencies and change how we interact in traditional relationships among suppliers, producers, and customers, as well as between human and machine. One such technology is the introduction of management information systems (MIS) that provide a company with the coordination, control, analysis, and visualization of information by collecting from various digital environments. In today's digital age, information needs to be managed, and MIS have the ability to transfer the information obtained by computer systems to the business operations within the business models, business processes, and management functions. **Advanced MIS and Digital Transformation for Increased Creativity and Innovation in Business** is an essential reference source that discusses the impact of digital technologies in enterprises and their competitive environment on management information systems and examines the application of new technologies to support strategic decisions and realize exciting visions. Featuring research on topics such as machine learning, resource planning, and e-commerce, this book is ideally designed for managers, executives, IT specialists, analysts, business professionals, training officers, software engineers, business administrators, scholars, researchers, and practitioners seeking coverage on future trends, issues, and challenges in relation to management information systems.

**The Cast-off Recast** Apr 28 2022 On a daily basis remnants, scraps and rubbish are filtered through formal and informal salvage operations in urban centers throughout the world. The essays included in this volume explore the process of recycling within distinct environments.

**The First Islamic Classic in Chinese** Aug 28 2019 A translation of Wang Daiyu's Real Commentary on the True Teaching, the first and most influential work written in the Chinese

language on Islam. Published in 1642, Wang Daiyu's Real Commentary on the True Teaching was the first significant presentation of Islam in the Chinese language by a Muslim scholar. It set the standard for the expression of Islamic theology, Sufism, and ethics in Chinese, and became the literary foundation of a school of thought that has been called "Muslim Confucianism." In contrast to Muslim scholars writing in every other language, Wang avoided Arabic words, opting instead to reconfigure the religion in terms of Chinese concepts and categories. Employing the terminology of Neo-Confucian philosophy, his overview of Islam is thus both congenial to the mainstream Islamic tradition and reaffirms Confucian teachings about the human duty to establish harmony between heaven and earth. This book will appeal to those curious about the manner in which Islam has flourished in China over the past thousand years, as well as those interested in dialogue among religions and the significance of religious diversity.

Creative Transformation Jul 20 2021 This unique account by an art and dance therapist is the first of its kind successfully to integrate Jungian theory, creative arts therapy, and developmental object relations theory

**Creative Transformation** Nov 04 2022 Creativity is the mystical process by which we discover scientific laws, invent machines and produce art. The objective is to be thoroughly scientific in our mysticism and thoroughly mystical in our science. Creative Transformation leaps beyond the current worldwide debate linking quantum physics and ancient mystic concepts. It makes bold proposals for reintegrating science and spirit. Garcia's synthesis for a new cosmology is of sweeping proportions and integrates information from our most distant evolutionary past with the latest scientific breakthroughs. Influenced by Spinoza, Teilhard de Chardin and David Bohm, his theory of creative

transformation includes a practical application of creative problem-solving strategies beyond science into human relations, politics and ethics. It's a user-friendly guide for scientists, teachers, parents, artists, New Age activists and all who value creativity to maximize their own abilities and find solutions to our most pressing social, ecological, and economic problems.

Cancer and Creativity May 18 2021 *Cancer and Creativity* is a dialogue between accounts by cancer patients and survivors and a more clinical consideration and theoretical discussion from a psychoanalytic point of view of using creativity in coping with serious illness. The contributions featured demonstrate the power of creative expression as a tool for dealing with somatic, chronic and potentially life-threatening illnesses, giving patients a way of expressing and managing their individual cancer journeys and its attendant emotional sequelae. Ten artist-patients and survivors, who were involved in several long-term art therapy groups, give accounts of their experiences with cancer and with their support group, where they create paintings, embroidery, digital photography, comic books, maps and other works to express their experiences of being diagnosed and treated for cancer. The contributors describe their symptoms and their relationships to physicians and family members in words and visual representations. The book also addresses the experience of the public when they are confronted with art by cancer patients. Dreifuss-Kattan's own work as a psychoanalyst and art therapist informs her approach to the art space as what Winnicott calls a "transitional space," influenced by both the personal psychological experience and the physical environment. Dreifuss-Kattan closes her discussion with a reflection on terminal cancer care and the complex transference and countertransference relationship between patient and therapist. The book ends with a practical guide for both therapy groups, as well as individuals at home, to creatively address their experiences with cancer and its treatments. *Cancer and Creativity* will be of

great interest to psychoanalysts, psychoanalytic psychotherapists, psychooncologists and art therapists, as well as health professionals working in oncology and in palliative care.

*Mended by the Muse: Creative Transformations of Trauma* Feb 24 2022 Mended by the Muse: Creative Transformations of Trauma is an in-depth exploration of the relationship between trauma and creativity. It is about art in the service of healing, mourning, and memorialization. This book addresses the questions of how artistic expression facilitates the healing process; what the therapeutic action of art is, and if there is a relationship between mental instability and creativity. It also asks how self-analysis through art-making can be integrated with psychoanalytic work in order to enrich and facilitate emotional growth. Drawing on four decades of clinical practice and a critical reading of creativity literature, Sophia Richman presents a new theory of the creative process whose core components are relational conceptualizations of dissociation and witnessing. This is an interdisciplinary book which draws inspiration from life histories, clinical case material, neuroscience, and interviews with creators, as well as from various art forms such as film, literature, paintings, and music. Some areas of discussion include: art born of genocide, confrontation with mortality in illness and aging, and the clinical implications of memoirs written by psychoanalysts. Visual images are interspersed throughout the text that illustrate the reverberations of trauma and its creative transformation in the work of featured artists. *Mended by the Muse: Creative Transformations of Trauma* powerfully articulates how creative action is one of the most effective ways of coping with trauma and its aftershocks - it is in art, in all its forms, that sorrow is given shape and meaning. Here, Sophia Richman shows how art helps to master the chaos that follows in the wake of tragedy, how it restores continuity, connection and the will for a more fully lived life. This book is written for psychoanalysts as well as for other mental health professionals who practice

and teach in academic settings. It will also be of interest to graduate and post-graduate students and will be relevant for artists who seek a better understanding of the creative process.

[Dancing with Monsters](#) Dec 13 2020 This is a book about monsters. Not the cute, laughably incompetent ones you see in animated movies, but the ones you meet in your own life: ugly thoughts, unexpected losses, inexcusable evils. A decade after being diagnosed with multiple sclerosis, Kate discovered that what she knew about creativity and transformation could help her deal with the frustrations of living with chronic illness and of life in general. Through memoir, essay, and fanciful stories, this book explores the landscape of chronic illness, describes its contours, and invites you to choreograph a dance with your own monsters, whatever they may be.

[Meeting the Innovation Challenge](#) Mar 04 2020 Meeting the Innovation Challenge offers a new way to look at creative leadership that integrates both leadership and management. This book also provides the reader key insights into a new and more systematic way to manage transformation. As a result, the reader will be able to discover a full range of potential outcomes from their change efforts—from radical new to the world transformation to incremental improvements. Since people are at the heart of any transformation issue, Meeting the Innovation Challenge includes helpful information on the various roles required to initiate and sustain change efforts. Many change initiatives use teams, so specific tools are outlined to create and manage teamwork for transformation. Those who lead and manage organizations have too many change methods from which to choose. This book offers practical advice on how to select and manage a variety of change methods, as well as a helpful selected list of many of the methods available from which to choose. An example is drawn and explained from the area of new product or service development. An often-overlooked element of climate and context is also addressed. Successful innovation, change and

transformation require an environment in which people are ready, willing and able to initiate and sustain change. Meeting the Innovation Challenge addresses this area by clarifying the differences between culture and climate, and then offering practical ways to understand and create the climate for transformation.

*Handbook of Research on Creative Cities and Advanced Models for Knowledge-Based Urban Development* Jul 08 2020 Discussing global society entails discussing the predominant characteristics of knowledge-based activities in all walks of life. Its main characteristics are based on creativity, innovation, freedom, and networking. The emergence of such a society poses several challenges to all disciplines of social sciences. Within such a context, sociologists must have practical encounters to the theoretical, methodological, and empirical challenges imposed within contemporary global society. In this vein, studying creative cities from an interdisciplinary perspective helps provide critical readings of the phenomenon and the different levels of the concept in reality. The Handbook of Research on Creative Cities and Advanced Models for Knowledge-Based Urban Development provides global models and best practices of creative cities worldwide and illustrates different theoretical blueprints for the better understanding of contemporary global society. While defining key concepts of creative cities, global society, and creative class, the book also clarifies the main differences between hubs, parks, and precincts and their contributions to knowledge-based development. Covering topics that include knowledge economy, social inclusion, and urban mobility, this comprehensive reference is ideal for sociologists, urban planners/designers, political scientists, economists, anthropologists, historians, policymakers, researchers, academicians, and students.

*Digital Transformation in the Cultural and Creative Industries* Jun 06 2020 This research-based book

investigates the effects of digital transformation on the cultural and creative sectors. Through cases and examples, the book examines how artists and art institutions are facing the challenges posed by digital transformation, highlighting both positive and negative effects of the phenomenon. With contributions from an international range of scholars, the book examines how digital transformation is changing the way the arts are produced and consumed. As relative late adopters of digital technologies, the arts organizations are shown to be struggling to adapt, as issues of authenticity, legitimacy, control, trust, and co-creation arise. Leveraging a variety of research approaches, the book identifies managerial implications to render a collection that is valuable reading for scholars involved with arts and culture management, the creative industries and digital transformation more broadly.

**Acting Together II: Performance and the Creative Transformation of Conflict** Aug 01 2022

Acting Together, Volume II, continues from where the first volume ends documenting exemplary peacebuilding performances in regions marked by social exclusion structural violence and dislocation. Acting Together: Performance and the Creative Transformation of Conflict is a two-volume work describing peacebuilding performances in regions beset by violence and internal conflicts. Volume I, Resistance and Reconciliation in Regions of Violence, emphasizes the role theatre and ritual play both in the midst and in the aftermath of direct violence, while Volume II: Building Just and Inclusive Communities, focuses on the transformative power of performance in regions fractured by "subtler" forms of structural violence and social exclusion. Volume I: Resistance and Reconciliation in Regions of Violence focuses on the role theatre and ritual play both in the midst and in the aftermath of violence. The performances highlighted in this volume nourish and restore capacities for expression, communication, and transformative action, and creatively support

communities in grappling with conflicting moral imperatives surrounding questions of justice, memory, resistance, and identity. The individual chapters, written by scholars, conflict resolution practitioners, and artists who work directly with the communities involved, offer vivid firsthand accounts and analyses of traditional and nontraditional performances in Serbia, Uganda, Sri Lanka, Palestine, Israel, Argentina, Peru, India, Cambodia, Australia, and the United States. Complemented by a website of related materials, a documentary film, *Acting Together on the World Stage*, that features clips and interviews with the curators and artists, and a toolkit, or "Tools for Continuing the Conversation," that is included with the documentary as a second disc, this book will inform and inspire socially engaged artists, cultural workers, peacebuilding scholars and practitioners, human rights activists, students of peace and justice studies, and whoever wishes to better understand conflict and the power of art to bring about social change. The *Acting Together* project is born of a collaboration between Theatre Without Borders and the Program in Peacebuilding and the Arts at the International Center for Ethics, Justice, and Public Life at Brandeis University. The two volumes are edited by Cynthia E. Cohen, director of the aforementioned program and a leading figure in creative approaches to coexistence and reconciliation; Roberto Gutierrez Varea, an award-winning director and associate professor at the University of San Francisco; and Polly O. Walker, director of Partners in Peace, an NGO based in Brisbane, Australia.

**Creative Transformations** May 30 2022 Explores the role of travel and translation in Brazilian literature and culture from the 1870s to the present. In *Creative Transformations*, Krista Brune brings together Brazilian fiction, film, journalism, essays, and correspondence from the late nineteenth to the early twenty-first centuries. Drawing attention to the travels of Brazilian artists and intellectuals to the United States and other parts of the Americas, Brune argues that

experiences of displacement have had a significant influence on their work. Across Brazilian literary and cultural history, translation becomes a way of navigating and representing the resulting encounters between languages, interactions with Spanish Americans, and negotiations of complex identities. While *Creative Transformations* engages extensively with theories of translation from different national and disciplinary contexts, it also constructs a vision of translation uniquely attuned to the place of Brazil in the Americas. Brune reveals the hemispheric underpinnings of works by renowned Brazilian writers such as Machado de Assis, Sousândrade, Mário de Andrade, Silviano Santiago, and Adriana Lisboa. In the process, she rethinks the dynamics between cosmopolitan and national desires and between center and periphery in global literary markets. Krista Brune is Assistant Professor of Portuguese and Spanish at Pennsylvania State University.

**The Economics of Digital Transformation** Sep 29 2019 The unprecedented Covid-19 crisis revealed the scale and scope of a new type of economy taking shape in front of our very eyes: the digital economy. This book presents a concise theoretical and conceptual framework for a more nuanced analysis of the economic and sociological impacts of the technological disruption that is taking place in the markets of goods and services, labour markets, and the global economy more generally. This interdisciplinary work is a must for researchers and students from economics, business, and other social science majors who seek an overview of the main digital economy concepts and research. Its down-to-earth approach and communicative style will also speak to businesses practitioners who want to understand the ongoing digital disruption of the market rules and emergence of the new digital business models. The book refers to academic insights from economics and sociology while giving numerous empirical examples drawn from basic and applied research and business. It addresses several burning issues: how are digital processes transforming

traditional business models? Does intelligent automation threaten our jobs? Are we reaching the end of globalisation as we know it? How can we best prepare ourselves and our children for the digitally transformed world? The book will help the reader gain a better understanding of the mechanisms behind the digital transformation, something that is essential in order to not only reap the plentiful opportunities being created by the digital economy but also to avoid its many pitfalls.

**A Bright Clean Mind** Oct 03 2022 Discover how your diet may affect your creativity, how going vegan is like giving yourself brain food, and how to incorporate veganism into your life. When author and certified vegan lifestyle coach Camille DeAngelis is asked how she feels satisfied on a vegan diet, she thinks of the moment in James and the Giant Peach when the Grasshopper and the Centipede fret that they have nothing to eat until James points out that they're traveling inside an enormous piece of fruit. There is plenty, Camille reminds us in this self-help motivational book for artists and creatives. Everything we could ever want to eat, and more, is all around us. Because we live in a culture in which the eating and wearing of animals is taken for granted, we rarely recognize our limiting meat-centric mindset. But if we can employ our imagination to create worlds from scratch, we can surely use it to envision a new way of seeing ourselves in relation to the animals we eat. On the other side of this brain transformation is a lifestyle that is ideal for our own health and emotional well-being and is much more environmentally sustainable. Camille believes that creative hobbies and habits reinvigorate one's primary work. But she knits, sews, embroiders, and bakes for the pleasure of it, too. Her productivity and brain power have been remarkable since going vegan seven years ago, and even more importantly, she no longer feels any of the frustration or uncertainty artists tend to accept as part of the creative process. If you're a creative suffering from brain fog, A Bright Clear Mind can help. Praise for A Bright Clear Mind "If you are a maker or an artist who feels

anxious, depressed or just plain not feeling up to par, I urge you to read this book. In the pages you will discover how to wake up your life force by embracing a more connected way of living and eating.” —Elise Marie Collins, author of *Super Ager: You Can Look Younger, Have More Energy, A Better Memory and Live a Long and Healthy Life* “DeAngelis roundly disproves the theory that plant-eaters are somber moralists . . . Getting to peer into the lives and creative processes of these vegan visionaries makes me want to write and dance and organize my cupboards and make a tofu frittata.” —Victoria Moran, author of *Creating a Charmed Life* and *Main Street Vegan*

**Disruption, Change and Transformation in Organisations** Jun 26 2019 This book explores the psychological and social dynamics of continuous, disruptive and discontinuous change. It examines the emotional strain and challenges of disruption, studies the nature of organisational transformation and examines what can be done to develop an organisation’s capacity to adapt and thrive in turbulent environments. An organisation’s long-term survival increasingly rests on its adaptive capacity, ability to continuously change and transform itself. Yet, people experience ongoing and fundamental change to be disorientating and unsettling as it challenges accepted assumptions and identities. This book assists leaders and change practitioners understand these dynamics, help people to make sense of change and to create the conditions that enable people to self-organise and creatively adapt. With case studies and personal accounts from individuals and companies, this is an ideal resource for practitioners and managers dealing with organisational change, as well as students, academics and researchers.

**Confucian Thought** Mar 28 2022 Tu Wei-ming is the foremost exponent of Confucian thought in the United States today. Over the last two decades he has been developing a creative scholarly interpretation of Confucian humanism as a living tradition. The result is a work of interpretive

brilliance that revitalizes Confucian thought, making it a legitimate concern of contemporary philosophical reflections.

Creative Revolution Apr 16 2021 Painting can be so much more than a mere hobby - it can be a vehicle transforming your mind, body, and spirit! Painting and bravely embracing the challenges of creativity sparks a revolution that involves heart, creativity, courage, and trust! Artistic pursuits such as painting have the power to soothe, heal, and connect a person to their truest self. For author Flora Bowley, making art and expressing herself creatively have always served as potent forms of personal evolution and holistic healing. Creative Revolution is the reader's key to unlocking the door to their own personal journey while making beautiful art. Creative Revolution is the culmination of Flora's life's work as an artist, offering guidance for others to embrace their authentic selves through paint. She has taught more than sixty workshops since she wrote her first book, Brave Intuitive Painting, and has witnessed miraculous things when people engage with the intuitive painting process. Creative Revolution is the next best thing to taking a course from Flora. Many readers and students can't help but exclaim, "This was about so much more than painting!" After reading Creative Revolution, readers will have a deeper connection to their intuition, increased confidence to make bolder choices, freedom to let go and explore various options, an understanding that everything is transformable, the trust that it will all work out in the end, and a renewed sense that creating can be fun and playful. All of this powerful transformation begins with paint. Flora has been writing and reflecting on these transformational aspects of the creative process for years. Creative Revolution is an insightful and practical guide for realizing the transformational power of fully embracing your creativity.

[A Transformation Journey to Creative and Alternative Planetary Futures](#) Nov 23 2021 This book presents a counter-trend against nationalism, religious extremism, xenophobia, and racism. It advocates an alternative globalization based not on trade, the economy, and politics, but on humanity's transcendence to a collective consciousness. Inspired by a pantheist worldview, it applies an integral perspective toward strategic foresight and anticipation on the planetary scale. Controversial, disappearing, and emerging binary oppositions are explained within the framework of the mythology of the Lord of Wisdom versus the Ignorant Mind. It shows that our anticipatory planetary era might be characterized by the acknowledgement of our "zero knowledge", as measured in the ocean of all disciplines; zero carbon for energy; zero war in politics and zero killing in society; zero conscious beings excluded; and zero existence (as we have known it), as humanity

merges into some higher and enriched complexity.

**Designing Urban Transformation** Oct 11 2020 While designers possess the creative capabilities of shaping cities, their often-singular obsession with form and aesthetics actually reduces their effectiveness as they are at the mercy of more powerful generators of urban form. In response to this paradox, *Designing Urban Transformation* addresses the incredible potential of urban practice to radically change cities for the better. The book focuses on a powerful question, "What can urbanism be?" by arguing that the most significant transformations occur by fundamentally rethinking concepts, practices, and outcomes. Drawing inspiration from the philosophical movement known as Pragmatism, the book proposes three conceptual shifts for transformative urban practice: (a) beyond material objects: city as flux, (b) beyond intentions: consequences of design, and (c) beyond practice: urbanism as creative political act. Pragmatism encourages us to consider how we can make deeper and more systemic changes and how urbanism itself can be a design strategy for such transformations. To illuminate how these conceptual shifts operate in vastly different contexts through analysis of transformative urban initiatives and projects in Belo Horizonte, Boston, Cairo, Karachi, Los Angeles, New Delhi, and Paris. The book is a rare integration of theory and practice that proposes essential ways of rethinking city-design-and-building processes, while drawing critical lessons from actual examples of such processes.

Women Writing for (a) Change Dec 25 2021 In her insightful debut book, Mary Pierce Brosmer shares the unique method of writing that she developed as founder and director of Women Writing for (a) Change, a nationwide organization that teaches women and girls to nurture the conscious feminine voice within them. Imaginative exercises, helpful examples, and provocative anecdotes enable women to explore their writing not just as a means of individual self-examination and

expression, but also as a way to create and effect positive social change.

Disruptive Transformation Jan 14 2021

*The Creative Therapist* Jan 02 2020 In *The Creative Therapist*, Bradford Keeney makes the case that "creativity is the most essential aspect of vibrant, meaningful, and successful therapy." No matter what therapeutic orientation one practices, it must be awakened by creativity in order for the session to come alive. This book presents a theoretical framework that provides an understanding of how to go outside habituated ways of therapy in order to bring forth new and innovative possibilities. A basic structure for creative therapy, based on the outline of a three-part theatrical play, is also set forth. With these frameworks, practical guidelines detail how to initiate and implement creative contributions to any therapeutic situation.

Psychological Healing Through Creative Self-Understanding and Self-Transformation Nov 11 2020

This book focuses on the development of psychological self-understanding, healing psychologically painful inner conflicts, and the basis of psychological and spiritual fulfillment. Readers will discover a new understanding of effective psychotherapy, groundbreaking diagnostic psychological testing research, and the distinction between the ego self-concept, the experiential self, and the transpersonal self (the real self, the relational self, or the holistic self). It also clarifies aspects of optimal psychological health, such as authenticity, sincerity, integrity, creativity, intuition, empathy, courage, strength of character, inspiration, unselfish love (or warmhearted caring), emotional security, inner wholeness, vitality, and fulfillment Principles of psychological healing and self-

transformation can enhance the development of interpersonal relationships, as well as facilitate effective and fulfilling ways of living in society. The authors deeply explored their own psychological pain and experiential truth to write this book, so readers can achieve greater self-understanding, fulfillment, and liberation from psychological pain.

Dual Transformation Jun 18 2021 Game-changing disruptions will likely unfold on your watch. Be ready. In *Dual Transformation*, Scott Anthony, Clark Gilbert, and Mark Johnson propose a practical and sustainable approach to one of the greatest challenges facing leaders today: transforming your business in the face of imminent disruption. *Dual Transformation* shows you how your company can come out of a market shift stronger and more profitable, because the threat of disruption is also the greatest opportunity a leadership team will ever face. Disruptive change opens a window of opportunity to create massive new markets. It is the moment when a market also-ran can become a market leader. It is the moment when business legacies are created. That moment starts with the core dual transformation framework: Transformation A: Repositioning today's business to maximize its resilience, such as how Adobe boldly shifted from selling packaged software to providing software as a service. Transformation B: Creating a new growth engine, such as how Amazon became the world's largest provider of cloud computing services. Capabilities link: Fighting unfairly by taking advantage of difficult-to-replicate assets without succumbing to the "sucking sound of the core." Anthony, Gilbert, and Johnson also address the characteristics leaders must embrace: courage, clarity, curiosity, and conviction. Without them, dual transformation efforts can founder. Building on lessons from diverse companies, such as Adobe, Manila Water, and Netflix, and a case study from Gilbert's firsthand experience transforming his own media and publishing company, *Dual Transformation* will guide executives through the journey of creating the next version of themselves,

allowing them to own the future rather than be disrupted by it.

**Creative Transformation** Sep 02 2022

**The Industrialization of Creativity and Its Limits** Feb 01 2020 Creativity loosely refers to activities in the visual arts, music, design, film and performance that are primarily intended to produce forms of affect and social meaning. Yet, over the last few decades, creativity has also been explicitly mobilized by governments around the world as a 'resource' for achieving economic growth. The creative economy discourse emphasizes individuality, innovation, self-fulfillment, career advancement and the idea of leading exciting lives as remedies to social alienation. This book critically assesses that discourse, and explores how political shifts and new theoretical frameworks are affecting the creative economy in various parts of the world at a time when creative industries are becoming increasingly 'industrialized.' Further, it highlights how work inequalities, oligopolistic strategies, competitive logics and unsustainable models are inherent weaknesses of the industrial model of creativity. The interdisciplinary contributions presented here address the operationalization of creative practices in a variety of geographical contexts, ranging from the UK, France and Russia, to Greece, Argentina and Italy, and examine issues concerning art biennials, museums, DIY cultures, technologies, creative writing, copyright laws, ideological formations, craft production and creative co-ops.

*Sketch by Sketch* Mar 16 2021 Transform your life, process your emotions, and find joy in Sheila Darcey's *Sketch by Sketch* During a difficult time in her life, author Sheila Darcey found that the act of sketching and freestyle drawing—of giving a physical form to her thoughts, emotions and ideas—was an impactful way to process what she was feeling. One simple sketch became a daily practice and developed into a meditative and therapeutic tool that Sheila has taught and shared with

thousands of people. Sketch by Sketch will help you create a daily sketching practice that shifts you from negative thinking and spiraling emotions into the realm of possibility. By using art to connect your left brain with your right brain, Sketch by Sketch will unlock your basic human need to create, express, and feel—regardless of whether or not you think of yourself as an artist. In Sketch by Sketch, you'll find over 40 sketching prompts on a variety of topics from hope to stillness that will help you connect with your emotions, practice mindfulness, and negotiate change. With each drawing you'll find you are able to process your experiences in a powerful new way. Step by step, sketch by sketch, you'll find peace, creativity, and healing on the page.

*Drinking Lightning* Aug 21 2021 A celebration of creativity and the unconscious shines the spotlight on artists and mystics who have used transpersonal experience in their work.

**Value Construction in the Creative Economy** Aug 09 2020 The book provides a critical and integrative analysis of value as it pertains to different aspects of creative and cultural industries. The notion of 'value' - a frequently used but rarely considered term - is deconstructed and considered as a spatial and structural impact, an active resource and process, and as soft institutions and embodied forms which collectively create a space through which value is constructed and negotiated. This book consists of three main sections: normative valuation, value and transformation from interactions and process, and embodied value. Together the contributions assess what value means in the creative and cultural industries, how it is constructed and added through process, and the way in which it is embodied in people and shaped through and by social space. Especially relevant for postgraduate study and research in the creative and cultural industries where critical studies are key, this book is also relevant for multiple disciplines which occupy the creative and cultural fields.

**Critical Methods for the Study of World Politics** Oct 23 2021 This book develops an approach to both method and the socio-political implications of knowledge production that embraces our embeddedness in the world that we study. It seeks to enact the transformative potentials inherent in this relationship in how it engages readers. It presents a creative survey of some of the newest developments in critical research methods and critical pedagogy that together go beyond the aims of knowledge transfer that often structure our practices. Each contribution takes on a different shape, tone and orientation, and discusses a critical method or approach, teasing out the ways in which it can also work as a transformative practice. While the presentation of different methods is both rigorously practice-based and specific, contributors also offer reflections on the stakes of critical engagement and how it may play an important role in expanding and subverting existing regimes of intelligibility. Contributions variously address the following key questions: What makes your research method important? How can others work with it? How has research through this method and/or the way you ended up deploying it transformed you and/or your practice? How did it matter for thinking about community, (academic) collaboration, and sharing 'knowledge'? This volume makes the case for re-politicizing the importance of research and the transformative potentials of research methods not only in 'accessing' the world as an object of study, but as ways of acting and being in the world. It will be of interest to students and scholars of international relations, critical theory, research methods and politics in general.
