The Measure Dec 02 2019 INSTANT NEW YORK TIMES BESTSELLER - The Read With Jenna Today Show Book Club Pick! "A story of love and hope as interweaving characters display: how all moments, big and small, can measure a life. Eight ordinary people. One extraordinary choice. It seems like any other day. You wake up, pour a cup of coffee, and head out. But today, when you open your front door, waiting for you is a small wooden box. This box holds your fate inside: the answer to the exact number of years you will live. From suburban doorsteps to desert tents, every person on every continent receives the same box. In an instant, the world is thrust into a collective frenzy. Where did these boxes come from? What do they mean? Is there truth to what they promise? As society comes together and pulls apart, everyone faces the same shocking choice: Do they wish to know how long they'll live? And, if so, what will they do with that knowledge? The Measure charts the dawn of this new world through an unforgettable cast of

characters whose decisions and fates interweave with one another: best friends whose dreams are forever entwined, pen pals finding refuge in the unknown, a couple who thought they didn't have to rush, a doctor who cannot save himself, and a politician whose box becomes the powder keg that ultimately changes everything. Enchanting and deeply uplifting, The Measure is a sweeping, ambitious, and invigorating story about family, friendship, hope, and destiny that encourages us to live life to the fullest.

The Brilliant History of Color in Art Aug 10 2020 The history of art is inseparable from the history of color. And what a fascinating story they tell together: one that brims with an all-star cast of characters, eye-opening details, and unexpected detours through the annals of human civilization and scientific discovery. Enter critically acclaimed writer and popular journalist Victoria Finlay, who here takes readers across the globe and over the centuries on an unforgettable tour through the brilliant history of color in art. Written for newcomers to the subject and aspiring young artists alike, Finlay's quest to uncover the origins and science of color will beguile readers of all ages with its warm and conversational style. Her rich narrative is illustrated in full color throughout with 166 major works of art—most from the collections of the J. Paul Getty Museum. Readers of this book will revel in a treasure trove of fun-filled facts and anecdotes. Were it not for Cleopatra, for instance, purple might not have become the royal color of the Western world. Without Napoleon, the black graphite pencil might never have found its way into the hands of Cézanne. Without mango-eating cows, the sunsets of Turner might have lost their shimmering glow. And were it not for the pigment cobalt blue, the halls of museums worldwide might still be filled with forged Vermeers. Red ocher, green earth, Indian yellow, lead white—no pigment from the artist's broad and diverse palette escapes Finlay's shrewd eye in this breathtaking exploration.
