Celebrating Literacy in the Rwenzori Region Nov 16 2021 When the struggle ended in the Rwenzori region of Uganda in 1982 after twenty years of fighting, four short years of unprecedented development followed. It affected many areas of the peoples lives, but it especially impacted education. In this combination history and memoir, author Amos Mubunga Kambere recaps the development of education in the region but also discusses how he came to be Ugandas youngest member of Parliament. In Celebrating Literacy in the Rwenzori Region, Kambere takes a step-by-step walk through his life while relating the forces that instituted change in the educational system. The region saw eight new government grant-aided secondary schools, two partially grant-aided secondary schools, one private secondary school, two primary teacher training colleges, and a technical school. At age twenty-six, as the youngest member of Parliament ever elected in Uganda, Kambere didnt have much on his political manifesto except the recognition that his people were educationally backward. His task was to convince the population that education was the best weapon to fight backwardness, poverty, repression, and enslavement. Celebrating Literacy in the Rwenzori Region tells his story for the next generation, to convey to them the lessons to be learned and the importance of education.

[A Novel Approach to Politics](#) Dec 05 2020 A Novel Approach to Politics turns conventional textbook wisdom on its head by using pop culture references to illustrate key concepts and cover recent political events. This is a textbook you will want to read. Adopters of previous editions from schools all over the country are thanking author Douglas A. Van Belle for some of their best student evaluations to date. With this Fifth Edition, Douglas A. Van Belle brings the book fully up to date with recent events such as Trump's executive orders on immigration, the 2016 elections in the US, current policy debates including recent court decisions that may affect gerrymandering, international happenings such as Brexit, and other assorted intergalactic matters. Van Belle adds a wealth of new and recent movies and books to the text, as he illustrates key concepts in political science through examples that captivate you. Employing a wide range of references from 1984 to Game of Thrones to House of Cards, students are given a solid foundation in institutions, ideology, and economics. To keep things grounded, the textbook nuts and bolts are still there to aid students, including chapter objectives, chapter summaries, bolded key terms, and discussion questions.

[The Prize](#) Jan 26 2020 The Prize recounts the panoramic history of oil -- and the struggle for wealth power that has always surrounded oil. This struggle has shaken the world economy, dictated the outcome of wars, and transformed the destiny of men and nations. The Prize is as much a history of the twentieth century as of the oil industry itself. The canvas of this history is enormous -- from the drilling of the first well in Pennsylvania through two great world wars to the Iraqi invasion of Kuwait and Operation Desert Storm. The cast extends from wildcatters and rogues to oil tycoons, and from Winston Churchill and Ibn Saud to George Bush and Saddam Hussein. The definitive work on the subject of oil and a major contribution to understanding our century, The Prize is a book of extraordinary breadth, riveting excitement -- and great importance.

Touched by Cancer Jul 12 2021 Mark's journey and battle with cancer at the young age of fifty-one came as a complete shock as you can imagine. Eating right, exercising, and living for the future instead of living for the moment was Mark's approach to life. "I want to be healthy," he said, ready for his golden years, but then suddenly, within just a few short months, everything fell apart! Progressing from no symptoms whatsoever to advanced stage-four non-Hodgkin Burkitt lymphoma in less than three months, Mark was in big, big trouble! He had been diagnosed with one of the most aggressive forms of cancer anyone can get, and so his battle to survive began with the help from his wife and over thirty doctors. Mark poses an interesting question in this book that asks you to reflect on your life, back to the first memories from your childhood. How do our choices in life and the consequences of those choices affect our life's path? Those decisions can ultimately determine our physical and mental health?

[Life in the Sandpit](#) Nov 23 2019 Like many other young married couples in the 1970s who were struggling to make a better future for their family Life in the Sandpit outlines my personal tale to improve my familys lifestyle. My wife Jean and I had to make some hard decisions if we were to achieve our goal. Having secured a job in the petroleum industry working in The Kingdom of Saudi Arabia my adventure began. I, as well as my wife, were both apprehensive and yet excited at the same time, of the prospect of my living and working in another country. The downside being I would be going alone leaving my wife, my eight years old daughter Nicola and my six years old son David behind. The trials and tribulations of educating myself, not only in the technical aspects of my role, but also in adapting to a totally different culture was a big challenge. I was to meet many people on my journey and experience many, at times frightening, events, but all adding to my lifes tapestry. At the age of 31 years and going to work in a developing country, I was to witness many changes as the oil wealth was being used to improve the infrastructure of Saudi Arabia. During the period of my time in the Kingdom of Saudi between May 1977 and May 1978 there were major projects just starting and I in my tale I reflect on the part I played in the early stages of development. But for me it was the engagement with the people I met and worked with that produced the main adventure. The year I spent in Saudi was to shape my life in a most wonderful way.

The Bike Hike Dec 25 2019 Is the story of a guy's dream to travel the Pacific coast on his bicycle. To leave everyone he loves and everything he owns to depart on trip with no return. After thinking about it for 10 years, he finally decides to do it. This trip will take him from Montreal, Canada throughout the United States and along the Pacific Coast to end in Vancouver, Canada. During his journey he learns to live with what he has. He learns about the outdoor experience and to live with nature. He gets challenges and different situations to overcome and also the physical and mental strain he endured. He visits cities, and meets people he will never forget. He must change his itinerary, sometimes because he wants to, other times because he has no choice. This writing brings this adventure to a climax which is unexpected. The "Bike Hike" brings twists and turns that he, himself cannot foresee. For three weeks, he describes the freedom he senses within, and the fears that can be around, at any corner. Mr. Trump, You have been talking about fixing immigration and broken borders by deporting millions of illegal aliens. Putting up a wall is not the immediate solution to get rid of illegal aliens or undocumented residents. I was an illegal alien for ten years in the United States and lived the American dream at its fullest. I was able to obtain all the necessary documents to have a great life In the U.S.A. including; Social security card, ID card, Bank card, credit cards(7), Drivers license. I paid income tax also. Yes, illegal aliens can pay taxes; Police officers arrest illegal's with no papers all the time. Because of internal bureaucracy and ill-will they are released hours later. The biggest problem is the social security card. That is just a few examples of internal bureaucracy loop-holes. If the government would address these loop-holes, you could solve a lot of immigration problems. Mr. Trump; before putting up walls and deporting women, children and good hard working people, read this book. It will help you restore immigration issues in the United States with dignity. These people are not the enemy... They just want to live the American dream.

The Ghost Clause Feb 25 2020 National Book Award Finalist Howard Norman delivers another "provocative . . . haunting"* novel, this time set in a Vermont village and featuring a missing child, a newly married private detective, and a highly relatable ghost (*Janet Maslin, New York Times) Simon Inescort is no longer bodily present in his marriage. It's been several months since he keeled over the rail of a Nova Scotia-bound ferry, a massive heart attack to blame. Simon's widow, Lorca Pell, has sold their farmhouse to newlyweds Zachary and Muriel--after revealing that the deed contains a "ghost clause," an actual legal clause, not unheard of in Vermont, allowing for reimbursement if a recently purchased home turns out to be haunted. In fact, Simon finds himself still at home: "Every waking moment, I'm astonished I have any consciousness . . . What am I to call myself now, a revenant?" He spends time replaying his marriage in his own mind, as if in poignant reel-to-reel, while also engaging in occasionally intimate observation of the new homeowners. But soon the crisis of a missing child, a local eleven-year-old, threatens the tenuous domestic equilibrium, as the weight of the case falls to Zachary, a rookie private detective with the Green Mountain Agency. The Ghost Clause is a heartrending, affirming portrait of two marriages--one in its afterlife, one new and erotically charged--and of the Vermont village life that sustains and remakes them.

Simpli-Flying Feb 07 2021 The airline industry is in a state of radical restructuring as its markets and key stakeholders (customers, airline labour and management groups, governments, and the financial community) adjust to the new aviation realities. Airline executives can be forgiven for being overwhelmed by technology proliferation, zestful new paradigm airlines, September 2001, business cycles, Iraq, SARS, and animal diseases. The leadership challenge for all carriers is now to select and execute appropriate business models, thinking both 'inside' and 'outside' the 'box', to turn conventional wisdom upside down to achieve dramatic increases in productivity. Some legacy carriers still need to create an effective strategy for much larger cycles that encompass major discontinuities. Burdened by past decisions, they are forced to fight with one hand tied behind their back to 'convert volume to value', to survive and prosper. Some new airlines have been at the forefront of shaping change, developing a vision of the mass-market, assessing the customer value of their core processes, and using a 'back-to-basics' business approach. Both groups should take a sideways glance at what works in other industries and implement those insights into actions. Some examples featured in this book include: " Wal-Mart's virtually real time inventory system; " Target's business model based around a unique customer experience; " Dell Computers' business model based around direct sales and mass customization; " Unilever's organizational structure around value creation and value delivery departments; " Shell International's development of scenarios of alternate futures; " Harrah's Entertainment's use of information technology to recognize and reward valuable customers; " The Warehouse's communication system with its suppliers to produce efficiency at both ends for the common benefit of the customer; " Nissan's cross-functional teams; " DoCoMo's management of human passion in customers; " Nike's innovation resulting in 'industry-transforming' products; " Toyota's 'Construction of Cost Competitiveness for the 21st Century'. Written by an experienced airline business strategist and international in scope, this wide-ranging book identifies challenges and problems, presents comprehensive analyses and suggests some solutions. Key features include: " a comparison with 14 other business sectors (unique amongst aviation books); " examples of airlines who have changed their business models; " a detailed study of branding, including mistakes and critical success factors; " how to manage risk by transforming supplier relationships; " plausible scenarios for the future to prepare for major transformation; " the emerging role of passenger management systems to identify, serve, and retain high value passengers. The author identifies the new realities and the obstacles to change, the need to revitalize product development and renew the customer experience. He deals with public policy and the need to revise supplier relationships, especially with aircraft maintenance providers, and looks at successes and failures in other industries. This is rounded off with a clarion call to governments, labour unions, airports, manufacturers, suppliers and above all airline management, to shake off the past, and to address the challenges and opportunities. His approach is to provide impartial analysis and pragmatic insights into vital enablers of change, potential business models, execution strategy, ways to make stakeholders more influential, wisdom from other businesses, and to present scenarios to make busy executives stop and think. The readership includes the broadest cross-section of practitioners in the global airline and related industries, as well as those affected by the industry and seeking a deeper understanding of it. This includes including airlines, government civil aviation departments, the aviation divisions of the financial community (investment banks and leasing companies), aircraft manufacturers and their suppliers, airports, information technology companies, as well as customers and other stakeholders.

Japanese Investment and British Trade Unionism Sep 21 2019 This book revisits the long contested negotiation between the Thatcher administration and Nissan for the latter's first green-field plant in Europe. From the very beginning, the plant took Britain's EC/EU membership and tariff-free access to the single market as a token. A considerable amount of aid including component supplies was provided to attract Japanese investment and to prevent its transfer to the continent. The successful launch of Sunderland highlighted improved Anglo-Japanese relations and put an end to the Japan-EC/EU trade conflict. But the price was paid by Nissan's slump and fall, and by trade unions in both countries failing to keep counterchecks on management. Brexit and the fall of Carlos Ghosn were a double blow to Anglo-Japanese relations which are in a state of drift and need redefinition.

Pocket-47 Oct 03 2020 Fifteen-year-old Brittney Ryan has taken to the streets. Leitha, her older sister and legal guardian, hires private investigator Nicholas Colt to find her and bring her home. Piece of cake, Colt thinks. With Brittney's forbidden boyfriend's address in hand, he plans to make a surprise visit and put this one in the scrapbook. But something more sinister is behind Brittney's disappearance, and Colt soon finds himself in an ever-widening maze of deceit, betrayal, and murder. When Colt learns what the mysterious phrase Pocket-47 means, he is haunted even more by the plane crash that killed his family and rock band twenty years ago--a crash he now realizes might not have been an accident. Determined to save Brittney, Colt struggles to untangle the threads of his own tortured past. Unfortunately, one of the most heinous and violent criminals in modern history has other ideas.

The Wars of Afghanistan Apr 21 2022 As Ambassador and Special Envoy on Afghanistan from 1989 to 1992, Peter Tomsen has had close relationships with Afghan leaders and has dealt with senior Taliban, warlords, and religious leaders involved in the region's conflicts over the last two decades. Now Tomsen draws on a rich trove of never-before-published material to shed new light on the American involvement in the long and continuing Afghan war. This book offers a deeply informed perspective on how Afghanistan's history as a "shatter zone" for foreign invaders and its tribal society have shaped the modern Afghan narrative. It brings to life the appallingly misinformed secret operations by foreign intelligence agencies, including the Soviet NKVD and KGB, the Pakistani ISI, and the CIA. American policy makers, Tomsen argues, still do not understand Afghanistan; nor do they appreciate how the CIA's covert operations and the Pentagon's military strategy have strengthened extremism in the country. At this critical time, he shows how the

U.S. and the coalition it leads can assist the region back to peace and stability.

Tweaker Aug 21 2019 Good triumphs evil in every situation. Sometimes, it takes a while to recognize and realize, but it is so. You never know when an angel may approach you one day, so help those in need. Imagine another type of helpful host from heaven. Imagine a tweaker as one who tweaks happenings just enough to add more love and compassion in the future without changing the mainstream of history. Would it be a blessing having a being that would prevent you from making a wrong decision by eliminating a particular reason for having to choose? Imagine a future from which tweakers visit and do helpful things to lead people to the right path, which will add much love and compassion for their future. Imagine if you will a soul going to heaven and wishing to fight evil beside the angels in the war between good and evil. A tweaker is a being from an elite heavenly force, TSI (Tweaker Secret Intervention). Their souls and bodies are used as vessels compatible for time travel and for acceptable fixtures of mankind. Imagine tweakers with no sexual desires or jealousy, traveling to and fro through time as mates, paired for life of services, often for hundreds of years. Being telepathically in sync with their Tweaker Sentry Post and continuously monitored throughout each mission, with answers provided by higher knowledge as needed. Single or together, the missions satisfactorily completed, gives more and more love and compassion to the future. Imagine a tweaker traveling through time, stricken by lightning, thus losing memory and tools, in only a white vinyl jumpsuit and slippers. Having all common knowledge except of personal identity and past with amnesia. A tweaker named Ja-Tabor wanders aimlessly yet feeling that he has a particular purpose. Follow him through relearning and reuniting with his mate. Imagine!

Deadfall Mar 20 2022 Strangler's Kill John Annibel, 40, was the bad half of a set of twins. James stayed out of trouble. . .but John, with his hair-trigger temper and paranoia, was different. On Thanksgiving weekend, 1998, Debbie Sloan, 42, sat down next to a stranger in a bar. She wound up gasping her life away, slowly strangled to death by Annibel. He then dumped her nude body in a ravine in North California's secluded redwood forests. In September, 1999, thanks to the efforts of Mendocino County investigators, Annibel was convicted of Debbie Sloan's murder. But what of his other alleged crimes? Wilderness Slayer In 1976, 15-year-old Sherry Lynn Smith was last seen alive heading toward Annibel's car. In 1980, Annibel's live-in girlfriend Andrea LaDeRoute vanished--until her skull was discovered in 2002. Georgina Pacheco was found raped and strangled in 1988. Trail Of Lies When the sisters of Sherry Lynn Smith and Andrea LaDeRoute teamed up to uncover the truth behind why earlier investigations of Annibel's activities in Humboldt County failed, what they found was possibly a trail of lies and criminality that defied the wildest fiction. As layer upon layer of deception was stripped away, new questions would be raised: Why were so many people willing to protect this man--and would he ever be brought to justice? Includes 16 Pages Of Revealing Photos
