[Affective Health and Masculinities in South Africa](#) May 15 2021 [Affective Health and Masculinities in South Africa](#) explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

I'm making a fresh start in Lake Tahoe, until my stubborn sister decides to move Mira into our cabin. I'll be damned if I move out on Mira's account. Sooner or later I'll discover her secret, and knowing her, it'll be damning. But first, I have to ignore the urge to kiss and touch and make Mira mine again. --EXCERPT-- I grab

her waist, guiding her back against the shelves. She kisses my cheekbone, nibbles my earlobe. "We can't do this here." That nibble shoots straight to my groin. "I beg to differ. Gendered Electoral Financing Mar 13 2021 Illustrated by in-depth empirical research from six country studies, *Gendered Electoral Financing: Money, Power and Representation in Comparative Perspective* is the first cross-regional examination of the nexus between money, gender and political recruitment across the world. Money is assumingly one of the greatest barriers to women in the political recruitment process. The financial disadvantage of women is expected to constitute an obstacle for women's entry into politics everywhere and especially in developing countries where women's socio-economic status is disproportionately low relative to men's. This line of reasoning has caused a global upswing in both candidate- and party-directed financial schemes introduced to enhance gender balance in political office. This book develops a typology of different kinds of gendered electoral financing schemes and builds theories about its causes and consequences. By comparing how gendered electoral financing affects political recruitment processes in both established and emerging democracies, the authors identify whether and how the funding mechanisms incentivize a shift in political behavior. *Gendered Electoral Financing* is a timely, informative and well-written book that does an excellent job of explaining, in language accessible to students and researchers alike, the cost of elections, gender imbalance in political office and the effects of financial incentive mechanisms to increase women's representation in politics.
