shape, inside and out? Fix the plumbing? Add or maintain electrical fixtures? Upgrade the heat and air-conditioning for better comfort? Repair the roof and mend the exterior wall? Fix a squeaking floor? No matter the task, the more than 600 pages of this fix-it-up encyclopedia provide a wealth of knowledge and photos and drawings that show you how to do everything. Do it yourself, or use the information to judge the value and quality of professional work. Throughout, there's an emphasis on the selection of materials for particular jobs, so you can choose the best ones; on the correct operation of tools; on ways to meet any building codes. Go deep inside the workings of plumbing, including the potable water system, the hot water main, and more. Quickly figure out if you can add to an existing electrical circuit, plus how to replace circuits and repair wiring. Renovate interior walls and ceilings, install home security, improve temperature control, take a furniture

RESIDENTIAL

CONSTRUCTION ACADEMY:

HVAC 2nd edition delivers training materials with a hands-on practical approach. Based on NAHB/HBI Skill Standards developed by an advisory board of leading builders and educators, this full color, comprehensive text is intended for aspiring technicians and covers the installation, startup and service of residential air conditioning and heating systems. This new edition continues to present material as a theory then explains with how-to instructions while at the same time adhering to the

NAHB/Home Builders

Institute's Skills Standards for

HVAC. Instructions contain

step by step procedures with

illustrations side by side with

the description, giving clarity

to the instructions. The first

section explores matter,

energy, heat and the basics of

refrigeration with a view

towards building a working

knowledge of the behavior of

heat and how it is transferred.

Next, the start up and service

section illustrates the steps

that must be followed to make

certain that airflow through the

system is correct and the

amount of refrigerant in the

system is within the acceptable

range. Finally the installation

and service of oil, gas, electric

and geothermal heating

systems is covered as well as

boilers, hydronic heating and

radiant heating. Important
