***The Internationalization of Law and Legal Education Apr 27 2020 The internationalization of commerce and contemporary life has led to a globalization of legal standards and practices. The essays in this text explore this new reality and suggest ways in which the new legal order can be made more just and effective.***

***Data Protection Law in Singapore Oct 02 2020 The adoption of the Personal Data Protection Act has transformed the legal regime for data protection in Singapore. This book explains the history and evolution of data protection in Singapore, highlights issues that will need to be worked out in practice as the new law is implemented and derives lessons that may be taken from other countries in the region and beyond. Bringing together leading scholars and practitioners in the field, the book will be of interest to the academic, legal and business communities.***

**Key questions considered in the book include how to reconcile notions of privacy in an information age, and how national laws can regulate an increasingly interconnected world.**

**The Law of Torts in Singapore May 09 2021**

**In Pursuit of Pluralist Jurisprudence Jul 31 2020 This book presents and evaluates theoretical approaches to 'pluralist jurisprudence' and assesses the viability of theorising law extending beyond the state.**

**Law and Philosophy of Language Dec 24 2019 Academic legal production, when it focuses on the study of law, generally grasps this concept on the basis of a reference to positive law and its practice. This book differs clearly from these analyses and integrates the legal approach into the philosophy of normative language, philosophical realism and pragmatism. The aim is not only to place the examination of law in the immanence of its practice, but also to take note of the fact that legal enunciation must be taken seriously. In order to arrive at this analysis, it is necessary to go beyond traditional perspectives and to base reflection on an investigation of the conditions for enunciating law in our democracies. This analysis thus offers a renewal of the ethics inherent in the action of jurists and an original reflection on the role of certain legal tools such as concepts, categories, or "provisions". In this sense, the work nourishes its originality not only by the transversality of its approach, but also by the will to situate legal thought in concrete forms of its implementation. The book will be essential reading for academics working in the areas of legal theory, legal philosophy and constitutional theory.**

**Architecture of Deals Oct 22 2019**

**Law and Identity in Mandate Palestine Apr 08 2021 One of the major questions facing the world today is the role of law in shaping identity and in balancing tradition with modernity. In an arid corner of the Mediterranean region in the first decades of the twentieth century, Mandate Palestine was confront**

**The Color of Law: A Forgotten History of How Our Government Segregated America May 29 2020 New York Times Bestseller • Notable Book of the Year • Editors' Choice Selection One of Bill Gates' "Amazing Books" of the Year One of Publishers Weekly's 10 Best Books of the Year Longlisted for the National Book Award for Nonfiction An NPR Best Book of the Year Winner of the Hillman Prize for Nonfiction Gold Winner • California Book Award (Nonfiction) Finalist • Los Angeles Times Book Prize (History) Finalist • Brooklyn Public Library Literary Prize This "powerful and disturbing history" exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide (New York Times Book Review). Widely heralded as a "masterful" (Washington Post) and "essential" (Slate) history of the modern American metropolis, Richard Rothstein's *The Color of Law* offers "the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation" (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities;**

**subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, "virtually indispensable" study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), *The Color of Law* forces us to face the obligation to remedy our unconstitutional past.**

***Law as a Means to an End* Jan 17 2022 The contemporary US legal culture is marked by ubiquitous battles among various groups attempting to seize control of the law and wield it against others in pursuit of their particular agenda. This battle takes place in administrative, legislative, and judicial arenas at both the state and federal levels. This book identifies the underlying source of these battles in the spread of the instrumental view of law - the idea that law is purely a means to an end - in a context of sharp disagreement over the social good. It traces the rise of the instrumental view of law in the course of the past two centuries, then demonstrates the pervasiveness of this view of law and its implications within the contemporary legal culture, and ends by showing the various ways in which seeing law in purely instrumental terms threatens to corrode the rule of law.**

***General Theory of Law and State* May 21 2022 Widely regarded as the most important legal theorist of the twentieth century, Hans Kelsen is best known for his formulation of the "pure theory of law"--within which the study of international law was his special field of work. The present volume, *General Theory of Law and State*, first published in 1945, allowed Kelsen to adjust his pure theory of law to American circumstances after World War II. It also afforded him the opportunity to present to English-speaking readers his latest ideas on the supremacy of international law. The volume is divided into two parts: the first devoted to law, the second to the state. Together these topics constitute the most systematic and comprehensive exposition of Kelsen's jurisprudence. The volume is not only a compendium of Kelsen's lifework up to that time; it is also an extension of his theories "to embrace the problems and institutions of English and American law as well as those of the Civil Law countries." Indeed, references to Continental European law are minimal compared with examples, scattered throughout the text, taken from the U.S. Constitution and several American court cases. This is more than a concession to American readers; it signifies that Kelsen's legal theory is truly general in that it accounts for the Common Law as well as the Civil Law. A systematic treatise on jurisprudence, *General Theory of Law and State* is a substantial reformulation of Kelsen's ideas articulated in several of his previous books, written in German. The juridical principles put forth by the most important legal theorist of the twentieth century remain of great value. This volume will be read by legal scholars, political scientists, and intellectual historians. Hans Kelsen had a distinguished career at a variety of European universities, and in government services, at Vienna, Cologne, the Institut Universitaire des Hautes Etudes in Paris, and then in Prague. He served as legal adviser to the United Nations War Crimes Commission in Washington, D.C. A. Javier Trevio is associate professor of sociology at Wheaton College. He is the author of *The Sociology of Law: Classical and Contemporary Perspectives* and the editor of *Transaction's Law and Society* series.**

***Properties of Law Jan 25 2020*** The book relates the normativity of law to law's internal sociality and shows the multi-layered nature of legal normativity.

***Authoritarian Rule of Law Oct 14 2021*** Through a focus on Singapore, this book presents an analysis of authoritarian legalism, showing how prosperity, public discourse, and a rigorous observance of legal procedure enable a reconfigured rule of law - liberal form but illiberal content. It shows how institutions and process become tools to constrain dissenting citizens while protecting those in political power.

***Natural Law in Court Jul 23 2022*** Natural-law theory grounds human laws in universal truths of God's creation. The task of the judicial system was to build an edifice of positive law on natural law's foundations. R. H. Helmholz shows how lawyers and judges made and interpreted natural law arguments in the West, and concludes that historically it has advanced the cause of justice.

***Legal Emblems and the Art of Law Jun 22 2022*** The emblem book was invented by the humanist lawyer Andrea Alciato in 1531. The preponderance of juridical and normative themes, of images of rule and infraction, of obedience and error in the emblem books is critical to their purpose and interest. This book outlines the history of the emblem tradition as a juridical genre, along with the concept of, and training in, *obiter depicta*, in things seen along the way to judgment. It argues that these books depict norms and abuses in classically derived forms that become the visual standards of governance. Despite the plethora of vivid figures and virtual symbols that define and transmit law, contemporary lawyers are not trained in the critical apprehension of the visible. This book is the first to reconstruct the history of the emblem tradition, evidencing the extent to which a gallery of images of law already exists and structuring how the public realm is displayed, made present and viewed.

***Spaces of Law and Custom Dec 16 2021*** This collection brings together a carefully curated selection of researchers from law, sociology, anthropology, philosophy, history, social ontology and international relations, in order to examine how law and custom interact within specific material and spatial contexts. Normativity develops within these contexts, while also shaping them. This complex relationship exists within all physical places from traditional agrarian spaces to the modern shifting post-industrial workplace. The contributions gathered together in this volume explore numerous examples of such spaces from different disciplinary perspectives to interrogate the dynamic relationship between custom and law, and the material spaces they inhabit. While there are a dynamic series of conclusions regarding this relationship in different material realities, a common theme is pursued throughout: a proper understanding of law and custom stems from their material locatedness within the power dynamics of particular spaces, which, in turn, are reflexively shaped by that same normativity. The book thus generates an account of the locatedness of law and custom, and, indeed, of custom as a source of law. In this way, it provides a series of linked explorations of normative spaces, but, more fundamentally, it also furnishes a cross-disciplinary toolkit of concepts and critical tools for understanding law and custom, and their relationship. As the diversity of the contributors indicates, this book will be of great interest to legal theorists of different traditions, also legal historians and

**anthropologists, as well as sociologists, historians, geographers and developmental economists.**

**Communitarianism in Law and Society Sep 20 2019 In this new collection of essays, Paul van Seters brings together an international group of scholars from diverse academic backgrounds to reflect upon the remarkable rise of communitarianism in contemporary studies of law and society. Taking account of the intricate relationship between law and communitarianism, these essays critically assess the communitarian perspective in order to gain a more systematic insight into its distinctive constraints and the special opportunities it provides. At its core, this work contends that law necessarily presupposes community, but also essentially extends it. Arguing that communitarianism must be understood as an effort to reconstruct liberalism, and not just debunk it, Communitarianism in Law and Society explores what good is to come of this movement for legal theory and practice.**

**The Spirit of Roman Law Jan 05 2021 This book is not about the rules or concepts of Roman law, says Alan Watson, but about the values and approaches, explicit and implicit, of those who made the law. The scope of Watson's concerns encompasses the period from the Twelve Tables, around 451 B.C., to the end of the so-called classical period, around A.D. 235. As he discusses the issues and problems that faced the Roman legal intelligentsia, Watson also holds up Roman law as a clear, although admittedly extreme, example of law's enormous impact on society in light of society's limited input into law. Roman private law has been the most admired and imitated system of private law in the world, but it evolved, Watson argues, as a hobby of gentlemen, albeit a hobby that carried social status. The jurists, the private individuals most responsible for legal development, were first and foremost politicians and (in the Empire) bureaucrats; their engagement with the law was primarily to win the esteem of their peers. The exclusively patrician College of Pontiffs was given a monopoly on interpretation of private law in the mid fifth century B.C. Though the College would lose its exclusivity and monopoly, interpretation of law remained one mark of a Roman gentleman. But only interpretation of the law, not conceptualization or systematization or reform, gave prestige, says Watson. Further, the jurists limited themselves to particular modes of reasoning: no arguments to a ruling could be based on morality, justice, economic welfare, or what was approved elsewhere. No praetor (one of the elected officials who controlled the courts) is famous for introducing reforms, Watson points out, and, in contrast with a nonjurist like Cicero, no jurist theorized about the nature of law. A strong characteristic of Roman law is its relative autonomy, and isolation from the rest of life. Paradoxically, this very autonomy was a key factor in the Reception of Roman Law--the assimilation of the learned Roman law as taught at the universities into the law of the individual territories of Western Europe.**

**The Sociology of Law and the Global Transformation of Democracy Aug 12 2021 Provides a new legal-sociological theory of democracy, reflecting the impact of global law on national political institutions. This title is also available as Open Access.**

**Philosophy of Law Nov 03 2020 "[This book] provides an ideal starting point for**

**students of philosophy and law. Setting it clearly against the historical background, [the author] ... leads readers into the heart of the philosophical questions that dominate philosophy of law today ... and [provides an] overview of the contending theories that have sought to resolve these problems ... The book is structured in three parts around the key issues and themes in philosophy of law: what is the law? : the major legal theories addressing the question of what we mean by law, including natural law, legal positivism and legal realism; the reach of the law : the various legal theories on the nature and extent of the law's authority, with regard to obligation and civil disobedience, rights, liberty and privacy; and criminal law : responsibility and mens rea, intention, recklessness and murder, legal defences, insanity and philosophies of punishment ... Revisions include a more detailed analysis of natural law, new chapters on common law and the development of positivism, a reassessment of the Austin-Hart dispute in the light of recent criticism of Hart, a new chapter on the natural law-positivist controversy over Nazi law and legality, and new chapters on criminal law, extending the analysis of the dispute over the viability of the defences of necessity and duress."--**

**From Law and Literature to Legality and Affect Sep 13 2021 From Law and Literature to Legality and Affect argues for the continued vitality of Law and Literature. Traditional methods of Law and Literature are combined with work in critical media studies, affect, and cultural narratology to address topics such as ethnonationalism, anti-immigration sentiment, and systemic racism in Germany and the United States. Taking stock of the diversification of the field at fifty years, this book understands Law and Literature as a political project. It has a precedent in inaugural Law and Literature texts such as Jacob Grimm's Von der Poesie im Recht (On the Poetry in Law) from 1815/16, which imagined an alternative legal order that was grounded in the unity of law, poetic language, and feeling. The political thrust of Law and Literature continues up into the present in the arts of BlackLivesMatter, which document and resist police violence. Law and Literature offers keys for understanding how legal identities are constructed, for analyzing how legal texts are constructed, and for comprehending how cultural-legal issues are mediated affectively. Using cultural, medial, affect theoretical, and narrative analyses of law, a revitalized Law and Literature offers a set of methods and theories with which to address the most pressing issues of the present.**

**Justice, Law and Culture Feb 24 2020 The following pages contain a theory of justice and a theory of law. Justice will be defined as the demand for a system of laws, and law as an established regulation which applies equally throughout a society and is backed by force. The demand for a system of laws is met by means of a legal system. The theory will have to include what the system and the laws are intended to regulate. The reference is to all men and their possessions in a going concern. In the past all such theories have been discussed only in terms of society, justice as applicable to society and the laws promulgated within it. However, men and their societies are not the whole story: in recent centuries artifacts have played an increasingly important role. To leave them out of all consideration in the theory would be to leave the theory itself incomplete and even distorted. For the key conception ought to be one not of society but of culture. Society is an organization of men but culture is something more. I define culture (civilization**

**has often been employed as a synonym) as an organization of men together with their material possessions. Such possessions consist in artifacts: material objects which have been altered through human agency in order to reduce human needs. The makers of the artifacts are altered by them. Men have their possessions together, and this objectifies and consolidates the culture.**

**The Mythology Book Mar 07 2021 Learn about compelling worlds and characters depicted in myths and legends in The Mythology Book. Part of the fascinating Big Ideas series, this book tackles tricky topics and themes in a simple and easy to follow format. Learn about Mythology in this overview guide to the subject, brilliant for novices looking to find out more and experts wishing to refresh their knowledge alike! The Mythology Book brings a fresh and vibrant take on the topic through eye-catching graphics and diagrams to immerse yourself in. This captivating book will broaden your understanding of Mythology, with: - More than 80 classics retold and explained in mythology - Packed with facts, charts, timelines and graphs to help explain core concepts - A visual approach to big subjects with striking illustrations and graphics throughout - Easy to follow text makes topics accessible for people at any level of understanding The Mythology Book allows you delve into each myth, discover the meanings behind them, and understand their significance to different cultures worldwide - aimed at adults with an interest in the subject and wanting to gain more of an overview. Here you'll find global coverage of world myths, profiling everything from the well-known tales of the Greeks, Norsemen, and Egyptians to the legends of the Caribbean, the Americas, Oceania, and East Asia. Your Mythological Questions, Simply Explained Learn about myths in this essential guide, from early creation beliefs to classical hero narratives and the recurring theme of the afterlife. Delve into each myth and discover the meanings behind these stories, getting to the heart of their significance to different cultures worldwide. If you thought it was difficult to learn about the many classic stories, The Mythology Book presents key information in a clear layout. Discover Zeus, god of the sky and ruler of the Olympian gods, Loki, the cunning trickster with a knack for causing havoc, Thor with his mighty hammer, and Hades, ruler of the underworld - and much more. The Big Ideas Series With millions of copies sold worldwide, The Mythology Book is part of the award-winning Big Ideas series from DK. The series uses striking graphics along with engaging writing, making big topics easy to understand.**

**The Diffusion of Law Oct 26 2022 In considering diffusion from a global perspective, this book provides timely new insights into its application in a variety of fields and at many levels of both legal and non-legal orderings. This collection contributes to the wider theoretical debate concerning the movement of law and legal norms by engaging with concrete examples of legal diffusion, in jurisdictions as diverse as Albania, the Czech Republic, Poland and Kuwait. These examples, taken together, provide a comprehensive illustration of the theoretical debates concerning the diffusion of laws and norms in terms of both process and form. This international, multi-disciplinary and multi-methodological volume brings together scholars from law and social science with experience in mixed and hybrid jurisdictions, and advances the conversation about legal and normative diffusion across the academy. It represents a robust challenge to many preconceived ideas**

**about legal movement and, as such, will be of interest to academics and students working in the fields of Law, Sociology, Anthropology, Political Science, Legal Education and comparative method.**

**Pluralism, Transnationalism and Culture in Asian Law Nov 27 2022 “We owe much of our knowledge of legal diversity in Asia to the work of Barry Hooker, who appears early on to have appreciated its intrinsic interest and potentially global significance. His work in the field is, as the French say, incontournable; a nice combination of the unavoidable, the controlling and the greatly respected.” – H.P. Glenn span, SPAN { background-color:inherit; text-decoration:inherit; white-space:pre-wrap } To honour this great scholar, this book gathers essays from admirers and friends who add their own contributions on legal pluralism, transnationalism and culture in Asia. The book opens with an account of M.B. Hooker colourful and prolific career. The authors then approach legal pluralism through legal theory, legal anthropology, comparative law, law and religion, constitutional law, even Islamic art, thus reflecting the broad approaches of Professor Hooker’s scholarship. While most of the book focuses mainly on Southeast Asia, it also reaches out to all of Asia up to Israel, and even includes a chapter comparing Indonesia and Egypt.**

**Law 101 Nov 15 2021 A solid reference for both the everyday and the unexpected legal issues, written by practicing attorneys Law 101 is an essential reference that explains: How laws are made How the court system works How each area of the law impacts your daily life Key information for important questions: How does a lawsuit begin? How do civil and criminal law differ? When do state laws trump federal laws? What makes a contract solid? What can you expect if called as a juror? What can you expect if called as a witness? And other complex areas of the law that you need to know. No home reference shelf is complete without this indispensable guide. The new edition also includes information on legal subjects that have become more important recently, including alternative dispute resolution, privacy rights, and Internet law.**

**Introduction to the Study of Law Feb 06 2021**

**Routledge Handbook of Asian Law Dec 04 2020 The Routledge Handbook of Asian Law is a cutting-edge and comprehensive resource which surveys the interdisciplinary field of Asian Law. Written by an international team of experts, the chapters within cover issues as diverse as family law and Islamic courts, decentralisation and the revival of traditional forms of law, discourses on the rule of law, human rights, corporate governance and environmental protection The volume is divided into five parts covering: Asia in Law, and the Humanities and Social Sciences; The Political Economy of Law in Asia - Law in the Context of Asian Development; Asian traditions and their transformations; Law, the environment, and access to land and natural resources; People in Asia and their rights. Offering an overview of the full spectrum of Law in Asia, the Handbook is an invaluable resource for academics, researchers, lawyers, graduate and undergraduate students studying this ever-evolving field.**

**Fundamentals of Criminal Law Jun 29 2020 This book explores the philosophical underpinnings of the law's major doctrines concerning actus reus, mens rea, and defences, showing that they are not always driven by culpability but are grounded**

**also in principles of moral responsibility, ascriptive responsibility, and wrongdoing.**

***The Color of Law* Nov 22 2019** In this riveting, unputdownable legal thriller, a partner at a prominent law firm is forced to choose between his enviable lifestyle and doing the right thing. Former college football star Scott Fenney has worked his way to the top of the heap at the Dallas firm of Ford Stevens. But when Clark McCall, wayward son of a Texas politician, gets himself murdered after a night of booze, drugs, and rough sex, Scott is assigned to defend the prime suspect, a heroine-addicted hooker named Shawanda Jones. The powers that be want her convicted—and Scott's future at the firm may depend on it. But unfortunately for Scott, Shwanada claims she's innocent, and he believes her.

***Adam Smith and the Philosophy of Law and Economics* Jul 11 2021** Adam Smith and the Philosophy of Law and Economics is a unique book. Malloy and Evensky bring together a team of international and interdisciplinary scholars to address the work of Adam Smith as it relates to law and economics. In addition to their own contributions, the book includes works by Dr. John W. Cairns of the University of Edinburgh, Dr. J. Ralph Lindgren of Lehigh University, Professor Kenneth A.B. Mackinnon of the University of Waikato, and the Honorable Richard A. Posner of the United States Circuit Court of Appeals. Together these authors bring expertise from the areas of law, philosophy, history, economics, and law and economics to a new study of Adam Smith and his work. Part One of the book presents new and important observations on Smith's views on community, ethics, the court system, criminal law, and delictual or tort law liability. In this part of the book Smith's work is also examined from the perspective of his use as persuasive authority in the works of modern legal economists. In Part Two the 'living Smith' is explored by way of a debate between two major contributors in the field of law and economics. The debate and its analysis create a unique and contemporary opportunity to study Smith as a foundational source in the midst of a current academic and social policy dispute. The understanding of Adam Smith that emerges from this book is new and complex. It will challenge the one-dimensional portrayals of Smith as a promoter of self-interest and it will correct many of the misinterpretations of Smith that are currently fashionable in the worlds of law and economics and the philosophy of law.

**Woon's Corporations Law Feb 18 2022**

***The Rule of Laws* Apr 20 2022** From ancient Mesopotamia to today, the epic story of how humans have used laws to forge civilizations Rulers throughout history have used laws to impose order. But laws were not simply instruments of power and social control. They also offered ordinary people a way to express their diverse visions for a better world. In *The Rule of Laws*, Oxford scholar Fernanda Pirie traces the rise and fall of the sophisticated legal systems underpinning ancient empires and religious traditions, while also showing how common people--tribal assemblies, merchants, farmers--called on laws to define their communities, regulate trade, and build civilizations. Although legal principles originating in Western Europe now seem to dominate the globe, the variety of the world's laws has long been almost as great as the variety of its societies. What truly unites human beings, Pirie argues, is our very faith that laws can produce justice, combat

**oppression, and create order from chaos.**

**Law and Legal Institutions of Asia Mar 19 2022** The study of Asia and its plural legal systems is of increasing significance, both within and outside Asia. Lawyers, whether in Australia, America or Europe, or working within an Asian jurisdiction, require a sound knowledge of how the law operates across this fast-growing and diverse region. *Law and Legal Institutions of Asia* is the first book to offer a comprehensive assessment of eleven key jurisdictions in Asia - China, Hong Kong, Taiwan, Japan, Korea, Vietnam, Malaysia, Indonesia, Brunei Darussalam, Singapore and the Philippines. Written by academics and practitioners with particular expertise in their state or territory, each chapter uses a breakthrough approach, facilitating cross-jurisdictional comparisons and giving essential insights into how law functions in different ways across the region and in each of the individual jurisdictions.

**Opposing the Rule of Law Jun 10 2021** A striking new analysis of Myanmar's court system, revealing how the rule of law is 'lexically present but semantically absent'.

**Reading Law in Singapore Dec 28 2022**

**It's All in the Game Sep 01 2020** Three questions concerning modern legal thought provide the framework for *It's All in the Game*: What should judges do? What do judges do? What can judges do? Contrasting his own answers to traditional responses and moving playfully between debates of high theory, daily practices of appellate judges, and his own enlightening analyses of significant court rulings, Allan C. Hutchinson examines what it means to treat adjudication as an engaged game of rhetorical justification. His resulting argument enables the reader to grasp more fully the practical operation, political determinants, and the transformative possibilities of law and adjudication. Taking on leading contemporary theories to explore the claim that "law is politics," Hutchinson delineates a route toward professional, relevant, and responsible—if radical—judicial practices. After discussing the difference between foundationalist, antifoundationalist, and nonfoundationalist legal critiques, he offers a focused, unequivocal, and positive account of the advantages of operating within a nonfoundationalist framework. Although such an approach centralizes the role of rhetoric in law, Hutchinson claims that this does not necessitate a turn away from politics or, more particularly, from a progressive politics. Driving home the political and jurisprudential impact of his critique and of his account of nonfoundationalist alternatives, he urges judges and jurists to engage in law's language game of politics. This engaging book will interest linguistic philosophers, legal theorists, law students, attorneys, judges, and jurists of all stripes.

**The Authority of Law Aug 24 2022** Raz begins by presenting an analysis of the concept of moral authority. He then develops a detailed explanation of the nature of law and legal systems. Within this framework Raz then examines the areas of legal thought that have been viewed as impregnated with moral values.

**European Corporate Law Aug 20 2019** This fully updated new edition provides the best-known practical overview of the law regarding companies, business activities, and capital markets in Europe, at both the European Union (EU) and Member State levels. It incorporates analysis of recent developments including the impact

**of global initiatives in such aspects of the corporate environment as regulation of financial institutions and non-financial reporting obligations with a view to sustainability and other social responsibility concerns. The authors, all leading experts in European corporate law, describe current and emerging trends in such areas of corporate law practice as the following: - rules on cross-border mergers; - employee involvement in business activities; - the initiatives by the Organisation for Economic Co-operation and Development (OECD) and the EU to curb tax avoidance; - Member States' implementation of EU legislation; - a company's freedom to incorporate in a jurisdiction not its own; - competition among the legal forms of different Member States; and - safeguarding of employee involvement in cross-border transactions. With respect to national law, the laws of Belgium, France, Germany, the Netherlands, Poland, Spain, and the United Kingdom are taken into account; Italy is now included in this new edition. As in earlier editions, the authors demonstrate that analysis and comparison of national corporate laws yield highly valuable general principles and observations, not least because business organizations, wherever located, tend to show a fundamentally similar set of legal characteristics. The Third Edition will continue to be of great value to practitioners and academics who wish to acquire a better understanding of European corporate law, in its supranational dimension as well as in the similarities and differences among the various national legal systems.**

**Between Law and Culture Mar 27 2020 What happens to legal thought when key terms-society, culture, power, justice, identity-become unsettled? With the boundaries defining sociolegal scholarship undergoing a profound shift, this book explores the intersections of law, culture, and identity. Sexuality, race, sports, and the politics of policing are among the topics the authors take up as they examine how law both reproduces and challenges fundamental notions of order, discipline, and identity. Contributors: Rosemary J. Coombe, U of Toronto; David M. Engel, SUNY, Buffalo; Marjorie Garber, Harvard U; Herman Gray, UC, Santa Cruz; Rona Tamiko Halualani, San Jos State U; David Harvey, CUNY; Deb Henderson; Yuen J. Huo, UCLA; S. Lily Mendoza, U of Denver; Trish Oberweis, American Justice Institute; Paul A. Passavant, Hobart and William Smith Colleges; Lisa E. Sanchez, U of Illinois; Carl F. Stychin, U of Reading; Tom R. Tyler, New York U; Christine A. Yalda.**

**Tort Law Sep 25 2022 This book modernizes the traditional tort law textbook by combining in-depth analysis of policy with detailed discussion of legal doctrine.**
