Islamic State's Online Propaganda Jan 29 2020 'Explaining the means utilized by the editors of the Islamic State's online magazines to win the "hearts and minds" of their audiences, this book is a result of a multidimensional content analysis of two flagship periodicals of the IS.' Dabiq and Rumiya. Drawing from a number of theoretical concepts in propaganda studies, the research uses comparative analysis to understand the evolution of the modus operandi employed by the editorial staff. The volume evaluates the types of arguments used in these magazines, as well as the emotions and behaviour that these triggered in readers. This book concentrates on the formats and thematic composition of a variety of the Islamic State's e-periodicals, including Dabiq, Rumiya, Dar al-Islam or Konstantiniyye, from the viewpoint of the constantly changing strategic situation and priorities of the "Caliphate." The e-magazines of the post-territorial phase of the Islamic State, e.g. From Dabiq to Rome and Youth of the Caliphate, were also taken into consideration. Overall, this book does not only offer new insights into the propaganda methods of the Islamic State's periodicals, but it also summarizes their rise and fall between 2014 and 2019. The volume is dedicated mostly to academics and postgraduate students specialized in terrorism studies, political violence and security studies.

Live Online Chess: Social Features & Downsides Apr 01 2020 The book features social network analysis of the author's live rated online chess games with various players (including high and middle-strength computer software) from different time zones and cultures around the world. For most of them the social features and downsides of real-time online chess were investigated and documented, including social magnetism, gambling, anonymity and use of pseudonyms, nationalism, Lesbian-Gay-Bisexual-Transgender (LGBT) issues, Islamophobia, and social stratification and mobility. The accompanying game annotations and post-game discussions mainly dwell on responsible participation and civil discourse using live online chess games as medium. Online chess has become a test case for us as an international/trans-national group to think about how we can live in a socially-differentiated society, where its members subscribe to a plurality of forms of knowledge arising from considerably different environments, experiences and genetic makeup.

Online Music Distribution - How Much Exclusivity Is Needed? Jul 05 2020 This book analyzes regulatory models established in the field of online music distribution, and examines their consistency with the overarching objectives of copyright law. In order to do so, the book takes a deep dive into the provisions of international treaties, EU Directives as well as the German and US copyright systems and case law. It subsequently scrutinizes the identified regulatory models from the standpoint of the copyright's objectives with regard to incentives, rewards, a level playing field, and dissemination. Lastly, it endorses the improved market-based statutory license as a preferable instrument in the online music field. The book is intended for all readers with an interest in music copyright law. Part I will especially benefit copyright scholars and practitioners seeking in-depth insights into the current legal situation regarding streaming and downloading. In turn, Part II will above all appeal to scholars interested in "law and economics" and in the theoretical foundations of online music copyright. Policy recommendations can be found in Part III.

SaplingPlus combines Sapling's renowned online homework with an extensive suite of engaging multimedia learning resources and a full eBook of *Quantitative Chemical Analysis, 10e*.

Basic Engineering Circuit Analysis Dec 22 2021 Maintaining its accessible approach to circuit analysis, the tenth edition includes even more features to engage and motivate engineers. Exciting chapter openers and accompanying photos are included to enhance visual learning. The book introduces figures with color-coding to significantly improve comprehension. New problems and expanded application examples in PSPICE, MATLAB, and LabView are included. New quizzes are also added to help engineers reinforce the key concepts.
