Driving from Japan Dec 23 2021 This study chronicles the success of the Japanese car in America. Starting with Japan's first gasoline-powered car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan; the arrival of Japanese cars in California in the late 1950s; consumer and media reactions to Japanese manufacturers; what obstacles they faced; initial sales; and how the cars gained popularity through shrewd marketing. Toyota, Honda, Datsun (Nissan), Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their origins through the present. An examination follows of the forced cooperation between American and Japanese manufacturers, the present state of the industry in America, and the possible future of this union, most importantly in the race for a more environmentally-sound vehicle.

Seeing Stars Oct 21 2021 Drawing from media coverage, biographies, literary works, athletes' memoirs, bureaucratic memoranda, interviews, and films, Frost argues that the largely unquestioned mass of information about sports stars not only reflects, but also shapes society and body culture. He examines the lives and times of star athletes---including sumo grand champion Hitachiyama, female Olympic medalist Hitomi Kinue, legendary pitcher Sawamura Fiji, and world champion boxer Gushiken Yoko---demonstrating how representations of such sports stars mediated Japan's emergence into the putatively universal realm of sports, unsettled orthodox notions of gender, facilitated wartime mobilization of physically fit men and women, and masked lingering inequalities in postwar Japanese society. --

International Business Dec 11 2020 For a first course in international business at the undergraduate or M.B.A. Level. Section 1 discusses the nature of international business and the three environments in which an international businessperson works. Section II examines the important international organizations, the international monetary system and their input in business. Section III discusses the uncontrollable forces that make up the foreign environments and illustrates their effects on business practices. The final section deals with the functions of management and shows how managers deal with the uncontrollable forces. Trends and new directives of international companies are also treated.

Samurai Shortstop Nov 29 2019 Tokyo, 1890. Toyo is caught up in the competitive world of boarding school, and must prove himself to make the team in a new sport called besuboru. But he grieves for his uncle, a samurai who sacrificed himself for his beliefs, at a time when most of Japan is eager to shed ancient traditions. It's only when his father decides to teach him the way of the samurai that Toyo grows to better understand his uncle and father. And to his surprise, the warrior training guides him to excel at baseball, a sport his father despises as yet another modern Western menace. Toyo searches desperately for a way to prove there is a place for his family's samurai values in modern Japan. Baseball might just be the answer, but will his father ever accept a Western game that stands for everything he despises?
