The Psychology of Social Class Jul 14 2021 In The Psychology of Social Class, leading social psychologist Michael Argyle provides a comprehensive account of psychological and other research into social class using data from Britain, the United States and elsewhere. By addressing differences in social class, the book broadens the perspective of social psychological research to examine such topics as the effect of achievement motivation and other personality variables on social mobility and the effect of social class on health. After examining the historical development of class and the attempts to abolish it, Argyle describes the class system currently existing in Britain and compares it with others in the modern world. Included are discussions of psychological models of class, and hierarchies in small groups and social organizations. A detailed account is provided of class differences in behavior and beliefs, covering such aspects as marriage, friendship, speech, style, personality, sexual behavior, crime, religion, and leisure. Finally, Argyle examines the images people have of the class system, the effects of class on well-being, and discusses possible explanations of class differences in terms of genetics, socialization, work experience, differences in lifestyle and the sheer effects of social status.

Understanding the Victorians Oct 05 2020 Understanding the Victorians paints a vivid portrait of this era of dramatic change, combining broad survey with close analysis and introducing students to the critical debates taking place among historians today. Victorian period, the most recent historiographical research in Victorian Studies, and enhanced coverage of imperialism and working-class life. Starting with the Queen Caroline Affair in 1820 and coming up to the start of World War I in 1914, Susie L. Steinbach uses thematic chapters to discuss and evaluate topics such as politics, imperialism, the economy, class, gender, the monarchy, arts and entertainment, religion, sexuality, religion, and science. There are also three chapters on space, consumption, and the law, topics rarely covered at this introductory level. With a clear introduction outlining the key themes of the period, a detailed timeline, and suggestions for further reading and relevant internet resources, this is the ideal companion for all students of the nineteenth century.

The Oxford Handbook of Music Making and Leisure Mar 22 2022 "Music has been a vital part of leisure activity across time and cultures. Contemporary commodification, commercialization, and consumerism, however, have created a chasm between conceptualizations of music making and numerous realities in our world. From a broad range of perspectives and approaches, this handbook explores avocational involvement with music as an integral part of the human condition. The chapters in The Oxford Handbook of Music Making and Leisure present myriad ways for reconsidering and refocusing attention back on the rich, exciting, and emotionally charged ways in which people of all ages make time for making music. The contexts discussed are broadly Western, including an eclectic variety of voices from scholars across fields and disciplines, framing complex and multifaceted phenomena that may be helpfully, enlighteningly, and perhaps provocatively framed as music making and leisure. This volume may be viewed as an attempt to reclaim music making and leisure as a serious concern for, amongst others, policy makers, scholars, and educators who perhaps risk eliding some or even most of the ways in which music - a vital part of human existence - is integrated into the everyday lives of people. As such, this handbook looks beyond the obvious, asking readers to consider anew, "What might we see when we think of music making as leisure?"--publisher's website

Pursuit of Pleasure Dec 19 2021 The Pursuit of Pleasure presents the figures of the rambler and the cyprian, the Eighteenth Century precursors to the Parisian flâneur and prostitute. The urban spaces traced by these figures were the clubs, sporting venues, operas, assembly rooms, streets and arcades of central London. Drawing on critical theory, geography and philosophy, The Pursuit of Pleasure extends and critiques the discipline of architectural history from a feminist perspective. The gendering of public space is considered to be a complex and shifting series of moves and looks between men and women, constructed and represented through spatial and social relations of consumption, display and exchange. Illustrated with contemporary prints and drawings, The Pursuit of Pleasure is an extraordinarily rich analysis of the gendered issues of public space at the birth of the modern metropolis.

Leisure Education: A Cross-National View Oct 24 2019 Leisure education plays a central role in both the field of leisure studies and the pursuit of leisure itself. Everywhere in the modern world the most effective use of free time for individuals comes with knowing about the many leisure activities available to them and the rewards and costs that accompany their interest in each. It is through leisure education in one form or another that they gain such knowledge. Yet, as important as this educational process is, its study is only beginning to take off in non-Western societies where, however, it cannot be assumed to be the same as in the West. This book contains several comparisons of Western and non-Western practices in

leisure education. Knowing these practices contributes ultimately to a deep understanding of the nature of the huge variety of leisure activities enjoyed across the planet and of the reasons why people go in for the ones they do. This book was based on a special issue published in the World Leisure Journal.

The Pursuit of Knowledge Under Difficulties Feb 18 2022 This first history of nontraditional education in America covers the span from Benjamin Franklin's Junto to community colleges. It aims to unravel the knotted connections between education and society by focusing on the voluntary pursuit of knowledge by those who were both older and more likely to be gainfully employed than the school-age population.

The Discipline of Leisure Nov 05 2020 The burgeoning social scientific study of tourism has emphasized the effects of the post-industrial economy on travel and place. However, this volume takes some of these issues into a different area of leisure: the spare-time carved out by people as part of their everyday lives - time that is much more intimately juxtaposed with the pressures and influences of work life, and which often involves specific bodily practices associated with hobbies and sports. An important focus of the book is the body as a site of identity formation, experience, and disciplined recreation of the self. Contributors examine the ways rituals, sports, and forms of bodily transformation mediate between contemporary ideologies of freedom, choice and self-control.

All these things are fundamental parts of human sociality that can be discovered and understood through 'sociologies of interaction'. This book provides an invaluable introduction to the theoretical foundations and practical applications of interactionist approaches to everyday life.

The Pursuit of Happiness Jan 20 2022 In The Pursuit of Happiness Bianca C. Williams traces the experiences of African American women as they travel to Jamaica, where they address the perils and disappointments of American racism by looking for intimacy, happiness, and a connection to their racial identities. Through their encounters with Jamaican online communities and their participation in trips organized by Girlfriend Tours International, the women construct notions of racial, sexual, and emotional belonging by forming relationships with Jamaican men and other "girlfriends." These relationships allow the women to exercise agency and find happiness in ways that resist the damaging intersections of racism and patriarchy in the United States. However, while the women require a spiritual and virtual connection to Jamaica in order to live happily in the United States, their notion of happiness relies on travel, which requires leveraging their national privilege as American citizens. Williams's theorization of "emotional transnationalism" and the construction of affect across diasporic distance attends to the connections between race, gender, and affect while highlighting how affective relationships mark nationalized and gendered power differentials within the African diaspora.

The Pursuit of Happiness Dec 07 2020 The Pursuit of Happiness: Between Prosperity and Adversity looks at activities, practices, and experiences that are instrumental in changing one's level of well-being. This book focuses on the situations in which well-being is challenged, or even decreased, and explores, guided by Dialogical Self Theory, pathways that lead to its elevation. Research has suggested that there are three main determinants of well-being: genetic factors, one's individual's history, and happiness-relevant activities. The third and most promising means of altering one's happiness level are activities and practices that require some degree of effort. A surprising finding is that these personal efforts may have a happiness-boosting potential that is almost as large as the probable role of genetics, and

apparently larger than the influence of one's individual history. Efforts are invested in fields of tension between prosperity and adversity. The Pursuit of Happiness covers a variety of topics, such as finding happiness and well-being in the face of extreme adversity, the role of honesty in genuine happiness, the promise of minimalistic life orientations, the value of inner silence, evaluating our lives from a future perspective, and the relationship between happiness, career development, counselling, and psychotherapy. This book was originally published as a special issue of the British Journal of Guidance & Counselling.

The Trouble with Brunch Apr 22 2022 What do your Eggs Benedict say about your notions of class? Every weekend, in cities around the world, bleary-eyed diners wait in line to be served overpriced, increasingly outré food by hungover waitstaff. For some, the ritual we call brunch is a beloved pastime; for others, a bedeviling waste of time. But what does its popularity say about shifting attitudes towards social status and leisure? In some ways, brunch and other forms of conspicuous consumption have blinded us to ever-more-precarious employment conditions. For award-winning writer and urbanist Shawn Micallef, brunch is a way to look more closely at the nature of work itself and a catalyst for solidarity among the so-called creative class. Drawing on theories from Thorstein Veblen to Richard Florida, Micallef traces his own journey from the rust belt to a cosmopolitan city where the evolving middle class he joined was oblivious to its own instability and insularity. *The Trouble with Brunch* is a provocative analysis of foodie obsession and status anxiety, but it's also a call to reset our class consciousness. The real trouble with brunch isn't so much bad service and oversized portions of bacon, it's that brunch could be so much more.

Serious Leisure Jun 24 2022 *Serious Leisure* offers a comprehensive view and analysis of the current state of the sociology of leisure. Defining and differentiating the way people use their free time, Stebbins divides such activity into categories of serious, casual, and project-based leisure that he further separates into a variety of types and subtypes. Together they comprise what he calls "serious leisure." In this perspective, serious leisure constitutes systematic pursuit of an amateur, hobbyist, or volunteer activity sufficiently substantial and interesting in nature and requiring special skills, knowledge, and experience. Casual leisure, though immediately, intrinsically rewarding, is by contrast a relatively short-lived pleasurable activity, requiring little or no special training to enjoy it. Project-based leisure is a short-term, reasonably complicated, occasional creative undertaking carried out in free time. Stebbins sets out the basic concepts and propositions that make up the three forms, focusing on their essential elements. He takes stock of the serious leisure literature as well as that for casual and project-based leisure. Stebbins sees "serious leisure" realized by way of a set of foundational concepts--organization, community, history, lifestyle, and culture--and several of their component areas. He reviews the history and background of the concept of serious leisure and then adds historical commentary on, first, casual

leisure and, then, project-based leisure. Finally, he examines the future and the importance of the serious leisure perspective in a globalizing world, and some of its critical links with other fields of knowledge and practice, notably the nonprofit sector and preventive medicine. Together with its original insights, Serious Leisure offers a single, handy, coherent, comprehensive resource. It will be of interest to sociologists, labor studies specialists, and economists.

Shopping as an Entertainment Experience Aug 15 2021 Shopping as an Entertainment Experience explores the ways in which shopping has become a significant entertainment feature in our daily lives. Dr. Mark H. Moss examines the department store, the mall, and the e-store to demonstrate how shopping is often the most common leisure experience that people indulge in to occupy themselves. This unique book focuses on the historical evolution of shopping environments into contemporary entertainment or cultural zones. Through a phenomenological framework, Moss analyzes the way stores, outlets, and restaurants in malls mingle and merge aspects of consumption and merchandising. Shopping as an Entertainment Experience appeals to sociologists, cultural theorists, and those interested in popular culture.

The Pursuit of Wisdom and Happiness in Education Aug 22 2019 Explores the nature and role of wisdom in education. Modern scholarship has struggled to come to terms with the meaning of wisdom and its significance in the field of education. This book examines the importance of pursuing wisdom in schools by turning to ancient and medieval sources for clarification concerning the nature of wisdom. Sean Steel argues that our current emphasis on the development of rigorous critical-analytic thinking skills, on assessment, and on accountability in education has negatively impacted the ability of schools to foster an environment in which both students and teachers might pursue wisdom. Although in recent times efforts have been made to incorporate the pursuit of wisdom into schools through Philosophy for Children (P4C) and contemplative education programming, such initiatives have missed their mark. Steel therefore recommends not more accountability in education for the purpose of ensuring global competitiveness, but rather the institutional promotion of periods of leisure or *scholē* in the school day. Drawing upon his own experiences as a teacher who has tried to encourage students to search for wisdom, the author discusses some of the challenges and pitfalls of wisdom seeking. He also offers examples of various wisdom-seeking activities that might bear fruit in the classroom. Sean Steel is a public school teacher and a Sessional Instructor at the University of Calgary.

The Pursuit of High Culture Nov 25 2019 This monograph investigates the promotion and consumption of high musical culture among leisured society in Victorian London, by focusing on the activities of the concert manager John Ella and his Musical Union. This monograph investigates the promotion and consumption of high musical culture among leisured society in Victorian London, by focusing on the activities of the concert manager John Ella and his Musical Union [1845-81], an eminent, long-lived institution for chamber music, much fêted across Europe in its day. It combines a biography of Ella with a social-economic history of the Musical Union, its players, repertoire and audiences, and sets them against the gradually shifting contexts for London concerts, chamber music and cultural life. Ella's extraordinary life story, which began in provincial, artisan-class obscurity and ended in the upper echelons of London society, shapes the narrative. Such themes as entrepreneurship, concert management, taste shaping, music appreciation and elite social networks are discussed throughout, as is the curious interplay between the desire to 'sacralize' chamber music, especially Beethoven's, on the one hand, and the need to survive amid the increasing commercial imperatives of London concert life on the other. CHRISTINA BASHFORD is Assistant Professor of Musicology at the University of Illinois at Urbana-Champaign.

The Pursuit of Attention Dec 27 2019 "Enough about me," goes the old saying, "what about you? What do you think about me?" Hence the pursuit of attention is alive and well. Even the Oxford English Dictionary reveals a modern coinage to reflect the chase in our technological age: "ego-surfing"--searching the Internet for occurrences of your own name. What is the cause of this obsessive need for others' recognition? This useful and popular volume, now in a second edition that features major new introductory and concluding essays, entertainingly ponders this question. Derber argues that there is a general lack of social support in today's America, one which causes people to vie hungrily for attention, and he shows how individuals will often employ numerous techniques to turn the course of a conversation towards themselves. Illustrating this "conversational narcissism" with sample dialogues that will seem disturbingly familiar to all readers, this book analyzes the pursuit of attention in conversation--as well as in politics and celebrity culture--and demonstrates the ultimate importance of gender, class, and racial differences in competing for attention. Derber shows how changes in the economy and culture--such as the advent of the Internet--have intensified the rampant individualism and

egotism of today. And finally, in a new afterword, he focuses on solutions: how to restructure the economy and culture to humanize ourselves and increase the capacity for community, empathy, and attention-giving.
