[Moments](#) Oct 21 2021 Life is full of moments—how do you fill them? It is all too easy to find our time filled with the day-to-day activities of life, but how often are we able to be still with our thoughts and carve out opportunities for the most important moments we have—our moments with God? Moments: Mother to Daughter, Friend to Friend—Together in Scripture at the Table of God’s Presence invites mothers, daughters, and friends to spend intentional moments of their lives sharing time in scripture with an open heart and Bible. Author Danielle Opitz gives encouraging, insightful messages with each intimate study, providing a relevant resource for anyone wanting to grow in a relationship with God and better understand His Word. She offers the STILL scripture study method— Search, Takeaway, Inquire, Listen and Live—to guide women of all ages in taking these first steps into the meaningful experience of Bible study. “Be still, and know that I am God.” Psalm 46:10 Being present with God’s living Word can offer us enormous and rich insights— so grab your Bible and pull up a chair to the table. Invite a friend, mother, or daughter to join you. The conversation may get personal at times, but you will experience a real and genuine love as you come to know yourself, your loved ones and God in the ways that matter most.

*Total Knee Replacement and Rehabilitation* Mar 02 2020 Each year approximately 250,000 Americans undergo total-knee-replacement surgery (also known as a total knee arthroplasty, or TKA). Every year, a million more consider it. If you are considering or have had a total knee replacement you should read this book. It will tell you everything you need to know to prepare for and recover from the surgery, and to get the most out of your new knee. The success of a total knee replacement depends on rehabilitating the knee after the operation -- in fact, the rehab is as important as the surgery itself. This book maps out the road to recovery with week-by-week exercises for a full year. The authors, a surgeon and physical therapist who have both been orthopedic patients, provide practical tips, success stories and personal insights into the recovery process. Most people, even surgeons, don't realize how dramatically arthritis can change a person's life. Author Jeff Falkel, Ph.D., was one of these people. Over the course of 20 years his knees had gotten progressively worse, and eventually the pain reached the point where it was present in every aspect of his life. He could not stand or walk without crippling pain.

*Lemon-Aid New Cars and Trucks 2011* Nov 29 2019 As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."

[Humanizing Visual Design](#) Aug 31 2022 This book analyzes the role that human forms play in visualizing practical information and in making that information understandable, accessible, inviting, and meaningful to readers—in short, "humanizing" it. Although human figures have long been deployed in practical communication, their uses in this context have received little systematic analysis. Drawing on rhetorical theory, art history, design studies, and historical and contemporary examples, the book explores the many rhetorical purposes that human forms play in functional pictures, including empowering readers, narrating processes, invoking social and cultural identities, fostering pathos appeals, and visualizing data. The book is aimed at scholars, teachers, and practitioners in business, technical, and professional communication as well as an interdisciplinary audience in rhetoric, art and design, journalism, engineering, marketing, science, and history.
