Cold Region Atmospheric and Hydrologic Studies. The Mackenzie GEWEX Experience Nov 09 2020

This book presents decade-long advances in atmospheric research in the Mackenzie River Basin in northern Canada, which encompasses environments representative of the coldest areas on Earth. Collaborative efforts by a team of about 100 scientists and engineers have yielded knowledge entirely transferable to other high latitude regions in America, Europe and Asia.

Floor Plan Manual Housing Sep 07 2020 The Floor Plan Manual Housing has for decades been a seminal work in the field of architecture. In its 5th, revised and expanded edition, approximately 160 international housing projects built after 1945 are documented and analyzed. The focus is on exemplary and transferrable projects, and on innovative and trendsetting concepts. The systematic representation of all projects allows the reader to compare and evaluate various floor plans - and to be inspired by the wealth of ideas and strategies for one's own design work. The introductory theoretical and historical essays have been newly written or updated, and offer a structured overview of the residential housing typology and its development.

The Repair Shop Oct 21 2021 THE SUNDAY TIMES BESTSELLER AND OFFICIAL COMPANION TO THE HIT BBC SERIES BBC's The Repair Shop is a place where Britain's most skilled and caring craftspeople rescue and resurrect items that owners thought were beyond saving. Their shared love of craft has helped

hundreds of people recover and relive cherished memories, and inspired millions to rediscover their own prized possessions. The skill required to properly restore those items may be beyond most of us, but there are small things we can all do to care for the items we love the most. How do you replenish the stuffing in your child's beloved, tatty teddy bear, for instance? Or remove a water mark left on your wooden table? What's the best way to prevent your leather from cracking? Direct from the Repair Shop's 'Workshop of Dreams', this 'make do and mend' guide collects advice and stories from each of the show's experts, to help you understand and care for those aging treasures and heirlooms around your house or gathering dust in the garage. Whether it's wood, ceramics, leather or silverware, you will get to know your materials, tools and terms from Britain's best, as the Repair Shop experts share their tips on restoring and conserving, reveal their favourite tools, and provide a series of small, manageable projects that help tackle the most common problems that occur in their given medium. Their book, like the show it accompanies, will help you safeguard your sentimental legacy for generations to come.
