Diffusion of Innovations, 4th Edition Mar 26 2020 Since the first edition of this landmark book was published in 1962, Everett Rogers's name has become "virtually synonymous with the study of diffusion of innovations," according to Choice. The second and third editions of Diffusion of Innovations became the standard textbook and reference on diffusion studies. Now, in the fourth edition, Rogers presents the culmination of more than thirty years of research that will set a new standard for analysis and inquiry. The fourth edition is (1) a revision of the theoretical framework and the research evidence supporting this model of diffusion, and (2) a new intellectual venture, in that new concepts and new theoretical viewpoints are introduced. This edition differs from its predecessors in that it takes a much more critical stance in its review and synthesis of 5,000 diffusion publications. During the past thirty years or so, diffusion research has grown to be widely recognized, applied and admired, but it has also been subjected to both constructive and destructive criticism. This criticism is due in large part to the stereotyped and limited ways in which many diffusion scholars have defined the scope and method of their field of study. Rogers analyzes the limitations of previous diffusion studies, showing, for example, that the convergence model, by which participants create and share information to reach a mutual understanding, more accurately describes diffusion in most cases than the linear model. Rogers provides an entirely new set of case examples, from the Balinese Water Temple to Nintendo videogames, that beautifully illustrate his expansive research, as well as a completely revised bibliography covering all relevant diffusion scholarship in the past decade. Most important, he discusses recent research and current topics, including social marketing, forecasting the rate of adoption, technology transfer, and more. This all-inclusive work will be essential reading for scholars and students in the fields of communications, marketing, geography, economic development, political science, sociology, and other related fields for generations to come.

Psychological Evaluations for the Courts, Fourth Edition Nov 02 2020 Tens of thousands of readers have relied on this leading text and practitioner reference--now revised and updated--to understand the issues the legal system most commonly asks mental health professionals to address. Highly readable, the volume demystifies the forensic psychological assessment process and provides guidelines for participating effectively and ethically in legal proceedings. Presented are clinical and legal concepts and evidence-based assessment procedures pertaining to criminal and civil competencies, the insanity defense and related doctrines, sentencing, civil commitment, personal injury claims, antidiscrimination laws, child custody, juvenile justice, and other justice-related areas. Case examples, exercises, and a glossary facilitate learning; 19 sample reports illustrate how to conduct and write up thorough, legally admissible evaluations. New to This Edition *Extensively revised to reflect important legal, empirical, and clinical developments. *Increased attention to medical and neuroscientific research. *New protocols relevant to competence, risk assessment, child custody, and mental injury evaluations. *Updates on insanity, sentencing, civil commitment, the Americans with Disabilities Act, Social Security, juvenile and family law, and the admissibility of expert testimony. *Material on immigration law (including a sample report) and international law. *New and revised sample reports.

Political Campaign Communication Jun 16 2019 Now in its sixth edition, Political Campaign Communication provides a realistic understanding of the strategic and tactical communication choices candidates and their staffs must make as they wage an election campaign. Trent and Friedenbergs classic text has been updated throughout to reflect recent election campaigns, including 2004 and 2006 as well as the early stages of 2008. A new chapter focuses on the use of the Internet. Political Campaign Communication continues to be a classroom favorite—a thoroughly researched, insightful, and reader-friendly text.

Schaechter's Mechanisms of Microbial Disease Feb 17 2022 Now in full color, the Fourth Edition of this text gives students a thorough understanding of microbial agents and the pathophysiology of microbial diseases. The text facilitates learning and recall by emphasizing unifying principles and paradigms, rather than forcing students to memorize isolated facts by rote. Case studies with problem-solving questions give students insight into clinical applications of microbiology. Each chapter ends with review and USMLE-style questions. For this edition, all schematic illustrations have been re-rendered in full color and new illustrations have been added. A new online site for students includes animations, USMLE-style questions, and all schematic illustrations and photographs from the text.

Fulbright v. Americraft Industries and Parker Jun 21 2022 A high-school football star, John Fulbright, is thrown from his motorcycle and severely injured when it collides with a Cadillac that just pulled out of a parking lot. Most of the witnesses say Fulbright was speeding and not wearing a helmet, but a fourteen-year-old boy says otherwise. There is evidence that the Cadillac's driver, Andrew Parker, an Americraft employee, had been drinking. The plaintiff claims he became an epileptic as a result of his injuries. There is not a helmet law in the State of Nita. There are four witnesses for both the plaintiff and the defendants.

Media & Entertainment Law Jan 16 2022 The fourth edition of Media and Entertainment Law has been fully updated, analysing some of the most recent judgments in media law from across the United Kingdom, such as *Cliff Richard v the BBC*, *Max Schrems v Facebook* and the Irish Information Commissioner, developments on the 'right to be forgotten' (NT1 and NT2) and *ABC v Daily Telegraph* (Sir Philip Green). The book's two main themes are freedom of expression and an individual's right to privacy. Regulation of the communication industries is covered extensively, including discussion of the print press and its online editions following Leveson, traditional broadcasting regulations for terrestrial TV and radio as well as media activities on converged devices, such as tablets, iPads, mobile phone devices and 'on demand' services. Intellectual property law (specifically copyright) in the music and entertainment industries is also explored in the book's later chapters. Also new to this edition are sections on: A focus on freedom of expression: its philosophical foundations; the struggles of those who have fought for it; and the varied ways in which the courts interpret freedom of expression regarding the taking and publishing of photographs. The 'right to be forgotten', data breaches, and the General Data Protection Regulation (GDPR). The media's increasing access to the courts, particularly when considering the privacy of those who are suspected of sexual offences. Press regulators, broadcasting and advertising regulations, and film and video regulations. Election and party-political broadcast regulations, with a focus on social media and recent election fraud. The emergence of online music distribution services, internet radio and free digital streaming music services, and their effect on the music industry. The fourth edition also features a variety of pedagogical features to encourage critical analysis of case law and one's own beliefs.

Health for all Children Aug 19 2019 Since publication of the fourth edition of this highly successful book, there have been a number of Government initiatives, reports and policies on how the health of children can best be protected and promoted. This revised fourth edition incorporates recent material on the National Service Framework, 'Every Child Matters', the public health report 'Choosing Health', and the Children Act. It has also been informed by new research on a variety of topics including Sure Start, obesity, Sudden Infant Death Syndrome (SIDS) and language acquisition. *Health for all Children 4/e* (revised) continues the themes of previous editions, in particular highlighting the growing evidence that behavioural problems and educational failure are not inevitable, and can be prevented. Thus the role of screening for developmental problems, while not ignored, is set in the context of what can be done to promote language development, reading, and enthusiasm for learning. Changes made to the fourth edition, and continued in this revised edition, include dealing with the health care needs of children of school age as well as pre-school children. It also outlines the needs of special groups of children, including those who are vulnerable or disabled and those living in unusual circumstances. The legislative framework is outlined and hallmarks of good practice described. Promoting children's health is a key focus, with updated information on nutrition and injury prevention, and emphasis on the importance of parent education and support, language, and literacy skills, with a review of behavioural management programmes for parents. It also describes the duties laid on PCTs with regard to education and social services support. This established and successful book continues to be essential reading for all health professionals who work with children, whether in the community or at the receiving end of referrals. It will also provide vital background knowledge for those charged with the responsibility of planning, commissioning and monitoring. This revised fourth edition provides the most up to date evidence in a rapidly changing field.

Career Diplomacy Mar 06 2021 Career Diplomacy is an insider's guide to the Foreign Service as an institution, a profession, and a career. In this thoroughly revised third edition, Kopp and Naland provide an up-to-date, authoritative, and candid account of the life and work of professional US diplomats, who advance and protect this country's national security interests around the globe. The authors explore the five career tracks—consular, political, economic, management, and public diplomacy—through their own experience and through interviews with more than a hundred current and former members of the Foreign Service. They lay out what to expect in a Foreign Service career, from the entrance exam through midcareer and into the senior service—how to get in, get around, and get ahead. New in the third edition: • A discussion of the relationship of the Foreign Service and the Department of State to other agencies, and to the combatant commands • An expanded analysis of hiring procedures • Commentary on challenging management issues in the Department of State, including the proliferation of political appointments in high-level positions and the difficulties of running an agency with employees in two personnel systems (Civil Service and Foreign Service) • A fresh examination of the changing nature and demographics of the Foreign Service

Construction Law Apr 26 2020 Now in its second edition, Construction Law is the standard work of reference for busy construction law practitioners, and it will support lawyers in their contentious and non-contentious practices worldwide. Published in three volumes, it is the most comprehensive text on this subject, and provides a unique and invaluable comparative, multi-jurisdictional approach. This book has been described by Lord Justice Jackson as a "tour de force", and by His Honour Humphrey Lloyd QC as "seminal" and "definitive". This new edition builds on that strong foundation and has been fully updated to include extensive references to very latest case law, as well as changes to statutes and regulations. The laws of Hong Kong and Singapore are also now covered in detail, in addition to those of England and Australia. Practitioners, as well as interested academics and post-graduate students, will all find this book to be an invaluable guide to the many facets of construction law.

Evidence-based Practice in Nursing Jan 24 2020 Do your students ever struggle to grasp what exactly constitutes evidence or struggle to see how it applies to practice? Would you like them to feel more confident about critiquing evidence? The need for an evidence base for nursing practice is widely accepted. However, what constitutes evidence and how nurses might apply it to practice is not always clear. This book guides nursing students through the process of identifying, appraising and applying evidence in nursing practice. It explores a wide range of differing sources of evidence and knowledge, and helps students to develop key skills of critiquing research and using evidence in clinical decision making.

The Eye Oct 13 2021 *The Eye: Basic Sciences in Practice* provides highly accessible, concise coverage of all the essential basic science required by today's ophthalmologists and optometrists in training. It is also essential reading for those embarking on a career in visual and ophthalmic science, as well as an invaluable, current refresher for the range of practitioners working in this area. This new fourth edition has now been fully revised and updated in line with current curricula, key research developments and clinical best practice. It succinctly incorporates the massive strides being made by genetics and functional genomics based on the Human Genome Project, the new understanding of how the microbiome affects all aspects of immunology, the remarkable progress in imaging technology now applied to anatomy and neurophysiology, as well as exciting new molecular and other diagnostic methodologies now being used in microbiology and pathology. All this and more collectively brings a wealth of new knowledge to students and practitioners in the fields of ophthalmology and visual science.
