Wildfire Apr 14 2021 Newbery Honor author Rodman Philbrick sends readers straight into the nightmare of a raging wildfire as 12-year-old Sam is trapped by explosive flames and deadly smoke that threaten to take his life. Can he survive? Flames race toward Sam Castine's summer camp as evacuation buses are loading, but Sam runs back to get his phone. Suddenly, a flash of heat blasts him as pine trees explode. Now a wall of fire separates Sam from his bus, and there's only one thing to do: Run for his life. Run or die. Lungs burning, Sam's only goal is to keep moving. Drought has made the forest a tinderbox, and Sam struggles to remember survival tricks he learned from his late father. Then, when he least expects it, he encounters Delphy, an older girl who is also lost. Their unlikely friendship grows as they join forces to find civilization. The pace never slows, and eventually flames surround Sam and Delphy on all sides. A powerful bond is forged that can only grow out of true hardship -- as two true friends beat all odds and outwit one of the deadliest fires ever. At the end of the novel, information about wildfires and useful safety tips add to the reader's understanding of one of the US's most dangerous natural disasters.

The Ways of the People: Feb 22 2022 Alan Tippett's publications played a significant role in the development of missiology. The volumes in this series augment his distinguished reputation by bringing to light his many unpublished materials and hard-to-locate printed articles. These books— encompassing theology, anthropology, history, area studies, religion, and ethnohistory— broaden the contours of the discipline. Missionaries and anthropologists have a tenuous relationship. While often critical of missionaries, anthropologists are indebted to missionaries for linguistic and cultural data as well as hospitality and introductions into the local community. In *The Ways of the People*, Alan Tippett provides a critical history of missionary anthropology and brings together a superb reader of seminal anthropological contributions from missionaries Edwin Smith, R. H. Codrington, Lorimer Fison, Diedrich Westermann, Henri Junod, and many more. Twenty years as a missionary in Fiji, following pastoral ministry in Australia and graduate degrees in history and anthropology, provide the rich database that made Alan R. Tippett a leading missiologist of the twentieth century. Tippett served as Professor of Anthropology and Oceanic Studies at Fuller Theological Seminary.

Reforming the Art of Living Aug 07 2020 Descartes's concern with the proper method of belief formation is evident in the titles of his works—e.g., *The Search after Truth*, *The Rules for the Direction of the Mind* and *The Discourse on Method* of rightly conducting one's reason and seeking the truth in the sciences. It is most apparent, however, in his famous discussions, both in the *Meditations* and in the *Principles*, of one particularly noteworthy source of our doxastic errors—namely, the misuse of one's will. What is not widely recognized, let alone appreciated and understood, is the relationship between his concern with belief formation and his concern with virtue. In fact, few seem to realize that Descartes regards doxastic errors as moral errors and as sins both because such errors are intrinsically vicious and because they entail notably deleterious social consequences. *Reforming the Art of Living* seeks to rectify this rather common oversight in two ways. First, it aims to elucidate the nature of Descartes's account of virtuous belief formation. Second, it aims both (i) to illuminate the social significance of Descartes's philosophical program as it relates to the understanding and practice not of science, but of religion and (ii) to develop a kind of Leibnizian critique of this aspect of his program. More specifically, it aims to show that Descartes's project is "dangerous," insofar as it is subversive not only of traditional Christianity but also of other traditional forms of religion, both in theory and in practice.

The Routledge Handbook of Linguistic Reference Aug 26 2019 This Handbook offers students and more advanced readers a valuable resource for understanding linguistic reference; the relation between an expression (word, phrase, sentence) and what that expression is about. The volume's forty-one original chapters, written by many of today's leading philosophers of language, are organized into ten parts: I Early Descriptive Theories II Causal Theories of Reference III Causal Theories and Cognitive Significance IV Alternate Theories V Two-Dimensional Semantics VI Natural Kind Terms and Rigidity VII The Empty Case VIII Singular (De Re) Thoughts IX Indexicals X Epistemology of Reference Contributions consider what kinds of expressions actually refer (names, general terms, indexicals, empty terms, sentences), what referring expressions refer to, what makes an expression refer to whatever it does, connections between meaning and reference, and how we know facts about reference. Many contributions also develop connections between linguistic reference and issues in metaphysics, epistemology, philosophy of mind, and philosophy of science.

Reference and Identity in Jewish, Christian, and Muslim Scriptures Feb 10 2021 In *Reference and Identity in Jewish, Christian, and Muslim Scriptures: The Same God?*, D. E. Buckner argues that all reference is story-relative. We cannot tell which historical individual a person is talking or writing about or addressing in prayer without familiarity with the narrative (oral or written) which introduces that individual to us, so we cannot understand reference to God, nor to his prophets, nor to any other character mentioned in the Jewish, Christian, or Muslim scriptures, without reference to those very scriptures. In this context we must understand God as the person who "walked in the garden in the cool of the day" (Gen. 3:8), and who is continuously referred to in the books of the Hebrew Bible and New Testament, as well as the Quran. Further developing ideas presented by the late Fred Sommers in his seminal *The Logic of Natural Language*, Buckner argues that singular reference and singular conception is empty outside such a context.
