A Manual of American Ideas Jul 19 2021

A Manual of American Ideas Designed, 1st. For the Use of Schools. 2d. For the Instruction of Foreigners Seeking Naturalization. 3rd. For the Citizens Mar 15 2021 *Refounding America* Jun 05 2020 America is fighting a Civil War today. Between the Citizen and the State. On one side are the Patriots, people who support the Constitution and our system of government: limited in its power over your life. A system of checks and balances and small government where the important decisions are made by the States, not Washington. A system where 'We the People' has real meaning, where Rights apply to individuals, and where the Government has only duties. Patriots trust the people. On the other side are the Progressives, people who believe that ethics and morality and law come not from God but from the Government. Their vision is for a system where the Government becomes the Nanny State, and in the process Big Brother, taking care of them from Cradle to Grave. All you have to give up for this Utopia is your personal freedom and all your Rights - which turn out to be not so inalienable after all. Progressives trust the State. *Refounding America* is about fighting this Patriotic War against the Progressives who would have their State take over every aspect of our lives. Their prescription for "hope" and "change" is Socialism, the first step on the slippery slope to Marxism. Over 60 years ago, George Orwell warned us about this coming totalitarian dystopia in his works *1984* and *Animal Farm*. In the latter, all the animals were equal - except the elitist Pigs, who were more equal. Sound familiar? *Refounding America* is the field manual for the other animals in the barnyard who want their own personal freedoms back and are sick and tired of the Pigs telling them what to do. *Refounding America* is the handbook loaded with practical, tactical strategies to "Take Back America Now," and win the battle against the Progressives.

Manual of Hypodermic Medication (Classic Reprint) Aug 27 2019 Excerpt from Manual of Hypodermic Medication As a teacher of Therapeutics, and as a practitioner, it has frequently been brought to my notice that the information existing in our language on the subject of hypodermic medication is exceedingly meager. The American Citizen's Manual, Vol. 2 Mar 03 2020 Excerpt from The American Citizen's Manual, Vol. 2: The Functions of Governments (State and Federal) Government is instituted to give that protection to life and property which could not be obtained so efficiently by any other means and the whole powers of government are directed to this end. Thus the constitution of Alabama recites that the sole and only legitimate end of government is to protect the citizen in the enjoyment of life, liberty, and property; and when the government assumes other functions it is usurpation and oppression (art. I, All men, say many of the State constitutions, are born free and equal, and have certain natural, essential, and unalienable rights; among which may be reckoned the right of enjoying and defending their lives and liberties that of acquiring, possessing, and protecting property, etc. These rights are protected by a general provision in the Federal Constitution No person shall be deprived of life, liberty, or property without due process of law. And so jealously is the liberty of the citizen guarded that the Constitution, as will be shown, expressly defines what is meant by due process of law. The Manual of Below-Grade Waterproofing Systems Jan 01 2020 As the arsenal of weapons against leakage has grown, so has confusion among architects and engineers attempting to select the best below-grade waterproofing systems and materials. Manufacturers literature offers little assistance during the selection process, as well as being biased in favor of a particular product. The first guide devoted exclusively to the subject, The Manual of Below-Grade Waterproofing Systems picks up where manufacturers manuals leave off. Written by an architect with more than twenty years of experience designing habitable underground spaces, it provides frank, unbiased appraisals of various waterproofing materials and systems. This manual presents architects and engineers with expert guidance on selecting, designing with, and specifying waterproofing materials and systems. Justin Henshell walks you step by step through the entire waterproofing process from determining waterproofing needs to selecting and specifying waterproofing systems to preparing detailed drawings for construction documents. And throughout, he offers architectural details which illustrate general design principles, as well as high-quality photographs of waterproofing failures that help you to more clearly comprehend common design errors and problems associated with various waterproofing materials. The Manual of Below-Grade Waterproofing Systems is an indispensable working resource for architects, civil engineers, contractors, specifiers, materials manufacturers, landscape architects, and all other professionals involved with the design and construction of habitable underground spaces.

Privilege and Liberty and Other Essays in Political Philosophy Sep 28 2019 We are currently witnessing an increasingly influential counterrevolution in political theory, evident in the dialectical return to classical political science pioneered most prominently by Leo Strauss and Eric Voegelin. In this context, the work of the relatively unknown Aurel Kolnai is of great importance. Kolnai was one of the greatest thinkers of the twentieth century to place the restoration of common-sense evaluation and philosophical realism at the center of his philosophical and political itinerary. In this volume, Daniel J. Mahoney presents Kolnai's major writings in political philosophy, writings that explore - in ways that are diverse but complementary - Kolnai's critique of progressive or egalitarian democracy. The title essay contains Kolnai's fullest account of the limits of liberty understood as emancipation from traditional, natural, or divine restraints. 'The Utopian Mind,' a part of Kolnai's critique of utopianism in a posthumous book of the same title, appears here for the first time. 'Conservative and Revolutionary Ethos,' Kolnai's remarkable 1972 essay comparing conservative and revolutionary approaches to political life, appears for the first time in English translation. The volume also includes a critically sympathetic evaluation of Michael Oakshott's Rationalism in Politics and an incisive criticism of Jacques Maritain's efforts to synthesize Christian orthodoxy and progressive politics. Privilege and Liberty and Other Essays in Political Philosophy is a searching critique of political utopianism, as well as a pathbreaking articulation of conservative constitutionalism as the true support for human liberty properly understood. It is a major contribution to Christian and conservative political reflection in our time.

Knowledge for the Time Dec 12 2020 Excerpt from Knowledge for the Time: A Manual of Reading, Reference, and Conversation on Subjects of Living Interest, Useful Curiosity, and Amusing Research The great value of contemporary History - that is, history written by actual witnesses of the events which they narrate, - is now beginning to be appreciated by general readers. The improved character of the journalism of the present day is the best evidence of this advancement, which has been a work of no ordinary labour. Truth is not of such easy acquisition as is generally supposed; and the chances of obtaining unprejudiced accounts of events are rarely improved by distance from the time at which they happen. In proportion as freedom of thought is enlarged, and liberty of conscience, and liberty of will, are increased, will be the amount of trustworthiness in the written records of contemporaries. It is the rarity of these high privileges in chroniclers of past events which has led to so many obscurities in the world's history, and warpings in the judgment of its writers; to trust some of whom has been compared to reading with coloured spectacles. And, one of the features of our times is to be ever taking stock of the amount of truth in past history; to set readers on the tenterhooks of doubt, and to make them suspicious of perversions; and to encourage a whitewashing of black reputations which sometimes strays into an extreme equally as serviceable to truth as that from which the writer started.
