Information Plus Jan 26 2020 "The Information Plus Reference Series" provides statistical data on 32 of today's most controversial and most studied social issues. Each Information Plus title is a compilation of current and historical statistics -- with analysis -- on aspects of one contemporary social issue, such as abortion, capital punishment, and genetic engineering. Each title is divided into chapters that are devoted to a particular topic. The text provides a clear and comprehensive summary of up-to-date research on the topic and is interspersed with the statistical tables, charts, and graphs. Each table is directly referred to and carefully explained in the text.

A Diary in America Mar 28 2020 First appeared in June 1839...in three volumes, with three supplementary volumes appearing later in the year... In preparing this edition...I have used both the first and second series.

The Naturalization of Humanity in America, 1776-1861 May 30 2020

Believers Feb 07 2021 An insider's tour of the lives and culture of America's evangelical Christian subculture offers insight into how its faith shapes private and professional lives and how evangelists are influencing public debate in the country today, in an account that also discusses how the movement is being carried out at Lake Forest's Saddleback Church, on the Wheaton College campus, and in Washington, D.C.

Beethoven in America Oct 15 2021 Examines America's early reception to Beethoven, the use of his work and image in American music, movies, stage works, and other forms of popular culture, and related topics.

Brookings Big Ideas for America Mar 20 2022 An Agenda for the Nation What are the biggest issues facing the country as Donald Trump and the GOP-led 115th Congress take office? Any new administration faces a myriad of issues and problems it must take on as it ascends to power. In this volume, Brookings scholars and others offer their solutions, from Ben Bernanke and Richard Bush to Richard Reeves and Dayna Matthew, from Bob Reischauer and Alice Rivlin to Robert Kagan and Elaine Kamarck, to Belle Sawhill, Doug Elmendorf, David Wessel, Bill Galston, and Carol Graham, as well as many others. These powerful essays engage and inform readers on a variety of timely, crucial issues that affect the present and the future of the United States. Much of the focus is on the threatened middle-class dream in America. On the domestic front, Brookings scholars tackle topics ranging from health care and jobs to economic opportunity and trade policy, to criminal justice and infrastructure. The alliance system, relationships with China and Mexico, nuclear weapons, terrorism, and the ongoing conflicts in Afghanistan, Syria, and Iraq are among the foreign policies issues addressed.

Such a Pretty Face Nov 16 2021 A sociologist uses case studies and autobiographical accounts to explore stereotypes about fat

people in America and to reveal how individuals cope with the burden of these stereotypes in a fat-obsessed society

Living on the Edge Aug 13 2021 Based on ten years of research, the book follows individuals and families as they apply for and live on public aid and eventually leave the system. Rank's chronicle of their day-to-day experiences reveals the many sacrifices and crises that tax ordinary people in extraordinary ways. Beginning with a history of welfare from Roosevelt to Clinton, he focuses on AFDC and the Food Stamp program. He then describes the backgrounds of the recipients, their hopes for the future and attitudes toward welfare, their daily routines and problems, their work behavior, and the effect of welfare on family dynamics. *Living on the Edge* reveals the experiences of female-headed families, married couples, single men and women, and the elderly.

The Traveler's Guide to Native America Feb 25 2020

Proceedings of the Geological Society of America for .. Jun 23 2022

Men in America Nov 23 2019 For fifteen years, men have been the focus of Thomas Frederick Arndt's street photographs: men at work, men in transit, men at bars, men in uniform, men at rest. Arndt describes the photos as "pictures of ... our male family, " and in them he documents, through his unique vision, an Everyman as full of pathos as Arthur Miller's Willie Loman. Arndt provides an unrelenting look at the often lonely, sometimes alienated, always eye-catching position of American men in contemporary society. Men are always looking. For something. These photographs echo the question raised by Larry Heinemann in the introduction: "Men in America. Who are we?" He captures their common expressions and gestures against a backdrop of tickertape parades, the New Orleans jazz festival, the Holocaust Survivors convention, and gatherings of street punks. These men are the spiritual heirs of that classic place in Robert Frank's *The Americans*. Like Frank, Larry Heinemann, a Vietnam Vet and National Book Award-winning author, considers the raw dilemma

of men and the uncertain assumption about their new roles in society today.

Proceedings Volume of the Geological Society of America for ... Sep 02 2020

A Citizen's Guide to Politics in America Sep 21 2019 This book takes the reader through the process of successful action for change, from the germ of an idea to finding supporters, getting the word out, and building the critical mass of people, energy, and support to effect the desired result. Anyone who wants to influence policy -- whether of a corporation, an institution, or government at any level -- will find the tools they need to become an effective issue advocate, and not just another frustrated citizen. Filled with abundant practical examples and guidelines for success, the book covers such topics as: -- how public policy issues become ripe for action; -- how interest groups influence the issue agenda; -- how lobbying can shape political decisions; -- how to mobilize grassroots support; -- how coalitions are formed; -- how to organize an initiative or referendum.

Report on the Situation in America as to Illiteracy Dec 05 2020

Ideology in America Jan 18 2022 This book explains why the American public thinks of itself as conservative, but supports liberal positions on specific policy matters. Much scholarly work and popular commentary discusses the ideology of the American public: whether the public should be thought of as liberal or conservative, and why. This book is the first to focus squarely on the contradiction in public attitudes. By doing so, it can provide a broader explanation of American political ideology, and how American citizens connect their own beliefs and values to the choices presented by policy makers.

The Image and Influence of America in German Poetry Since 1945 Aug 01 2020 Examines the image of the US in German poetry and the reception and influence of American

poetry in Germany since 1945.

Growing Old in America Dec 25 2019 Contains statistics on the elderly, discusses their living arrangements, work, health care, and special problems, and examines subsets of the elderly population such as women and minorities.

The Jewish People in America: A time for healing: American Jewry since World War II Oct 03 2020 A history of the Jews in America from colonial times to the present. See the index in each volume for references to antisemitism. Contents:

[Jewish Power in America](#) Aug 25 2022 This work examines Jewish power in America by examining five major instances beginning with the New Deal when the play of Jewish power, or power exercised by Jews, was evident.

For Shame Apr 21 2022 Offering examples of shame in various cultures, the author traces the disappearance of shame in American society, using O.J. Simpson, Jenny Jones, and the Hollywood creation of Mrs. Doubtfire as examples

Stories of the American Experience Apr 09 2021 Short stories by some of America's best known authors offer insight into both our complex national character and our rich literary history.

Nordics in America Apr 28 2020

[Soccer in America](#) Dec 17 2021 The official, definitive, and unique celebration of a century of achievement in U.S. soccer. With one of the fastest-growing domestic leagues in the world and national teams asserting their presence on an international stage—and the U.S. womens' team taking the gold medal at the London 2012 Olympic games—American soccer is at a peak. Opening its archives for the first time, the U.S. Soccer Federation takes us on a visual journey, from the introduction of the beautiful game a century ago in the amateur leagues of towns in the industrial

northeast to soccer's dominance as the fastest-growing sport across America today. This book is illustrated with remarkable and rarely seen mementos, from vintage portraits of the first national teams in the 1920s to game programs, ticket stubs, jerseys, and exciting pictures of today's and past stars in action. With contributions from stars spanning generations of American soccer, including firsthand testimonies from coaches and players themselves, the book profiles the most talented players of the men's and women's national teams over the decades, looks at the coaches who have changed the game, celebrates the most memorable moments and unforgettable goals, and chronicles the U.S.'s greatest achievements, from the World Cup to the Olympics.

Awesome America (A TIME for Kids Book) Sep 14 2021 TIME For Kids explores America from sea to shining sea! Discover what makes America unique in this comprehensive timeline and photographic overview of American history--pre-Columbus through the present--highlighting the milestone events and important people that have made America awesome. Perfect for both dip-in reference and longer-form reading, Awesome America is organized into thematic sections, each comprised of bite-sized articles, engaging factoid sidebars, colorful charts, graphics and interactive quizzes to help make learning about American history interesting, interactive, and fun. From America's early history all the way to present day, kids will learn about what it was like to grow up in the 1700's, 1800's, 1900's and today and discover the inventions, innovations, and important social movements great American's have created over the years.

[A Is for America](#) Mar 08 2021 From the British and our Constitution that replaced their rule, to Yellowstone Park and Zane Grey's stories of the west, "A is for America" is a sweeping tribute to all we know and love about our country. With delightful poems that beg to be read aloud, and expository text to broaden a student's horizons, this American alphabet will make you fall in

love with the United States over and over again. Bright, beautifully detailed illustrations from California artist Pam Carroll bring each letter to life, from eagles to Thomas Edison to the veterans of two World Wars.

Selected Pictures from the Art Treasures of America May 10 2021

America for Beginners Nov 28 2022 Recalling contemporary classics such as *Americanah*, *Behold the Dreamers*, and *The Brief Wondrous Life of Oscar Wao*, a funny, poignant, and insightful debut novel that explores the complexities of family, immigration, prejudice, and the American Dream through meaningful and unlikely friendships forged in unusual circumstances. Pival Sengupta has done something she never expected: she has booked a trip with the First Class India USA Destination Vacation Tour Company. But unlike other upper-class Indians on a foreign holiday, the recently widowed Pival is not interested in sightseeing. She is traveling thousands of miles from Kolkata to New York on a cross-country journey to California, where she hopes to uncover the truth about her beloved son, Rahi. A year ago Rahi devastated his very traditional parents when he told them he was gay. Then, Pival's husband, Ram, told her that their son had died suddenly—heartbreaking news she still refuses to accept. Now, with Ram gone, she is going to America to find Rahi, alive and whole or dead and gone, and come to terms with her own life. Arriving in New York, the tour proves to be more complicated than anticipated. Planned by the company's indefatigable owner, Ronnie Munshi—a hard-working immigrant and entrepreneur hungry for his own taste of the American dream—it is a work of haphazard improvisation. Pival's guide is the company's new hire, the guileless and wonderfully resourceful Satya, who has been in America for one year—and has never actually left the five boroughs. For modesty's sake Pival and Satya will be accompanied by Rebecca Elliot, an aspiring young actress. Eager for a paying gig, she's along for the ride,

because how hard can a two-week "working" vacation traveling across America be? Slowly making her way from coast to coast with her unlikely companions, Pival finds that her understanding of her son—and her hopes of a reunion with him—are challenged by her growing knowledge of his adoptive country. As the bonds between this odd trio deepens, Pival, Satya, and Rebecca learn to see America—and themselves—in different and profound new ways. A bittersweet and bighearted tale of forgiveness, hope, and acceptance, *America for Beginners* illuminates the unexpected enchantments life can hold, and reminds us that our most precious connections aren't always the ones we seek.

A History of War Resistance in America Jun 30 2020 This two-part book examines the roots of warfare and the development of the peace movement in America from the Colonial period through the Vietnam War. From the Colonial period on, war has inevitably divided U.S. society into pro-war and antiwar factions, and few subjects have proven so polarizing or long-lasting as a nexus of public discourse. In the contest over war and peace, uninformed beliefs have been conflated with uncontested truths by both sides, fueling a lack of bipartisanship in foreign policy that has been prevalent since the nation's earliest days. *A History of War Resistance in America* delineates clearly the tradition of war opposition in the United States. It examines the military, preparations for war, and war's justifiable prosecution, as well as pacifism, legitimate resistance to war, and the appropriate and free exercise of civil liberties. This thought-provoking volume offers an analysis of the reasons for conflict among peoples, the prosecution of war among nations, and the development of war resistance movements. It also explores the role of the media in forming public opinion and that of the courts in protecting--or limiting--civil liberties.

The Book That Changed America Jul 12 2021 A compelling portrait of a unique moment in American history when the ideas of Charles Darwin reshaped American notions about nature,

religion, science and race “A lively and informative history.” - The New York Times Book Review Throughout its history America has been torn in two by debates over ideals and beliefs. Randall Fuller takes us back to one of those turning points, in 1860, with the story of the influence of Charles Darwin’s just-published *On the Origin of Species* on five American intellectuals, including Bronson Alcott, Henry David Thoreau, the child welfare reformer Charles Loring Brace, and the abolitionist Franklin Sanborn. Each of these figures seized on the book’s assertion of a common ancestry for all creatures as a powerful argument against slavery, one that helped provide scientific credibility to the cause of abolition. Darwin’s depiction of constant struggle and endless competition described America on the brink of civil war. But some had difficulty aligning the new theory to their religious convictions and their faith in a higher power. Thoreau, perhaps the most profoundly affected all, absorbed Darwin’s views into his mysterious final work on species migration and the interconnectedness of all living things. Creating a rich tableau of nineteenth-century American intellectual culture, as well as providing a fascinating biography of perhaps the single most important idea of that time, *The Book That Changed America* is also an account of issues and concerns still with us today, including racism and the enduring conflict between science and religion.

Modern Artists in America Jul 24 2022

America for Americans Dec 29 2022 This definitive history of American xenophobia is "essential reading for anyone who wants to build a more inclusive society." (Ibram X. Kendi, New York Times-bestselling author of *How to Be an Antiracist*) The United States is known as a nation of immigrants. But it is also a nation of xenophobia. In *America for Americans*, Erika Lee shows that an irrational fear, hatred, and hostility toward immigrants has been a defining feature of our nation from the colonial era to the Trump era. Benjamin Franklin ridiculed Germans for their

"strange and foreign ways." Americans' anxiety over Irish Catholics turned xenophobia into a national political movement. Chinese immigrants were excluded, Japanese incarcerated, and Mexicans deported. Today, Americans fear Muslims, Latinos, and the so-called browning of America. Forcing us to confront this history, Lee explains how xenophobia works, why it has endured, and how it threatens America. Now updated with an afterword reflecting on how the coronavirus pandemic turbocharged xenophobia, *America for Americans* is an urgent spur to action for any concerned citizen.

Boyhood in America Oct 23 2019

America Will Be! Feb 19 2022 "A cross-cultural dialogue between American historian and activist Vincent Harding and Buddhist thinker and leader Daisaku Ikeda that explores the legacy of the American civil rights movement"--Provided by publisher.

Work and Integrity Jun 11 2021 Focusing on the crisis of confidence that has damaged the image of American professionals, a coauthor of *Habits of the Heart* traces perceptions of the professional class from cornerstone of society to technical experts in a moral vacuum.

America for Americans May 22 2022 *America for Americans* is Dobry's attempt to explain some of the basic concepts of America, things that the schools are not allowed to teach nowadays. Basic things like what is the idea of America? What makes this country unique in the history of the world? Where does money come from, and who decides how much each country gets? We hear about everyone's "Constitutional Rights," but what are they? Why would anyone in their right mind want to destroy the Constitution, the one document that guarantees our protections against a tyrannical government. What is socialism, at least today's version of it? Can socialism really work long term in America? What is the cost of socialism? What is the socialist agenda? What is the conservative agenda? These are things that all Americans need to

understand well, what we have and what we stand to lose. America is at a critical point right now. What we do in the 2020 elections will not only determine what kind of life we will have, but also what kind of life our children and grandchildren and their children will have, and we need to be keenly aware of that. Will they live free, or will they live as subjects under an all-controlling government? We need to consider that very carefully because your freedom is like your life: once you give it up, you won't get it back. We all need to be well-informed with the truth before we make decisions that will have irreversible consequences for the future generations of Americans. We have the right to throw away our own freedoms if we so choose. We do not have the right to throw away theirs. And it's not just about the 2020 elections. It won't end there. The fight to keep socialist forces from taking away Americans' freedom will go on until either they win or we defeat them. There can be no compromise between freedom and slavery. It's one or the other. There is no middle ground.

The Making of Tocqueville's Democracy in America Sep 26

2022 It is impossible fully to understand the American experience apart from Alexis de Tocqueville's "Democracy in America."

Moreover, it is impossible fully to appreciate Tocqueville by assuming that he brought to his visitation to America, or to the writing of his great work, a fixed philosophical doctrine. James T. Schleifer documents where, when, and under what influences Tocqueville wrote different sections of his work. In doing so, Schleifer discloses the mental processes through which Tocqueville passed in reflecting on his experiences in America and transforming these reflections into the most original and revealing book ever written about Americans. For the first time the evolution of a number of Tocqueville's central themes--democracy, individualism, centralization, despotism--emerges into clear relief. As Russell B. Nye has observed, "Schleifer's study is a model of intellectual history, an account of the intertwining of a

man, a set of ideas, and the final product, a book." The Liberty Fund second edition includes a new preface by the author and an epilogue, "The Problem of the Two Democracies."
