Selected Cases from the Supreme People's Court of the People's Republic of China Feb 26 2020

This volume includes guiding cases of the Supreme People's Court, cases deliberated on by the Judicial Council/Committee of the Supreme People's Court, and cases discussed at the Joint Meetings of Presiding Judges from the various tribunals. This book is divided into four sections, including Cases by Justices, Selected Judicial Opinion(s), "Hot Cases" and "Typical Cases", which will introduce readers to Chinese legal processes, legal methodologies and ideology in an intuitive, clear, and accurate manner. This volume presents cases selected by the trial departments of the Supreme People's Court of China from their concluded cases. In order to give full weight to the legal value and social functions of cases from the Supreme People's Court, and to achieve the goal of "serving the trial practices, serving economic and social development, serving legal education and legal scholarship, serving international legal

exchanges among Chinese and foreign legal communities and serving the rule of law in China”, the China Institute of Applied Jurisprudence, with the approval of the Supreme People’s Court, opted to publish “Selected Cases from the Supreme People’s Court of the People’s Republic of China” in both Chinese and English, for domestic and overseas distribution.

**Answering the Call of the Court** Jun 24 2022 The U.S.

Supreme Court is the quintessential example of a court that expanded its agenda into policy areas that were once reserved for legislatures. Yet scholars know very little about what causes attention to various policy areas to ebb and flow on the Supreme Court’s agenda. Vanessa A. Baird’s Answering the Call of the Court: How Justices and Litigants Set the Supreme Court Agenda

represents the first scholarly attempt to connect justices' priorities, litigants' strategies, and aggregate policy outputs of the U.S. Supreme Court. Most previous studies on the Supreme Court's agenda examine case selection, but Baird demonstrates that the agenda-setting process begins long before justices choose which cases they will hear. When justices signal their interest in a particular policy area, litigants respond by sponsoring well-crafted cases in those policy areas. Approximately four to five years later, the Supreme Court's agenda in those areas expands, with cases that are comparatively more politically important and divisive than other cases the Court hears. From issues of discrimination and free expression to welfare policy, from immigration to economic regulation, strategic supporters of litigation pay attention to the goals of Supreme Court justices and bring cases they can use to achieve those goals. Since policy making in courts is iterative, multiple well-crafted cases are needed for courts to make comprehensive policy. Baird argues that judicial policy-making power depends on the actions of policy entrepreneurs or other litigants who systematically respond to the priorities and preferences of Supreme Court justices.

The International Court of Justice Apr 22 2022 The International Court of Justice is the principal judicial organ of the United Nations, and epitomizes the very notion of international judicial institution. Yet, it decides inter-State disputes only with the parties' consent. This makes it more similar to international arbitral tribunals than other international courts. However, the permanent nature of the Court, the predetermination of procedural rules by the Statute and the Rules of Court, the public character of proceedings, the opportunity for third States to intervene in a case under Articles 62 and 63 of the Statute and the Court's role as the principal judicial organ of the United Nations mark a structural difference between the ICJ and non-institutionalized international arbitral tribunals. This book analyses if and to what extent these features have influenced the approach of the ICJ (and of the PCIJ before it) to its own judicial

function and have led it to depart from the principles established in international arbitration.

**The High Court of Delegates** Nov 17 2021 This book, a study of the principal appellate court in the English civil law hierarchy, the High Court of Delegates, examines the history, jurisdiction, procedure, personnel and records of the court from the mid-sixteenth century until its abolition in 1832. In an introductory historical survey, the author considers the earlier provisions for civil law appeal, the circumstances surrounding the creation of the Court of Delegates, and its history from the mid-sixteenth century until 1832. After a general discussion of the jurisdiction of the court, Dr Duncan goes on to a detailed discussion of several jurisdictional problems: in particular he deals with the relationship between the Court of Delegates and certain other Judicial bodies, and with the extent of the Court's original jurisdiction. He devotes two chapters to commissions of delegacy and commissions of review, analysing the rules which governed the right of a party to appeal to the Court of Delegates, and also to appeal from a decision of that Court. The central portion of the book is devoted to procedure: the various stages through which an appeal passed are set out in detail, and particular attention is paid to the taking of evidence.

**Speaking in Court** Dec 26 2019 This book maps the changes in

court advocacy in England and Wales over the last three centuries. Advocacy, the means by which a barrister puts their client's case to the court and jury, has grown piecemeal and at an uneven pace; the result of a complex interplay of many influences. Andrew Watson examines the numerous principal factors, from the effect on juniors of successful styles deployed by senior advocates, changes in court procedure, reforms in laws determining who and what may be put before courts, the amount of media reporting of court cases, and public and press opinion about the acceptable limits of advocates' tactics and oratory. This book also explores the extent to which juries are used in trials and the social origins of those serving on them. It goes on to examine the formal teaching of advocacy which was only introduced comparatively recently, arguing that this, and new technology, will likely exert a strong influence on future forensic oratory. *Speaking in Court* provides a readable history of advocacy and the many factors that have shaped it, and takes a far wider view of the history of advocacy than many titles, analysing the 20th Century developments which are often overlooked. This book will be of interest to general readers, law practitioners interested in how advocacy has developed in courts of yesteryear, teachers of advocacy who want to locate their subject in history and impart this to their students, and to law students curious about the origins of what they are learning.

[The United States and The World Court as a "Supreme Court of the Nations"](#) Sep 22 2019 The hope that international adjudication will some day come to replace international

aggression has long been a fond aspiration of mankind, and nowhere, perhaps, has it taken firmer root than in the United States. The U.S. Supreme Court has been held up as a model for the successful adjudication of interstate disputes and for the evolution of a body of revered legal norms. Yet America's own record "vis-a-vis" international adjudication and the International Court has been marked by ambivalence and a sharp dichotomy between rhetoric and deeds. Integrating legal and historical materials and insights, Professor Pomerance examines in this volume the troubled saga of the U.S. pursuit of the Supreme Court of the Nations' idea, from its early pre-World War I origins through the present post-"Nicaragua" period of U.S. reserve, disillusionment and reassessment. Spurning a morality-play' interpretive mold, the author pays particular attention to recurrent themes and the roots of their recurrence; the specific cadences and nuances in the grand' and lesser U.S. debates on the Court; the continuities and changes in "both" partners of the U.S.-Court relationship; and the various prisms through which that relationship might be viewed. In this manner, the important contemporary debate on the future contours of the U.S.-Court nexus is sharply illuminated.

The Battle for the Court Aug 22 2019 Once largely ignored, judicial elections in the states have become increasingly controversial over the past two decades. Legal organizations, prominent law professors, and a retired Supreme Court justice have advocated the elimination of elections as a means to choose judges. One of their primary concerns is interest group involvement in elections to state supreme courts, which they see

as having negative effects on both the courts themselves and public perceptions of these judicial bodies. In *The Battle for the Court*, Lawrence Baum, David Klein, and Matthew Streb present a systematic investigation into the effects of interest group involvement in the election of judges. Focusing on personal-injury law, the issue that has played the most substantial role in spurring interest group activity in judicial elections, the authors detail how interest groups mobilize in response to unfavorable rulings by state supreme courts, how their efforts influence the outcomes of supreme court elections, and how those outcomes in turn effectively reshape public policies. The authors employ several decades' worth of new data on campaign activity, voter behavior, and judicial policy-making in one particularly colorful, important, and representative state—Ohio—to explore these connections among interest groups, elections, and judicial policy in a way that has not been possible until now.

The Court of Miracles Nov 29 2022 Les Misérables meets Six of Crows in this page-turning adventure as a young thief finds herself going head to head with leaders of Paris's criminal underground in the wake of the French Revolution. In the violent urban jungle of an alternate 1828 Paris, the French Revolution has failed and the city is divided between merciless royalty and nine underworld criminal guilds, known as the Court of Miracles. Eponine (Nina) Thénardier is a talented cat burglar and member of the Thieves Guild. Nina's life is midnight robberies, avoiding her father's fists, and watching over her naïve adopted sister, Cosette (Ettie). When Ettie attracts the eye of the Tiger--the ruthless lord of the Guild of Flesh--Nina is caught in a desperate race to keep the younger girl safe. Her vow takes her from the city's dark underbelly to the glittering court of Louis XVII. And it also forces Nina to make a terrible choice--protect Ettie and set

off a brutal war between the guilds, or forever lose her sister to the Tiger.
