The CIA Insider's Guide to the Iran Crisis Nov 26 2019 Why did the CIA overthrow Iran's democratically elected government? And why has the United States treated Iran as one of its biggest enemies for four decades? Is the Trump administration's "Maximum Pressure" campaign working, or will it precipitate a war with Iran? In The CIA Insider's Guide to Iran: from CIA Coup to the Brink of War, former CIA Officer John C. Kiriakou and investigative journalist and historian Gareth Porter explain how and why the United States and Iran have been either at war or threatening such a war for most of the forty years since Islamic Republic of Iran was established. The authors delve below the surface explanations for the forty-year history of extreme U.S. hostility toward Iran to blow up one official U.S. narrative after another about Iran and U.S. policy. Against the background of Iran's encounters with heavy-handed British and Russian imperialist control over its resources, this book shows how the U.S. began its encounter with Iran by clearly siding with British imperialism against Iranian aspirations for control over its oil in its 1953 overthrow of the Mossadegh government, then proceeded to actively support the Saddam Hussein regime's horrific chemical war against Iran. The book shows how a parade of politically-motivated false narratives have taken U.S. Iran policy progressively farther from reality for three decades and have now brought the United States to the brink of war with Iran. It explains how Donald Trump's trashing of the nuclear deal with Iran and seeking to cut off Iran's oil exports creates a very high risk of such a war, demanding major public debate

about changing course. The CIA Insider's Guide to the Iran Crisis also includes appendices with key official documents on U.S. policy toward Iran, with particular emphasis on the major official statements of the Trump administration's "Maximum Pressure" strategy.

**American Reboot** Jun 01 2020 From former US Congressman and CIA Officer Will Hurd, a “how-to guide with a prescription for getting the nation on the right footing” (Politico) and “a clarion call for a major political pivot” (San Antonio Report) rooted in the timeless ideals of bipartisanship, inclusivity, and democratic values. “Hurd has the biography and the charisma and the God-given political chops to put the Republican Party—and the rest of the country—on notice.” —THE ATLANTIC It’s getting harder to get big things done in America. The gears of our democracy have been mucked up by political nonsense. To meet the era-defining challenges of the 21st century, our country needs a reboot. In *American Reboot*, Hurd, called “the future of the GOP” by Politico, provides a “detailed blueprint” (Robert M. Gates, Secretary of Defense, 2006–2011) for America grounded by what Hurd calls pragmatic idealism—a concept forged from enduring American values to achieve what is actually achievable. Hurd takes on five seismic problems facing a country in crisis: the Republican Party’s failure to present a principled vision for the future; the lack of honest leadership in Washington, DC; income inequality that threatens the livelihood of millions of Americans; US economic and military dominance that is no longer guaranteed; and how technological change in the next thirty years will make the advancements of the last thirty years look trivial. Hurd has seen these challenges up close. A child of interracial parents in South Texas, Hurd survived the back alleys of dangerous places as a CIA officer. He carried that experience into three terms in Congress, where he was, for a time, the House’s only Black Republican, representing a seventy-one percent Latino swing district in Texas that runs along 820 miles of the US-Mexico border. As a cyber security executive and innovation crusader, Hurd has worked with entrepreneurs on the cutting edge of technology to anticipate the shockwaves of the future. Hurd, who the *Houston Chronicle*s calls “a refreshing contract to the panderers, petty demagogues, and political provocateurs who reign these days,” draws on his remarkable experience to present “a call to Americans to consider the most contentious issues of our times more holistically” (The Atlantic). He outlines how the Republican party can look like America by appealing to the middle, not the edges. He maps out how leaders should inspire rather than fearmonger. He forges a domestic policy based on the idea that prosperity should be a product of empowering people, not the government. He articulates a foreign policy where our enemies fear us and our friends love us. And lastly, he charts a forceful path forward for America’s technological future. We all know we can do better. It’s time to hit “ctrl alt del” and start the American Reboot.

*Life Undercover* Feb 07 2021 INSTANT NEW YORK TIMES BESTSELLER

"Fast and thrilling . . . Life Undercover reads as if a John le Carré character landed in Eat Pray Love." —The New York Times Amaryllis Fox's riveting memoir tells the story of her ten years in the most elite clandestine ops unit of the CIA, hunting the world's most dangerous terrorists in sixteen countries while marrying and giving birth to a daughter Amaryllis Fox was in her last year as an undergraduate at Oxford studying theology and international law when her writing mentor Daniel Pearl was captured and beheaded. Galvanized by this brutality, Fox applied to a master's program in conflict and terrorism at Georgetown's School of Foreign Service, where she created an algorithm that predicted, with uncanny certainty, the likelihood of a terrorist cell arising in any village around the world. At twenty-one, she was recruited by the CIA. Her first assignment was reading and analyzing hundreds of classified cables a day from foreign governments and synthesizing them into daily briefs for the president. Her next assignment was at the Iraq desk in the Counterterrorism center. At twenty-two, she was fast-tracked into advanced operations training, sent from Langley to "the Farm," where she lived for six months in a simulated world learning how to use a Glock, how to get out of flexicuffs while locked in the trunk of a car, how to withstand torture, and the best ways to commit suicide in case of captivity. At the end of this training she was deployed as a spy under non-official cover--the most difficult and coveted job in the field as an art dealer specializing in tribal and indigenous art and sent to infiltrate terrorist networks in remote areas of the Middle East and Asia. Life Undercover is exhilarating, intimate, fiercely intelligent--an impossible to put down record of an extraordinary life, and of Amaryllis Fox's astonishing courage and passion.
