At this moment, they are perfecting an arsenal of weapons to use against us: Quantum computing. Artificial intelligence. Hypersonic missiles. Bio-warfare. These are threats we must defeat. But before we are able to do that, we must protect ourselves from the enemy within. Many of our forefathers had to fight a Great War to save their freedom. It falls upon this generation to fight two. But we must not lose hope. There is a way to save our nation.

Airbrushing 101 Nov 19 2021 This is a complete "Intro to Airbrushing" course in a workbook form. A classroom in a book! There is only so much an airbrush can do - dots, lines, daggers, and shading. We introduce each skill in a logical and exciting way. In our book, each skill is cumulative, so

grasping each technique is easier than tackling them out of order as you would if you were self taught and left to sift through a cluster of internet information that is not necessarily correct. Our method is successful, because we have taken the entire contents of an Intro to Airbrushing class, and made it into a workbook... yes a WORKBOOK! The skills are introduced in an interesting way, and each lesson has a corresponding workbook page that can be practiced over and over until you are proficient at each skill! There has never been anything like this before! With over 50 lessons, you will master each skill and work up to the four beautiful and challenging final projects. We cover all the basics that you need to know to get set up in airbrushing: types of airbrushes, compressors, paint, substrates, etc....even how to properly hold an airbrush and how to clean it. We are so thorough and innovative, we have earned the endorsement of Anest Iwata-Medea, Inc., the maker of the best, and our favorite, airbrushes!
