**The Ego And Its Hyperstate** Mar 05 2020 The Ego And Its Hyperstate is a unified theory of psychological and ethical egoism which posits self-interest. The dialectical dream theory sets its sights against capitalist

notions of the self-interest contra the other, not simply with moralism, but with a more accurate analysis of the subject of self-interest than has been provided by capitalists and anarchist theorists alike. Through the lens of psychoanalysis and Hegelian dialectical logic, the process of self-interest as the ground of all human existence reveals itself. Eliot Rosenstock has a symptom he wants you to know about: he wants you to know how the nature of self-interest strikes through the notions of pure duty and state worship, he wants to bring in psychoanalysis and redeem dialectics in its power to reveal the universe rather than be a simple rhetorical tool, and he wants to reveal to you how the material conditions of the world, as well as psychological processes of mankind, work together to bring about all that is brought into the universe by humanity.

*Complete the Two Noble Kinsmen* Aug 22 2021 Based on Chaucer's *The Knights Tale* in *Canterbury Tales*, *The Two Noble Kinsmen* takes as a motif the rules of courtly love endorsed by both Arcite and Palamon who, unfortunately, are nearly indistinguishable. As Mowat and Werstine assert, So fraught are the human relations of the play that only the gods can eventually bring them to their resolution (xv). Credit William Shakespeare and John Fletcher (as given on the title page of the 1634 printing) with the story's rich philosophical and moral potential (Mehl, 288).

**Between Noble and Humble** Aug 10 2020 *Between Noble and Humble: Cao Xueqin and the Dream of the Red Chamber* (红楼梦, literally *New Biography of Cao Xueqin*) is a translation of a scholarly work by the famous mainland Chinese critic Zhou Ruchang. Written for the Western reader, it historicizes the life and times of the Chinese novelist Cao Xueqin (c. 1715-1763) and comprehensively introduces the origins of the novel *Dream of the Red Chamber* (*Honglou meng*). This translation is unique because it offers the first book-length biography of Cao Xueqin in English. Zhou carefully historicizes the decline of the once illustrious Cao clan, and he demonstrates how Cao Xueqin's own childhood experiences in a wealthy bondservant family during the Qing dynasty profoundly informed the encyclopedic narrative that he would later write. In *Between Noble and Humble*, Zhou also offers intriguing and controversial theories about *Honglou meng* based on decades of careful research, for instance, that the famous commentator Red Inkstone was in fact a female relative of Cao Xueqin.

**The Social Record of Christianity** Jan 15 2021 Includes The Lies and Fallacies of the Encyclopedia Britannica. Shows how Christianity has controlled the functions of society. Western civilization has been dependent upon the Christian religion for its ethical and moral teachings and, ultimately, its conduct. McCabe demonstrates, however, that the moral and ethical conduct of western civilization was never good and the chief cause of this has been Christianity. The Renaissance was a rebirth or revival of art, literature, and learning, with the major catalyst being Martin Luthers rebellious breakaway from the Church in 1524. It could not get started until the old ways of suppression were shaken, and today it has still not happened completely. We still hang on to this socially repressive system, according to McCabe, because it continues to function as an authority. The Lies and Fallacies continues this theme, documenting an effort by clerical forces to remove certain historical facts surrounding Christianity. Shows exactly how and why vital facts were either doctored or removed from the encyclopedia to cast Christianity into a better social and religious light.
