**Communism, Political Power and Personal Freedom in Marx** Mar 28 2020 This book investigates communism in Marx's writings, incorporating a consideration of communist politics. The author outlines the arguments by which it is possible to sustain—from Marx—the idea that human emancipation against capital also means the elimination of the State, the public, and the political dimension of praxis. He also posits that the concrete tasks of the “management of the common” in a communist society require political mediations that allow us to confront the difference inherent to the personality of freely associated producers, as well as the ontological finitude from which no technical power can evade. Finally, assuming Marx as a starting point whose work remains an inescapable source for “thinking communism,” the book proposes a research agenda from Marx and beyond to continue in this imperative task. Levy del Aguila Marchena is Senior Professor and Chair of the Department of Management Sciences at the Pontificia Universidad Católica del Perú. He has published extensively on Marx, political philosophy, and applied ethics.

*The Path to Personal Power* Jul 24 2022 This true lost manuscript from the "grandfather of self-help," Napoleon Hill provides timeless wisdom on how to attain a more successful and wealthy life using simple principles. This concise book is a powerful roadmap that leads to a single discovery—you already have the power to

**The Power of  $q$**  Aug 13 2021 This unique book explores the world of  $q$ , known technically as basic hypergeometric series, and represents the author's personal and life-long study—inspired by Ramanujan—of aspects of this broad topic. While the level of mathematical sophistication is graduated, the book is designed to appeal to advanced undergraduates as well as researchers in the field. The principal aims are to demonstrate the power of the methods and the beauty of the results. The book contains novel proofs of many results in the theory of partitions and the theory of representations, as well as associated identities. Though not

specifically designed as a textbook, parts of it may be presented in course work; it has many suitable exercises. After an introductory chapter, the power of  $q$ -series is demonstrated with proofs of Lagrange's four-squares theorem and Gauss's two-squares theorem. Attention then turns to partitions and Ramanujan's partition congruences. Several proofs of these are given throughout the book. Many chapters are devoted to related and other associated topics. One highlight is a simple proof of an identity of Jacobi with application to string theory. On the way, we come across the Rogers-Ramanujan identities and the Rogers-Ramanujan continued fraction, the famous "forty identities" of Ramanujan, and the representation results of Jacobi, Dirichlet and Lorenz, not to mention many other interesting and beautiful results. We also meet a challenge of D.H. Lehmer to give a formula for the number of partitions of a number into four squares, prove a "mysterious" partition theorem of H. Farkas and prove a conjecture of R.Wm. Gosper "which even Erdős couldn't do." The book concludes with a look at Ramanujan's remarkable tau function.

The Power of Feedback May 10 2021 Praise for The Power of Feedback "Some books are worthy of being recommended simply because of their subject matter. . . . There is no greater force to improve the quality of human relationships or improve the way organizations function than to multiply the amount and improve the quality of feedback." "Other books are worthy of being recommended . . . when an author takes an otherwise abstract, obtuse subject and turns it into an actionable, practical set of things to do. Joe Folkman has accomplished that task . . . helping individuals and organizations to develop feedback-rich environments . . . [and] change through the use of a variety of surveys and feedback instruments. He has made this topic highly engaging and accessible." "So, here you have the best of everything--an important topic; a talented, entertaining, and highly qualified author; content that is practical; and a text written in an easily comprehended manner. Enjoy." --From the Foreword by John H. "Jack" Zenger "Joe Folkman has

years of experience and miles of wisdom from coaching and training high-performance organizations. He speaks truth: change is hard. But feedback can be very powerful if the receiver makes the commitment to lasting change. Folkman has scored a home run with *The Power of Feedback*." --Maria Nalywayko Senior Vice President, Human Resources, Fremont Investment & Loan "Most of us are clueless when it comes to providing feedback. But now, thanks to Joe Folkman's *The Power of Feedback*, we have a road map for turning the feedback we receive into lasting and profound change." --Jeffrey Gill Director of Organization Capability, The Coca-Cola Company

**Personal Intelligence** Aug 21 2019 John D. Mayer, the renowned psychologist who co-developed the groundbreaking theory of emotional intelligence, now draws on decades of cognitive psychology research to introduce another paradigm-shifting idea: that in order to become our best selves, we use an even broader intelligence—which he calls personal intelligence—to understand our own personality and the personalities of the people around us. In *Personal Intelligence*, Mayer explains that we are naturally curious about the motivations and inner worlds of the people we interact with every day. Some of us are talented at perceiving what makes our friends, family, and coworkers tick. Some of us are less so. Mayer reveals why, and shows how the most gifted "readers" among

us have developed "high personal intelligence." Mayer's theory of personal intelligence brings together a diverse set of findings—previously regarded as unrelated—that show how much variety there is in our ability to read other people's faces; to accurately weigh the choices we are presented with in relationships, work, and family life; and to judge whether our personal life goals conflict or go together well. He persuasively argues that our capacity to problem-solve in these varied areas forms a unitary skill. Illustrating his points with examples drawn from the lives of successful college athletes, police detectives, and musicians, Mayer shows how people who are high in personal intelligence (open to their inner experiences, inquisitive about people, and willing to change themselves) are able to anticipate their own desires and actions, predict the behavior of others, and—using such knowledge—motivate themselves over the long term and make better life decisions. And in outlining the many ways we can benefit from nurturing these skills, Mayer puts forward an essential message about selfhood, sociability, and contentment. *Personal Intelligence* is an indispensable book for anyone who wants to better comprehend how we make sense of our world.

**The Motivation Manifesto** Apr 09 2021 "The Motivation Manifesto is a poetic and powerful call to reclaim our lives and find our own personal freedom. It's a triumphant work that transcends the title, lifting the reader from mere motivation into a soaringly purposeful and meaningful

life. I love this book." —Paulo Coelho The Motivation Manifesto is a pulsing, articulate, ferocious call to claim our personal power. World-renowned high performance trainer Brendon Burchard reveals that the main motive of humankind is the pursuit of greater Personal Freedom. We desire the grand liberties of choice—time freedom, emotional freedom, social freedom, financial freedom, spiritual freedom. Only two enemies stand in our way: an external enemy, defined as the social oppression of who we are by the mediocre masses, and an internal enemy, a sort of self-oppression caused by our own doubt and fear. The march to Personal Freedom, Burchard argues, can be won only by declaring our intent and independence, stepping into our personal power, and battling through self-doubt and the distractions of the day until full victory is won. Recalling the revolutionist voices of the past that chose freedom over tyranny, Burchard—at times poetic yet always fierce—motivates us to free ourselves from fear and take back our lives once and for all.

It takes people on a journey beyond achievement and success to a stance in which power comes from their inner core and they lead from their souls." There is no doubt that the world is ready for a new model of leadership. In this third edition, Janet Hagberg addresses much that she has learned from her readers. The result is a deepening of the descriptions of each stage, a new way to think about the dark side of each stage, new stories of each stage derived

**Personal Power Or Your Master Self** Nov 28 2022 Presented here in its original 12-volume series, the Personal Power Books are a set of self-help books designed to be carefully studied to develop personal power. In the Foreword to Volume I, personal power is defined as "The ability of strength possessed by the human individual, by which he does, or may, accomplish desired results in an efficient manner, along the lines of physical, mental, and spiritual effort and endeavor." In other words, these books describe the methods to attaining control and power in your own life, whether it be financial, physical, mental, or emotional--certainly a worthy goal for any individual. Volume I includes instructions on learning to find your "Master Self," developing the ego, realizing your potential as a person, and defining yourself as you. American writer WILLIAM WALKER ATKINSON (1862-1932) was editor of the popular magazine New Thought from 1901 to 1905 and editor of the journal Advanced Thought from 1916 to 1919. *Intimacy and Power* Oct 23 2019 This book explores the nature of intimacy by revealing how the influence of individual, interpersonal and wider social factors create variations in self-disclosure, intimacy games and relationship habits. *I Am* Feb 07 2021 This book is about the power of your words to shape your destiny, and as you will quickly find out, your words are highly expressive of your core beliefs and the thoughts they produce. "For out of the abundance of the heart (subconscious mind), the mouth speaks." (Matt. 12:34; ESV) When ancient scriptures speak of the heart - Greek (kardia), Hebrew (Nephesh or Leb) - it is not speaking of the physiological organ but of the right lobe of the soul, in contemporary thought referred to as the subconscious mind. So while we can understand that our words have physicality, our thoughts carry an even

greater power and physicality. It is our thoughts that drive our speech, especially those inner-conversations that are so influential in shaping our behavior and habits. We have all heard, in some form or another, that as a man thinks in his mind, so is he. Gaining a lucid perspicacity of this truth is the beginning of the development of the infinite power necessary

to control your destiny and so much more. Not only does your mind influence the internal mechanism of your character, but it directly impacts the external reality of your circumstances. A person's condition cannot be divorced from the pattern of their thoughts because their condition is the fruit of their thinking.
