Behavior in Organizations Feb 26 2020 BEHAVIOR IN ORGANIZATIONS, 9/e, by Shani and Lau, is a paperback text that takes a hands-on, experiential approach (learning-by-doing or learning-in-action) to organizational behavior. The majority of the exercises, role-playing simulations, and cases were developed in and for management training workshops. The cases themselves represent different industries and organizations around the globe with diverse size, product, service, and cultures. Instructors appreciate the multiple interactive teaching methods for each teaching module. Experiential methods provide a powerful stimulus for learning, growth, and change by helping participants focus on their own behaviors and reactions as data. Personal growth and self-understanding activities are introduced later in the text, after students have had enough experience to become more comfortable and ready for them.
