RDS-1 Operations Manual Mar 26 2022 The RDS-1 was created as a prototype for evaluation of a complex, portable, turnkey, video / audio recording studio for today's Concert Video Producers, TV Producers, industrial Media departments, high end Videographer, or well-funded Band that wants to produce their own video segments. The 24 track 24 bit hard disk recording deck from Mackie takes the 24 tracks from the 2 on board retractable Mackie 1604 VLZ mixing boards and cleanly records them onto a removable computer hard disk. This unit also provides equipment to direct a 6 video camera crew including video screens, preview and program out switchers and an intercom system. Even though major pieces of equipment like the Makie 24/96 hard disk recorder are out of production there are a number of even better recorders that can take its place when you decide to make your own recording console. This book will be an invaluable tool at the design stage as well as a guide to write your own OPERATIONS MANUAL. Captain Willy

Headphones: Buyer's Guide 2015 Oct 09 2020 Headphones can be considered loudspeakers that were specifically created to be placed over the ears of user's. They are electrical devices that convert electrical signals into sounds to be heard by the user. The main function of a headphone is to provide users with the ability to use them to privately listen to audio recordings. This is in direct contrast to a speaker that allows everyone in close proximity to hear the sound. Sometimes headphones can be referred to as ear speakers. There are many different types of headphones that have different audio reproduction abilities. They range

from lightweight ear buds to heavy bass-pumping full-sized headphones that produce amazing output. These can offer a range of sound that, to date has remained a phenomenon. It allows audiophiles to hear every sound note and accurately identify every pitch. The average user will unlikely be able to differentiate the various sounds and pitches. An experienced listener, however, is more likely to easily identify the difference.
