Switch Nov 17 2021 Why is it so hard to make lasting changes in our companies, in our communities, and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller *Made to Stick*. Psychologists have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind—that compete for control. The rational mind wants a great beach body; the emotional mind wants that Oreo cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In *Switch*, the Heaths show how everyday people - employees and managers, parents and nurses - have united both minds and, as a result, achieved dramatic results: • The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients • The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping • The

manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology, and other fields to shed new light on how we can effect transformative change. Switch shows that successful changes follow a pattern, a pattern you can use to make the changes that matter to you, whether your interest is in changing the world or changing your waistline.

Climate Change Oct 29 2022 This publication, the fifth in the IOC Ocean Forum series, discusses the complexities of the many processes involved in climate change and the difficulties in making realistic climate predictions, using a style accessible to the non-specialist reader. The authors examine the Kyoto protocol from a number of different viewpoints, highlighting the challenges involved in the development of effective climate prediction models and policy options to address the problems caused by global warming.

The Gin Closet Oct 17 2021 AS A YOUNG WOMAN, Tilly flees home for the hollow underworld of Nevada, looking for pure souls and finding nothing but bad habits. One day, after

Tilly has spent nearly thirty years without a family, drinking herself to the brink of death, her niece Stella—who has been leading her own life of empty promise in New York City—arrives on the doorstep of Tilly’s desert trailer. The *Gin Closet* unravels the strange and powerful intimacy that forms between them. With an uncanny ear for dialogue and a witty, unflinching candor about sex, love, and power, Leslie Jamison reminds us that no matter how unexpected its turns, the life we’re given is all we have: the cruelties that unhinge us, the beauties that clarify us, the addictions that deform us, those fleeting possibilities of grace that fade as quickly as they come. *The Gin Closet* marks the debut of a stunning new talent in fiction.

The Book Whisperer Dec 27 2019 Turn any student into a bookworm with a few easy and practical strategies Donalyn Miller says she has yet to meet a child she can’t turn into a reader. No matter how far behind Miller's students might be when they reach her 6th grade classroom, they end up reading an average of 40 to 50 books a year. Miller's unconventional approach dispenses with drills and worksheets that make reading a chore. Instead, she helps students navigate the world of literature and gives them time to read books they pick out themselves. Her love of books and teaching is both infectious and inspiring. In the book, you’ll find: Hands-on strategies for managing and improving your own school library Tactics for helping students walk on their own two feet and continue the reading habit after they’ve finished with your class Data from student surveys and end-of-year feedback that proves how well the Miller Method works *The Book Whisperer* includes a dynamite list of recommended "kid lit" that helps parents and teachers find the books that students really like to read.

Sometimes Things Change Apr 10 2021 Sometimes things change from what they were at first: a caterpillar becomes a butterfly, a trickle becomes a river, a word becomes a story, a stranger becomes a friend, and a baby becomes you.

Blue Angel Aug 22 2019 The National Book Award Finalist from acclaimed New York Times bestselling author Francine Prose—now the major motion picture Submission “Screamingly funny ... *Blue Angel* culminates in a sexual harassment hearing that rivals the Salem witch trials.” —USA Today It's been years since Swenson, a professor in a New England creative

writing program, has published a novel. It's been even longer since any of his students have shown promise. Enter Angela Argo, a pierced, tattooed student with a rare talent for writing. Angela is just the thing Swenson needs. And, better yet, she wants his help. But, as we all know, the road to hell is paved with good intentions. Deliciously risqué, *Blue Angel* is a withering take on today's academic mores and a scathing tale that vividly shows what can happen when academic politics collides with political correctness.

The Game of Change Apr 22 2022 This book is for all the amazing women out there, in their capacity as daughters, mothers, office-goers, business owners, home keepers, dreamers and achievers. It is also for all the wonderful men who get to interact with these amazing women. The author is writing about her perception on what worked in nurturing the power of success in the three-important people of her life; her husband, son and daughter without compromising her life. The juggling multiple rolls is hard work and exhausts people and stress seems to be a norm of life. It makes it hard to come out of this repetitive pattern, making people live in anxiety and fear. It is tiresome and reflects on one's moods, immune system and health. This book ruminates on people's assumptions, oscillating between rational and emotional silos, bringing the reader towards that critical breakthrough that can change the trajectory of their life. The book contains easy to use scientifically researched formula to enable the change. The author uses her 'I am not perfect' mantra to get more from life, which gives an opportunity to change efficiently and effectively into a happier person. This book will inspire the reader on the art of change, offering easy to use techniques, to help implement the desired change in the areas of your life that are no longer working.

Atomic Habits Jul 02 2020 The #1 New York Times bestseller. Over 4 million copies sold! *Tiny Changes, Remarkable Results* No matter your goals, *Atomic Habits* offers a proven framework for improving--every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to: make time for new habits (even when life gets crazy); overcome a lack of motivation and willpower; design your environment to make success easier; get back on track when you fall off course; ...and much more. *Atomic Habits* will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

Lord of the Flies May 31 2020 William Golding's unforgettable classic of boyhood adventure and the savagery of humanity comes to Penguin Classics in a stunning Graphic Deluxe Edition with a new foreword by Lois Lowry As provocative today as when it was first published in 1954, *Lord of the Flies* continues to ignite passionate debate with its startling, brutal portrait of human nature. William Golding's compelling story about a group of very ordinary boys marooned on a coral island has been labeled a parable, an allegory, a myth, a morality tale, a parody, a political treatise, and even a vision of the apocalypse. But above all, it has earned its place as one of the indisputable classics of the twentieth century for readers of any age. This Penguin Classics Graphic Deluxe Edition features an array of special features to supplement the novel, including a foreword by Lois Lowry, an introduction by Stephen King, an essay by E. M. Forster, an essay on teaching and reading the novel and suggestions for further exploration by scholar Jennifer Buehler, and an extended note by E. L. Epstein, the publisher of the first American paperback edition of *Lord of the Flies*. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Lovers at the Chameleon Club, Paris 1932 Aug 03 2020 A richly imagined and stunningly inventive literary masterpiece of love, art, and betrayal, exploring the genesis of evil, the unforeseen consequences of love, and the ultimate unreliability of storytelling itself. Paris in the 1920s shimmers with excitement, dissipation, and freedom. It is a place of intoxicating ambition, passion, art, and discontent, where louche jazz venues like the Chameleon Club draw expats, artists, libertines, and parvenus looking to indulge their true selves. It is at the Chameleon where the striking Lou Villars, an extraordinary athlete and scandalous cross-dressing lesbian, finds refuge among the club's loyal denizens, including the rising Hungarian photographer Gabor Tsenyi, the socialite and art patron Baroness Lily de Rossignol; and the caustic American writer Lionel Maine. As the years pass, their fortunes—and the world itself—evolve. Lou falls desperately in love and finds success as a race car driver. Gabor builds his reputation with startlingly vivid and imaginative photographs, including a haunting portrait of Lou and her lover, which will resonate through all their lives. As the exuberant twenties give way to darker times, Lou experiences another metamorphosis—sparked by tumultuous events—that will warp her earnest desire for love and approval into something far more.

Planning for Climate Change Nov 29 2022 This book provides an overview of the large and interdisciplinary literature on the substance and process of urban climate change planning and design, using the most important articles from the last 15 years to engage readers in understanding problems and finding solutions to this increasingly critical issue. The Reader's particular focus is how the impacts of climate change can be addressed in urban and suburban environments—what actions can be taken, as well as the need for and the process of climate planning. Both reducing greenhouse gas emissions as well as adapting to future climate are explored. Many of the emerging best practices in this field involve improving the green infrastructure of the city and region—providing better on-site stormwater management, more urban greening to address excess heat, zoning for regional patterns of open space and public transportation corridors, and similar actions. These actions may also improve current public health and livability in cities, bringing benefits now and into the future. This Reader is innovative in bringing climate adaptation and green infrastructure together, encouraging a more hopeful perspective on the great challenge of climate change by exploring both the problems of climate change and local solutions.

Art and Social Change May 24 2022 "This reader gathers together an international selection of artists' proposals, manifestos, theoretical texts and public declarations that focus on the question of political engagement and the possibility of social change"--Back cover.

Changing readers' attitudes? The representation of discrimination in the Harry Potter novels Mar 22 2022 When Joanne K. Rowling published her first Harry Potter novel in 1997, probably nobody expected the tremendous success her writing debut was going to bring her. The huge popularity of the seven-book series led not only to an equally successful series of film adaptations, but also to a variety of well selling merchandise. Children and adults alike are enchanted by the wizarding world that Rowling so meticulously created. However, Rowling's story does not only serve as a source for our entertainment, she also uses her fantasy world as a metaphor for our own world, depicting rights and wrongs in many different fields. One of the main themes is even a very controversial one: discrimination. And Rowling did not just invent a world in black and white, she does not simply tell the reader that prejudice is a reprehensible trait in our society. Rather, she created a world for the readers to explore and find things out for themselves as the story continued. In this paper, the author claims that the representation of discrimination in the Harry Potter series influences the readers in a positive way and that they are

likely less prejudiced against stigmatised groups after reading the books.

Floods in a Changing Climate Jul 14 2021 Provides unique synthesis of various modeling methodologies used to aid planning and operational decision making, for academic researchers and professionals.

The Global Social Change Reader Sep 23 2019 The Global Social Change Reader:

Development in an Unequal World explores development, globalization, and inequality within and between countries. This introductory anthology gives readers an overview of social change since World War II - change driven by public and private sector agents at the international, national, and local levels. The book is organized into five main sections. These cover developmental indicators, theories and critiques, the colonial and decolonization periods, institutions and sectors of development, views on prospects and progress, and specialized topics such as the environment, gender, health, and population. Readers will learn about theory, policy, and practices as viewed through diverse perspectives from academics and practitioners in the field. The Global Social Change Reader is well-suited to introductory courses in sociology, political science, and international relations. Lisa Meyer holds a Ph.D. in sociology from Emory University. Dr. Meyer is an associate professor of sociology and co-director of the Edgar Fellows Honor Program at the State University of New York, Geneseo where her research and teaching interests include globalization, gender and international development, and political economy. Journeys: Young Readers' Letters to Authors Who Changed Their Lives Jun 12 2021 Books can change lives — and here are more than fifty powerful letters from young readers to authors revealing some of the ways that is true. Annie Schnitzer tells Elie Wiesel, “Reading your story allowed me to connect with my own history,” explaining how reading his memoir deepened her understanding of her grandparents’ plight during the Holocaust. After reading *The House on Mango Street*, Julia Mueller writes to Sandra Cisneros, “You didn’t tell me how to pull myself back together; you just showed me that I could. I was tired of trying to be somebody else’s definition of beautiful, and you told me that was okay.” Culled from the Letters About Literature contest of the Library of Congress Center for the Book, the fifty-two letters in this collection — written by students in grades four through twelve — reveal how deeply books and poetry affect the lives of readers. Offering letters that are as profound as they are personal and as moving as they are enlightening, this collection, which also features artwork by some of the contest entrants, provides a glimpse into young people’s lives and their connections — both expected and unexpected — to the written word.

Climate Change and Displacement Reader Mar 10 2021 Official estimates put the future scale of human displacement as a result of climate change at anywhere from 150 million to one billion people. Despite this crisis in the making, few countries or international institutions are adequately prepared to address and resolve this emerging human rights crisis. This compilation brings together fifty-one of the leading texts on climate change and displacement. It provides a consolidated source and substantive overview of the key issues relating to climate change and displacement, including: the reality of climate displacement; the shape of current and proposed international law on this matter; the institutional and governance framework that will address and respond to this crisis; and an analysis of what a cross-section of governments and civil society organizations are already doing to prepare for and act against climate displacement. This volume is an indispensable resource for academics researching this issue, community and international advocates, officials of the United Nations and international human rights and humanitarian organizations; national and municipal governments as well as all people concerned about the human rights of climate displaced persons throughout the world.

What are Global Warming and Climate Change? Apr 30 2020 Global warming is one of the most talked about science subjects today. Maybe you have seen pictures of polar bears or other animals stranded atop floating chunks of melting ice. Perhaps you have heard about or lived through extreme weather--hurricanes, floods, water shortages, heat waves, or electricity blackouts. Many of these events can stem from the world getting warmer. As that happens, the climate changes, too. This book helps young readers understand the sciences used to study global warming. Each chapter addresses specific questions about why the temperatures of the earth's air and oceans are rising. The information presented aligns with the findings of the Intergovernmental Panel on Climate Change: that most of the warming observed over the last half-century is due to human activities and that the impacts of global warming will be significantly negative. Using a question-and-answer format supplemented by hands-on activities, this book fosters an understanding of the complex processes at work in global warming while also enabling youngsters to think critically about their future. McCutcheon ends his book by offering young readers productive ways to think about--and act on--changes in the environment contributing to climate change. McCutcheon taps his mastery of a complicated, highly charged topic to permit young readers to become informed consumers of the sciences associated with the most urgent topic of their future--global warming.
