Learn to Play Guitar Sep 07 2020 Learn to Play Guitar is comprehensive with over 180 photographs, illustrations and diagrams and includes 42 downloadable mp3 tracks of full band demo and backing. Learn to Play Guitar bridges the gaps explaining guitar techniques that can be taken for granted by more experienced players. Melodies - To get straight into playing music, numbers have been added underneath guitar tablature to assist with rhythm. Later, the rhythmical aspect of notation is covered so you can use it in conjunction with tablature. Rhythm Guitar - Changing between chords and strumming are separated initially, to develop coordination in each hand independently. They are then brought together starting basic until there's a rhythm guitar piece to play. Music theory - The major scale, minor scale, major and minor pentatonic scales and major and minor chord construction are explained in terms of the fret-board and reinforced by musical pieces in various styles to make the learning process practical and enjoyable. What else? - Fret-board layout, power chords, barre chords, how to string a guitar, how to practise guitar, palm muting and basic lead guitar techniques. Please Note: The eBook includes musical pieces so is not suitable for smaller screens.

Guitar Strumming Patterns - There are 70 different guitar strumming patterns that can be used throughout the book, all written with easy to understand, graphical, strumming diagrams. Reading Rhythmical Notation - Understand the common language of music by becoming familiar with rhythmical notation. Learn whole notes, half notes, quarter notes, eighth notes and their equivalent rests, dotted notes, ties and the basics of time signatures. All shown with clear charts and diagrams. Chord Changes - Seven groups of chord changes are included, made up almost entirely of open chords. The book starts with the easiest chord changes in which fretting finger locations can be shared, moving to chord changes in which fretting fingers relocate with the same shape, then more difficult chord changes where fretting fingers need to relocate in independent directions, such as C major to G major open chords or Aadd9 to Dmaj7 open chords. Strumming Exercises and Study Pieces - Every section includes strumming exercises that combine chord changes with strumming, each section concluding with a musical study piece using the skills learnt and practised in styles of Slow Pop, Spanish style, Grunge and Country Pop. In total there are 85 strumming exercises and 10 musical study pieces, while more combinations can be found by selecting from the 70 given

strumming patterns to use with them. Audio and Video - All exercises and musical study pieces are demonstrated with audio (downloadable 154 MB). All study pieces have a demonstration audio track and a backing audio track in which the rhythm guitar part has been removed for you to play over. Online videos (of which there are 21 in total size of 775 MB) are also used to enhance explanations. Please Note: The eBook includes musical pieces so is not suitable for smaller screens.

Guitar for Beginners Jan 12 2021 It Took Me 3 Months to Play My First Song - But You'll Be Doing That in Less Than A Week. It wasn't because I was slow or bad at guitar. Neither was it because I practiced less. I was simply misguided - like every other person to ever pick up the guitar! I took the "traditional" method of learning where you learn all the chords and all the theory behind it before you get to the fun part. This also involves months of practice and learning boring theory. This book is here to end that - to simplify things - to make things so simple that you'll be playing your first melody on day 1 and your first song within 7 days. How can this book do that? You would have heard people say - "You need to learn theory to be a real guitarist" Well..... Wrong! Not everyone needs to know theory - why do you need to learn all the boring theory if it's of no use to you? Why is this forced upon all guitarists? This book cuts out all the cr\*p and gives you a streamlined process of mastering guitar. Even if you failed every exam at school and you have never picked up a single instrument in your life, you will be able to become a proficient guitar player without years and years of expensive guitar lessons. With the right strategy, you will get addicted to your guitar and the songs you are able to play. How long will I have to practice? Now, I know you have other commitments in life and cannot spend 25 hours a day practicing guitar. No one wants to do that. This book has been designed with exactly that in mind. It will give you goals for each of your 7 days with step by step instructions on what to play each day. You won't have to worry if you're practicing too less or too much - the book will tell you what you need to be accomplishing each day. Commit a few hours a day for 7 days and you'll make your friends and family jealous when you pull your guitar out. It doesn't matter if you just enter primary school or you are about to retire. This calculation applies to all 6.8 billion people between 6 and 80 years of age in this world. In Guitar for Beginners, you'll discover: A practical day-by-day guide to own yourself and your guitar in less than 7 days How you be your guitar teacher and progress into the league of the big players The chords that will allow you to play your favorite songs A beyond beginners' guide to prepare you for your musical journey Free audio tracks to help you with the charts Real photos to make sure you are not making any mistakes as you go And much more. Many people buy a guitar and just look up their favorite songs on Youtube tutorials. Unfortunately, one of the most frustrating things about learning to play guitar is ironing out old mistakes. Don't skip the basics and pick up bad habits that will become almost impossible to break later. If you want to throw out your air guitar and impress everyone with your guitar skills, then scroll up and click the "Add to Cart" button right now.
