Martian Knightlife Jan 21 2022 THE KNIGHT IS A SAINT (with a twist!) At least you might think so if you read his curriculum vitae. You would swear in fact that this private eye of the future is honest, paying for what he gets, getting what he's paid for, with somehow a little extra for everybody to go around. Take this case, involving a matter transmitter which the inventor tested on himself^{3/4}then found his bank accounts empty and his credit cards overflowing, all done by someone whose DNA looks just like that of the rightful owner . . . But that wasn't all. There was also an archaeological expedition which had uncovered ruins that might solve the mystery of the Martian race that had vanished from the planet eons ago^{3/4}except that a greedy interplanetary corporation was all set to bulldoze them over in pursuit of the bottom line unless a gallant knight^{3/4}or Knight^{3/4}could come galloping up on his charger. Then there were some people who were not amused at how the Knight had foiled a sure-fire scheme worth billions, and were looking for him with heavy muscle and heavier artillery . . . People in trouble and people who are trouble just seem to populate his life^{3/4}and thank goodness, because they are the very thing the Knight needs to keep his life from getting boring. And the bad guys never seem to know what hits them . . . At the publisher's request, this title is sold without DRM (Digital Rights Management). Praise for James P. Hogan: "Entertaining, imaginative. . . . Readers will want to sign up for this ride."^{3/4}Publishers Weekly ". . . fascinating notions and nonstop plot twists in a taut, gripping narrative; a bravura performance."^{3/4}Kirkus Reviews ". . . cutting edge scientific approach . . . truly fascinating and hugely enjoyable."^{3/4}Starlog

Autism Spectrum Disorder in the Ontario Context Jan 09 2021 Autism Spectrum Disorder in the Ontario Context is the first book to offer a thorough introduction to Autism Spectrum Disorder (ASD) in Ontario. Highlighting examples, research, and interventions specific to Ontario, this manual provides an abundance of information in one central location, making it an indispensable tool for any Ontario professional working with individuals with ASD. This comprehensive text begins with a brief history of ASD and an overview of its contemporary understandings, including current diagnostic criteria. Covering a range of evidence-based interventions that have been shown to be effective for individuals with ASD—and supplemented with graphics, checklists, and hands-on strategies for application—this book provides essential information to inform practitioners. The concluding section on ASD across the lifespan explores how these interventions are delivered within agencies throughout Ontario, from preschool through to adulthood, and addresses relevant issues and topics for each age group. Featuring chapter summaries, definitions of key terms, lists of further resources, and reflective questions, this highly accessible and pedagogically rich text is vital reading not only for current and future practitioners, but also for parents of children with ASD.

Automated Low-Altitude Air Delivery Jul 15 2021 This book investigates Unmanned Aircraft Systems (UAS) with a payload capacity of one metric ton for transportation. The authors provide a large variety of perspectives—from economics to technical realization. With the focus on such heavy-lift cargo UAS, the authors consider recently

established methods for approval and certification, which they expect to be disruptive for unmanned aviation. In particular, the Specific Operations Risk Assessment (SORA) and its impact on the presented technological solutions and operational concepts are studied. Starting with the assumption of an operation over sparsely populated areas and below common air traffic, diverse measures to further reduce operational risks are proposed. Operational concepts derived from logistics use-cases set the context for an in-depth analysis including aircraft and system design, safe autonomy as well as airspace integration and datalinks. Results from simulations and technology demonstrations are presented as a proof of concept for solutions proposed in this book.
