Essential and leading cases are explained The style, layout and explanations are user friendly Cases are broken down into key components by use of a clear system of symbols for quick and easy visual recognition

Essentials on Tort Law Apr 21 2022 This work is intended as a study/revision aid for students, rather than as a substitute for more detailed treatises. It analyzes the law of tort in terms of the

issues that are likely to be of interest to examiners and explains these areas in an accessible manner, as well as summarizing existing academic opinion.

Philosophical Foundations of Tort Law Mar 20 2022 This exceptional collection of nineteen original essays on the philosophical fundamentals of tort law assembles many of the world's leading commentators on this particularly fascinating conjunction of law and philosophy. The contributions range broadly, from inquiries into how tort law derives from Aristotle, Aquinas, and Kant to the latest rights-based and economic theories of legal responsibility. One group of essays examines how intent and blameworthiness bear on responsibility for harm, while another explores how causation interconnects responsibility and harm. Some essays probe philosophically into the great divides separating the law of torts from the law of contracts and the law of crimes, a number inquire into the types of harm properly redressable in tort, and one examines the role of a victim's fault in responsibility theory. This collection surely will be of interest to lawyers around the world, particularly those interested in the philosophical groundwork of tort law. A provocative closing essay by one of the world's leading moral philosophers illuminates how tort law enables philosophers to observe the abstract theories of their discipline put to the concrete test in the legal resolution of real-world controversies based on principles of right and wrong.

Tort Law: The Essentials Oct 27 2022 *Tort Law: The Essentials* is part of Aspen's new Essentials Series, which takes a "forest rather than the trees" approach by first exposing students to the subject as a whole before delving deeply into individual legal rules. This insightful paperback concentrates on the fundamentals and uses an informal, personal style to explain the essential concepts and doctrines of tort law. Suitable for use with any casebook, this resource will help students recognize and understand how common themes enhance their ability to comprehend doctrinal issues.

The Evolution from Strict Liability to Fault in the Law of Torts Dec 25 2019 Gradually, the law of tort has shifted away from a strict-liability approach to one where fault predominates. This book charts important case law documenting this shift. It seeks to understand how and why it occurred. Given that the *Rylands v Fletcher* decision is typically seen as a prime exemplar of strict liability, it focusses particularly on that case, as part of the historical development of tort law. It considers the intellectual arguments made in favour of strict liability, and for fault-based liability. Having done so, it then focusses on particular areas of the law of tort, including nuisance, defamation and trespass. It is somewhat anomalous that though most would view these as examples of torts of strict liability, fault considerations have become prominent in their application. This presents an uneasy compromise, where torts that are notionally strict in nature are infused with fault considerations, often through exceptions or defences. This book advocates for further development in the law of tort to better reflect a primarily fault-based approach to liability, at least in the common law. This would make the law of tort more coherent.

Tort Law in Hong Kong Jun 18 2019 Derived from the renowned multi-volume *International Encyclopaedia of Laws*, this book provides ready access to how the legal dimension of prevention against harm and loss allocation is treated in Hong Kong. This traditional branch of law not only tackles questions which concern every lawyer, whatever his legal expertise, but also concerns each person's most fundamental rights on a worldwide scale. Following a general introduction that probes the distinction between tort and crime and the relationship between tort and contract, the monograph describes how the concepts of fault and unlawfulness, and of duty of care and negligence, are dealt with in both the legislature and the courts. The book then proceeds to cover specific cases of liability, such as professional liability, liability of public bodies, abuse of rights, injury to reputation and privacy, vicarious liability, liability of parents and teachers, liability for handicapped persons, product liability, environmental liability, and liability connected with road and traffic accidents. Principles of causation, grounds of justification, limitations on recovery, assessment of damages and compensation, and the role of private insurance and social security are all closely considered. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource for lawyers Hong Kong. Academics and

researchers will also welcome this very useful guide, and will appreciate its value not only as a contribution to comparative law but also as a stimulus to harmonization of the rules on tort.

Essential Elements Apr 09 2021

The Economic Structure of Tort Law Mar 28 2020 Written by a lawyer and an economist, this is the first full-length economic study of tort law--the body of law that governs liability for accidents and for intentional wrongs such as battery and defamation. Landes and Posner propose that tort law is best understood as a system for achieving an efficient allocation of resources to safety--that, on the whole, rules and doctrines of tort law encourage the optimal investment in safety by potential injurers and potential victims. The book contains both a comprehensive description of the major doctrines of tort law and a series of formal economic models used to explore the economic properties of these doctrines. All the formal models are translated into simple commonsense terms so that the "math less" reader can follow the text without difficulty; legal jargon is also avoided, for the sake of economists and other readers not trained in the law. Although the primary focus is on explaining existing doctrines rather than on exploring their implementation by juries, insurance adjusters, and other "real world" actors, the book has obvious pertinence to the ongoing controversies over damage awards, insurance rates and availability, and reform of tort law--in fact it is an essential prerequisite to sound reform. Among other timely topics, the authors discuss punitive damage awards in products liability cases, the evolution of products liability law, and the problem of liability for "mass disaster" torts, such as might be produced by a nuclear accident. More generally, this book is an important contribution to the "law and economics" movement, the most exciting and controversial development in modern legal education and scholarship, and will become an obligatory reference for all who are concerned with the study of tort law.

Comparative Tort Law Oct 15 2021 This revised second edition of *Comparative Tort Law: Global Perspectives* offers an updated and enriched framework for analysing and understanding the current state of tort law around the world. Using a critical comparative methodology, it covers not only the common tort law issues but also many jurisdictions often overlooked in the mainstream literature. Contributions explore illuminating case studies from tort systems in Europe, the US, Latin America, Asia and sub-Saharan Africa, including new chapters specifically discussing tort law in Brazil, India and Russia.

Tort Law in Bangladesh Jan 26 2020 This book explores the use of tort laws in Bangladesh, outlining critical studies and cases on key concepts such as nuisance, international torts, negligence, and liability. Drawing from case studies in the UK, USA, Canada, Australia, and India, the volume comparatively analyses various aspects of tort law including its efficacy, issues of determination and monetary considerations. It scrutinizes academic literature and prominent cases such as *Bangladesh Beverage Industries Ltd v Rowshan Akhter* and *Children Charity Bangladesh Foundation v Government of Bangladesh* among others to examine the objective and use of tort law in Bangladesh. It also explores fundamental misconceptions related to the use of torts, protection of public and private rights, formalization of tort cases in courts, types of legal remedies for injuries, and more. Lucid and topical, this book will be an essential read for scholars of law, tort law, constitutional law, civil and criminal law as well as for legal professionals especially those concerned with Bangladesh.

Essential Tort Feb 19 2022 The *Essentials* series aims to help students get through exams. It looks at major subjects and the main topics within those subjects, thereby offering an understanding of the important principles, regardless of the structure of the course or primary textbook. This work covers the law of tort.

A Modern View of the Law of Torts Oct 03 2020 *A Modern View of the Law of Torts* provides the important aspects of the law of torts, which is an area of law that covers the majority of all civil lawsuits. This book begins with a description of the civil rights of an individual who is wronged by another person, followed by a particular attention to the remedies that are available to people who are wronged by any of the standard torts. Chapters of this book are devoted to specific torts, such

as negligence, defamation, and trespass. Specifically, the law of negligence has been fully dealt with, as more and more of the problems of the law of torts are being solved by the courts with reference to the developing principles of the law of negligence. This publication provides an interesting approach to the study of torts, which is equally useful to students and the lay person.

Winfield and Jolowicz on Tort Jan 06 2021 The authors focus on English law but cover significant developments in Commonwealth countries, and, where appropriate, European systems of tort law. They offer an understanding of the purpose of tort law and also detail the rules and principles that make up tort law and explain how the law has developed.

Philosophical Foundations of the Law of Torts Dec 17 2021 This book offers a rich insight into the law of torts and cognate fields, and will be of broad interest to those working in legal and moral philosophy. It has contributions from all over the world and represents the state-of-the art in tort theory.

Essential Tort Law for SQE1 Aug 25 2022 *Essential Tort Law for SQE1* explains the key principles of tort law in a clear, easy-to-follow style. Principles are introduced and illustrated with reference to practical examples. The book demonstrates the skill of client case analysis, taking a clear and structured approach to analysing the facts of a client's case and then applying the relevant principles. It also includes a range of supportive features: Revision points: Each chapter concludes with a concise list of key revision points. Problem questions: To test understanding and analytical skills applied to practical scenarios. A companion website also provides suggested answers. Multiple choice questions: Each section of the book provides multiple choice questions following the SQE1 question format (with answers to enable you to test your knowledge). Further multiple choice questions and answers are also provided on the companion website. The first in a series of books aimed at those preparing for SQE1, this concise and accessible text provides a clear understanding of the tort element of SQE1 and enables you to test your assessment skills.

Essentials of Torts Jul 24 2022 Ideal for instructors in need of a concise text, *ESSENTIALS OF TORTS, Third Edition* is a practical and relevant guide for the paralegal as well as for anyone preparing for a career in the field of law. Well-written, logical, and full of interesting and diverse pedagogical material, this text focuses on paralegal roles in tort litigation while providing students with a comprehensive overview of the law of torts. This condensed version of Statsky's *TORTS: PERSONAL INJURY LITIGATION, Fifth Edition*, *ESSENTIALS OF TORTS* has been thoroughly updated to include topics that are relevant for today's students including the Internet, terrorism, 9/11, and tort liability. Chapter objectives, margin definitions, review questions, and numerous exhibits are included in each chapter and serve to reinforce chapter concepts. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Kidner's Casebook on Torts Apr 28 2020 *Kidner's Casebook on Torts* is the essential companion for undergraduate tort law students, providing a comprehensive portable library of leading cases in the field. Kirsty Horsey and Ericka Rackley, authors of the best-selling tort law textbook, combine their talents again to update *Kidner's* popular casebook; bringing together an impressive range of carefully edited extracts and combining insightful commentary with questions and annotated cases to help your students identify and analyse the key elements of each case. Online resources The text is supported by online resources which provide a comprehensive suite of resources, including downloadable annotated cases, flashcard glossary, and web links and video clips of current items.

The Essentials of Business Law: With Forms of Legal and Business Documents; Prepared for the Use of Schools and Colleges as a Book of Reference for Bu Aug 13 2021 Excerpt from *The Essentials of Business Law: With Forms of Legal and Business Documents; Prepared for the Use of Schools and Colleges as a Book of Reference for Business Men* *Law of Property and Civil Rights - The Law of Property and Civil Rights* is divided into two branches: *The Law of Contracts* and *The Law of Torts*. Compensation of Private Losses Sep 02 2020

Research Handbook on the Economics of Torts May 30 2020 Focusing on issues of vital importance to those seeking to understand and reform the tort system, this volume takes a multi-disciplinary approach, including theoretical economic analysis, empirical analysis, socio-economic analysis, and behavioral anal

A Historical Introduction to the Law of Obligations Jan 18 2022 A collection of documentaries about the First World War. From the onset of the Great War to the tragic final day on which over 13,000 men died, the films span the turbulent four-year period from 1914-1918 that saw over 40 million casualties and 20 million deaths.

Atiyah's Accidents, Compensation and the Law Jul 12 2021 Since its first publication, *Accidents, Compensation and the Law* has been recognised as the leading treatment of the law of personal injuries compensation and the social, political and economic issues surrounding it. The seventh edition of this classic work explores recent momentous changes in personal injury law and practice and puts them into broad perspective. Most significantly, it examines developments affecting the financing and conduct of personal injury claiming: the abolition of legal aid for most personal injury claims; the increasing use of conditional fee agreements and after-the-event insurance; the meteoric rise and impending regulation of the claims management industry. Complaints that Britain is a 'compensation culture' suffering an 'insurance crisis' are investigated. New statistics on tort claims are discussed, providing fresh insights into the evolution of the tort system which, despite recent reforms, remains deeply flawed and ripe for radical reform.

CLERK & LINDSELL ON TORTS. Mar 08 2021

The Law of Tort Aug 01 2020 The law of tort occupies a central position in defining the legal obligations between individuals not to cause each other harm or injury. For academics it is a crucial area of study and for practitioners it is an essential area of knowledge. Now in its Second edition this title covers the general principles of tortious liability and a wide range of specific torts. It provides an accessible, comprehensive and authoritative account of the law as it is and how it is likely to develop. The new edition includes ground breaking cases such as *Barker v Corus* on causation, *Viasystems* on vicarious liability, and *Jameel* on defamation, plus a preliminary analysis of *OBG v Allan* in the area of economic torts. There is also full treatment of the Compensation Act 2006, and two wholly new chapters on Privacy and Deceit & Misrepresentation. An indispensable reference which will broaden the practitioner's understanding and knowledge of what is a fast-moving and complex area of law. The book is part of the Common Law menu which is supported by annual updates.

Defences in Tort Feb 07 2021 This book is the first in a series of essay collections on defences in private law. It addresses defences to liability arising in tort. The essays range from those adopting a primarily doctrinal approach to others that examine the law from a more theoretical or historical perspective. Some essays focus on individual defences, while some are concerned with the links between defences, or with how defences relate to the structure of tort law as a whole. A number of the essays also draw upon concepts and literature that have been developed mainly in relation to the criminal law, and consider their application to tort law. The essays make several original contributions to this complex, important but neglected field of academic enquiry.

Street on Torts Jun 11 2021 *Street on Torts* provides a scholarly and incisive treatment of the law of torts with a focus upon key concepts and clear explanations. This book builds upon the learning of its previous, celebrated authors and, nearly 60 years after publication of the first edition, is considered a classic exposition of the law of torts.

Essential Tort Law for SQE1 Aug 21 2019 *Essential Tort Law for SQE1* explains the key principles of tort law in a clear, easy-to-follow style. Introduced and illustrated with reference to factual and everyday examples, the book fosters a clear and structured approach to analyzing the facts of a client's case and then applying the relevant principles.

Essentials of Torts Sep 26 2022 *Ideal for instructors in need of a concise text, ESSENTIALS OF TORTS, Third Edition* is a practical and relevant guide for the paralegal as well as for anyone preparing for a career in the field of law. Well-written, logical, and full of interesting and diverse pedagogical material, this text focuses on paralegal roles in tort litigation while providing students with a comprehensive overview of the law of torts. This condensed version of Statsky's *TORTS: PERSONAL INJURY LITIGATION, Fifth Edition*, *ESSENTIALS OF TORTS* has been thoroughly updated to include topics that are relevant for today's students including the Internet, terrorism, 9/11, and tort liability. Chapter objectives, margin definitions, review questions, and numerous exhibits are included in each chapter and serve to reinforce chapter concepts. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Law of Torts May 10 2021 *The Law of Torts* by Philip Osborne is an indispensable resource for practitioners, judges, and students seeking a concise and accessible introduction to the principles of tort law in Canada, the social policies underlying the law, and current trends in judicial decision-making. The book reviews the foundations, characteristics, and objectives of tort law generally with specific discussion of the central concepts of negligence, intentional torts, strict liability and vicarious liability, nuisance, and defamation. It provides insightful analysis of the relationships between tort law and other branches of private law, including contract law and restitution, and public law, particularly the Charter of Rights and Freedoms. The fourth edition includes new sections dealing with negligent investigations, malicious prosecution and Crown prosecutors, responsible communication on a matter of public interest, reportage, and cyber-defamation. The Canadian law of torts is described as it was on 1 January 2011.

Torts and Other Wrongs Jun 30 2020 *Torts and other Wrongs* is a collection of eleven of the author's essays on the theory of the law of torts and its place in the law more generally. Two new essays accompany nine previously published pieces, a number of which are already established classics of theoretical writing on private law. Together they range across the distinction between torts and other wrongs, the moral significance of outcomes, the nature and role of corrective and distributive justice, the justification of strict liability, the nature of the reasonable person standard, and the role of public policy in tort adjudication. Though focussed on the law of torts, the wide-ranging analysis in each chapter will speak to theorists of private law more generally.

Business Law I Essentials Jun 23 2022 A less-expensive grayscale paperback version is available. Search for ISBN 9781680923018. *Business Law I Essentials* is a brief introductory textbook designed to meet the scope and sequence requirements of courses on Business Law or the Legal Environment of Business. The concepts are presented in a streamlined manner, and cover the key concepts necessary to establish a strong foundation in the subject. The textbook follows a traditional approach to the study of business law. Each chapter contains learning objectives, explanatory narrative and concepts, references for further reading, and end-of-chapter questions. *Business Law I Essentials* may need to be supplemented with additional content, cases, or related materials, and is offered as a foundational resource that focuses on the baseline concepts, issues, and approaches.

Risks and Wrongs Nov 16 2021 *Jules Coleman* discusses the conflict between the goals of justice and economic efficiency in the allocation of risk, especially risk pertaining to safety.

The Law of Tort Dec 05 2020 The law of tort occupies a central position in defining the legal obligations between individuals not to cause each other harm or injury. For academics it is a crucial area of study and for practitioners it is an essential area of knowledge. Covering a wide range of issues, from the characteristics of tortious liability to the abuse of the legal process, this new book

provides an accessible, comprehensive and authoritative account of the law as it is and how it is likely to develop. It is an indispensable reference which will broaden the practitioner's understanding and knowledge of what is a fast-moving and complex area of law.

Torts and Rights Sep 21 2019 The law of torts is concerned with the secondary obligations generated by the infringement of primary rights. This work seeks to show that this apparently simple proposition enables us to understand the law of torts as found in the common law. Using primarily English materials, but drawing heavily upon the law of other common law jurisdictions, Stevens seeks to give an account of the law of torts which relies upon the core material familiar to most students and practitioners with a grasp of the law of torts. This material is drawn together in support of a single argument in a provocative and accessible style, and puts forward a new theoretical model for analysing the law of torts, providing an overarching framework for radically reconceiving the subject.

Essential Cases on Damage Sep 14 2021 With an emerging ius commune in the field of tort law, the extensive range of experiences derived from national court practice on the basis of prior laws will in certain respects be of comparatively less importance. A major lacuna is thus apparent: While publications of court decisions and databases exist, none provide access to a comparative selection of recurring issues in the various European legal systems. Along the lines of the previous Digest project on Causation, this study covers another key element of tort law - damage. The publication contains a systematic selection of cases from 27 countries across Europe in addition to ECJ case-law, with each case benefiting from an analysis and commentary from a national and, where appropriate, a comparative perspective. Further, the impact of these rulings on a future European law of torts is highlighted. Finally, the publication also looks into how key cases would be resolved under unified European tort law drafts. The object of the study is thus to bridge domestic case-law with the new body of uniform tort law thus facilitating the continuity of legal development in Europe.

The Duty of Care in Negligence Nov 23 2019 This book aims to provide a detailed analysis and overview of the duty of care enquiry, drawing on both academic analyses and judicial experience in leading common law systems. A new structure through which duty problems can be analysed is also proposed. It is hoped that the book provides some fresh insights and clarity of the concept to the reader.

*Essential Cases on Misconduct May 22 2022 The various national European legal systems offer a broad range of responses to the question of what can be regarded as wrongful behaviour or fault. The present work systematically examines these two important prerequisites for tortious liability under the combined heading of 'misconduct'. Unlike current textbooks, national casebooks and monographs, it builds on the experiences gathered in the national legal systems over the past decades and thereby fills a major gap which still exists today. It thus does what the previous volumes in the 'Digest of European Tort Law' series did for other key elements of tort law, namely natural causation and damage. Once again, the publication contains a selection of the most important cases from 28 states across Europe as well as cases handed down by European Union courts; it also highlights cases from earlier periods of legal history. For each case, the facts and the relevant court decision are presented and these are then accompanied by an analytical commentary. In addition, the editors provide comparative analyses of the cases reported and a special report is dedicated to how key decisions would be resolved under model European rules on tort law. The editors believe that the material gathered here may provide guidance for an organic convergence of the national legal systems in Europe. It constitutes the basis of an *acquis commun* that is infinitely richer (though also much more complex) than the rather bland and abstract concepts contained in national codifications, European legislation and modern model rules.*

Tort Law in Portugal Oct 23 2019 Derived from the renowned multi-volume International Encyclopaedia of Laws, this book provides ready access to how the legal dimension of prevention against harm and loss allocation is treated in Portugal. This traditional branch of law not only

tackles questions which concern every lawyer, whatever his legal expertise, but also concerns each person's most fundamental rights on a worldwide scale. Following a general introduction that probes the distinction between tort and crime and the relationship between tort and contract, the monograph describes how the concepts of fault and unlawfulness, and of duty of care and negligence, are dealt with in both the legislature and the courts. The book then proceeds to cover specific cases of liability, such as professional liability, liability of public bodies, abuse of rights, injury to reputation and privacy, vicarious liability, liability of parents and teachers, liability for handicapped persons, product liability, environmental liability, and liability connected with road and traffic accidents. Principles of causation, grounds of justification, limitations on recovery, assessment of damages and compensation, and the role of private insurance and social security are all closely considered. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource for lawyers Portugal. Academics and researchers will also welcome this very useful guide, and will appreciate its value not only as a contribution to comparative law but also as a stimulus to harmonization of the rules on tort.
