Supporting Requirements Communication for Shared Understanding by Applying Vision Videos in Requirements Engineering Sep 23 2021 Requirements engineering (RE) has the overall goal of establishing the vision of the system in its relevant context. For this goal, all stakeholders must disclose, discuss, and**

***align their mental models of the system by explicitly communicating their goals, ideas, needs, and expectations. This procedure serves to develop and negotiate a shared understanding and is called requirements communication. In this thesis, I analyze the application of videos as a documentation option in RE to support effective requirements communication for shared understanding. Videos used for this purpose are called vision videos. Based on a technology transfer process, I develop a candidate solution consisting of the two concepts video as a by-product and awareness and guidance. The first concept supports the revision of RE practices by integrating video production and use to obtain videos as a by-product with low effort and sufficient quality. The second concept helps software professionals with video production and use by creating awareness regarding video quality and providing guidance on how to proceed. Each concept is first validated in academia before the entire candidate solution is validated in a case study in the industry. The findings from academia and industry indicate that the candidate solution helps software professionals to gain the required awareness, knowledge, and ability to produce and use vision videos at moderate costs and with sufficient quality. These videos are suitable for the intended purpose of supporting requirements communication for shared understanding.***

***Developments in Biblical Counseling Feb 03 2020 Are you looking for a brief introduction to what the biblical counseling movement is and how it has changed over the years? In Developments in Biblical Counseling , J. Cameron Fraser turns a journalistic eye to this question and presents a concise assessment.***

***Introducing us to the formative work of Jay Adams, Fraser outlines several themes of biblical counseling that became foundational for the movement as a whole and observes how the movement received criticisms from outside and made necessary developments from within. He points out that some of these developments have an affinity with Puritan approaches to counseling that Adams rejects but may point in a more consistently biblical direction. Table of Contents: 1. Some Foundational Views of Nouthetic Counseling 2. Some Criticisms of Nouthetic Counseling 3. Some Developments in Biblical Counseling 4. Biblical and Puritan Counseling***

**Proverbs Oct 25 2021** *The NIV Application Commentary helps you communicate and apply biblical text effectively in today's context. To bring the ancient messages of the Bible into today's world, each passage is treated in three sections: Original Meaning. Concise exegesis to help readers understand the original meaning of the biblical text in its historical, literary, and cultural context. Bridging Contexts. A bridge between the world of the Bible and the world of today, built by discerning what is timeless in the timely pages of the Bible. Contemporary Significance. This section identifies comparable situations to those faced in the Bible and explores relevant application of the biblical messages. The author alerts the readers of problems they may encounter when seeking to apply the passage and helps them think through the issues involved. This unique, award-winning commentary is the ideal resource for today's preachers, teachers, and serious students of the Bible, giving them the tools, ideas, and insights they need to communicate God's Word with the same powerful impact it had when it was first written.*

**Greek and Roman Military Manuals Jun 20 2021** *This volume explores the enigmatic primary source known as the ancient military manual. In particular, the volume explores the extent to which these diverse texts constitute a genre (sometimes unsatisfactorily classified as 'technical literature'), and the degree to which they reflect the practice of warfare. With contributions from a diverse group of scholars, the chapters examine military manuals from early Archaic Greece to the Byzantine period, covering a wide range of topics including readership, siege warfare, mercenaries, defeat, textual history, and religion. Coverage includes most of the major contemporary siege manual writers, including Xenophon, Frontinus, Vegetius, and Maurice. Close examination of these texts serves to reveal the complex ways in which ancient Greeks, Romans, and Byzantines sought to understand better, and impose order upon, the seemingly irrational phenomenon known as war. Providing insight into the multifaceted collection of texts that constituted military manuals, this volume is a key resource for students and scholars of warfare and military literature in the classical and Byzantine periods.*

**The Biblical Counseling Movement Dec 03 2019** *In principle, Christians believe knowing Jesus Christ is the original and abiding "cure of the soul." But in practice, the church's provision of personalized care and counsel has often been unthoughtful and unskillful. During the past 150 years, many other practitioners*

**and theorists have filled the gap. Psychiatry and psychotherapy (transliterations of two Greek words for "cure of the soul") claim to offer the deep truth that explains a human being and the final word on how we can be cured from the troubles that beset us. Secularized explanations and cures call for no recourse to the Bible or Jesus. Beginning in the late 1960s, a biblical counseling movement sought to reclaim counseling for the church. It aimed to provide a coherently Christian alternative to mainstream psychiatry and psychotherapy. The Biblical Counseling Movement: History and Context is an informative and thought-provoking account of that movement. How did it begin and develop? What were the defining ideas? Where were the tension points and struggles, both internally and with evangelical psychotherapists? David Powlison's historical account combines careful scholarship with unique, eyewitness insight. This book is an invaluable resource for those who want to understand the biblical counseling movement. The core chapters were originally a PhD dissertation in history of science and medicine (University of Pennsylvania). This new edition adds a lengthy appendix, containing articles by Dr. Powlison. These extend and deepen the history, giving a fine-grained analysis of developments within the biblical counseling movement and in its relationship to evangelical psychotherapists. The author also freely expresses his point of view and personal convictions regarding the history he has carefully described.**
