Swarmwise Jun 22 2022 Swarmwise (2013) is a tactical guide to changing the world using cost-efficient swarm methodology. It is a leadership handbook that outlines how the Swedish Pirate Party was able to beat the competition on less than one percent of their budget, and shows how any cash- and time-strapped executive or manager can use swarm methodologies, whether the goal is social, business, or political. The organization, founded by one man without resources, has now spread to over 70 countries using the same cost-efficient swarm organization. Swarmwise will tell you what it takes to found a swarm of volunteers, how to organize and energize it, and how to lead it to success. The book doesn't go into theoretical detail, psychology, or deep research papers. Rather, it is very hands-on leadership advice from pure experience – it covers everything from how you give instructions to new marketing assistants or activists about handing out flyers in the street, up to and including how you communicate with TV stations and organize hundreds of thousands of people in a coherent swarm. Above all, it focuses on the cost-efficiency of the swarm structure, and is a tactical instruction manual for anybody who wants to dropkick their competition completely – no matter whether their game is business, social, or political. Swarmwise, chapter by chapter: Chapter 1 - Understanding the Swarm deals with the basic concepts of a swarm organization, and explains why the swarm is open and transparent. It introduces the concept of a cost-efficiency advantage of two orders of magnitude. In chapter 2 - Launching Your Swarm, we learn that the published project plan must be tangible, credible, inclusive, and epic, and what that means in practice. Chapter 3 - Getting Your Swarm Organized gives tangible advice on how to organize a volunteer organization and why. We look at the dynamics of different group sizes and how to build a culture of trust. One of the most counterintuitive lessons is detailed in Chapter 4 - Control the Vision, but Never the Message. It explains how you need to use volunteers to translate your vision into messages that fit a specific social context, rather than using an one-size-fits all slogan. A healthy dose of classic project management is found in chapter 5 - Make The Targets Visible, And Paint Them Red Daily. We talk about metrics, choosing the right metrics, and causing self-organization to happen when you publish the right metrics to optimize. In chapter 6 - Screw Democracy, We're on a Mission from

God, we talk about conflict resolution mechanisms and how to optimize the swarm for speed, trust, and scalability. Chapter 7 - Surviving Growth Unlike Anything the MBAs Have Seen details how the swarm can grow by 200% in a week when some events play out, and how to handle such situations. One of the more advanced chapters, chapter 8 - Using Social Dynamics To Their Potential goes into how we can tap into the long tail of people and effectively cross-use online and offline friendships to grow organically. Seeing how most organizations need to deal with TV, newspapers, and radio, there is also chapter 9 - Managing Oldmedia that details everything from press release processes to TV crews. Finally, chapter 10 - Beyond Success shares a bit of experience of what happens when you feel at the top of the world, and what to do then. "Your most valuable asset isn't your employees," I told the executive. "Your most valuable asset are the thousands of people who want to work for you for free, and you don't let them." The book can also be downloaded as a PDF from the author's website at <http://falkvinge.net/books/>.

Climate Change Adaptation Manual Feb 18 2022 Due to the lack of success in climate change mitigation efforts, the importance of adaptation is becoming more and more apparent and is now one of the main imperatives of international research and action. However, research on adaptation is mostly not directly applicable to adaptation policy or practice, leaving a gap between scientific results and practical advice for decision makers and planners. This book seeks to address this problem and bridge the gap and should provide readers with practical and applicable information on climate change adaptation. Following an introduction, the book is organised into four main sections, each reflecting an essential component in the adaptation process. Climate change adaptation is an emerging subject area and has gained increased political and academic attention within the last decade. Whereas most books in the field focus on adaptation in developing countries, this volume provides an examination of predominantly European policy and offers inter-disciplinary insight into cutting edge knowledge and lessons learnt in a relatively new field of implementation.

Manual for facilitators Oct 14 2021 The Council of Europe youth sector aims at enabling young people across Europe to actively uphold, defend, promote and benefit from the Council of Europe's core values of human rights, democracy and the rule of law, notably by strengthening young people's access to rights, deepening youth knowledge and broadening youth participation. The activities of the European Youth Centres of Budapest and Strasbourg play a central role in the education and training of young 'multipliers' of Council of Europe values. The core of these activities is the programme of study sessions, week-long intercultural non-formal learning activities that are held in cooperation with European youth organisations and networks. These activities bring to the Youth for Democracy programme of the Council of Europe the unique experiences, expectations and concerns of young people regarding contemporary issues and challenges that affect their access to rights and of participating in all spheres of society. The study sessions of the European Youth Centres have been trendsetters in European youth work and remain a benchmark for intercultural youth activities. This manual is published to support the quality of study sessions and other educational activities in the Youth for Democracy programme. Preparing facilitators and developing their competences is one of the essential prerequisites for enabling exchanges of views and dialogical learning, preparing the participants to act as multipliers in their day-to-day lives, and ultimately contributing to the values and priorities of the Council of Europe and its youth sector. This Manual for Facilitators provides essential information, insights and practical tips in the planning and delivering of non-formal education intercultural activities while taking into account essential approaches of intercultural learning, human rights education and youth participation. This manual is a contribution to the quality of intercultural non-formal education activities of youth organisations and at making those activities a truly learning experience for young people in the Council of Europe.
