*To Live Is Christ to Die Is Gain* Sep 03 2020 Using Paul's radical letter to the Philippians as his road map, Matt Chandler forsakes the trendy to invite readers into authentic Christian maturity. The short book of Philippians is one of the most quoted in the Bible, yet Paul wrote it not for the popular sound bites, but to paint a picture of a mature Christian faith. While many give their lives to Jesus, few then go on to live a life of truly vibrant faith. In this disruptively inspiring book, Chandler offers tangible ways to develop a faith of pursuing, chasing, knowing, and loving Jesus. Because if we clean up our lives but don't get Jesus, we've lost! So let the goal be Him. To live is Christ, to die is gain—this is the message of the letter. Therefore, our lives should be lived to Him, through Him, for Him, with Him, about Him—everything should be about Jesus.

**International Relations** Jun 12 2021 The book is written for active learners – those keen on cutting their own path through the complex and at times hardly comprehensible world of THEORY in International Relations. To aid this process as much as possible, this book employs the didactical and methodical concept of integrating teaching and self-study. The criteria for structured learning about IR theory will be derived from an extensive discussion of the questions and problems of philosophy of science (Part 1). Theory of IR refers to the scientific study of IR and covers all of the following subtopics: the role and status of theory in the academic discipline of IR; the understanding of IR as a science and what a "scientific" theory is; the different assumptions upon which theory building in IR is based; the different types of theoretical constructions and models of explanations found at the heart of particular theories; and the different approaches taken on how theory and the practice of international relations are linked to each other. The criteria for the structured learning process will be applied in Part 2 of the book during the presentation of five selected theories of International Relations. The concept is based on "learning through example" – that is, the five theories have been chosen because, when applying the criteria developed in Part 1 of the book, each single theory serves as an example for something deeply important to learn about THEORY of IR more generally.
