**Contracts** Dec 27 2019 This classic casebook, now in its 9th Edition, offers first-year students a solid and inviting introduction to contract law, recognizing both the English and American common law traditions and bringing them into our age of statutes, most particularly the Uniform Commercial Code. Like earlier editions, the 9th Edition features carefully-selected cases, well-tailored notes and problems, and authoritative textual discussions of major developments in current contract law. These include the meaning of assent and agreement (with particular focus on the online environment and in the context of mandatory arbitration clauses); attention to comparative and international approaches; and accessible discussion of theoretical underpinnings of contract doctrine, the importance of which remain a mainstay of this new edition. The casebook is ecumenical in its outlook, presenting a well-balanced approach that is usable by professors with a wide-range of theoretical outlooks and pedagogical styles. Cases are situated within a variety of disciplines--history, economics, philosophy, and ethics--and present the law in a variety of typical settings--commercial, familial, employment, consumer, real estate and so on. The 9th Edition will feel familiar yet fresh to current users and both exciting and comfortable to newcomers.

Program Evaluation Sep 15 2021 This text provides a solid foundation in program evaluation, covering the main components of evaluating agencies and their programs, how best to address those components, and the procedures to follow when conducting evaluations. Different models and approaches are paired with practical techniques, such as how to plan an interview to collect qualitative data and how to use statistical analyses to report results. In every chapter, case studies provide real world examples of evaluations broken down into the main elements of program evaluation: the needs that led to the program, the implementation of program plans, the people connected to the program, unexpected side effects, the role of evaluators in improving programs, the results, and the factors behind the results. In addition, the story of one of the evaluators involved in each case study is presented to show the human side of evaluation. This new edition also offers enhanced and expanded case studies, making them a central organizing theme, and adds more international examples. New online resources for this edition include a table of evaluation models, examples of program evaluation reports, sample handouts for presentations to stakeholders, links to YouTube videos and additional annotated resources. All resources are available for download under the tab eResources at [www.routledge.com/9781138103962](http://www.routledge.com/9781138103962).

**65 Case Study Ideas In Production,operation,supply Chain And Logistics Management** Jul

02 2020 This book is a compilation of case study ideas in the areas of production, operation, supply chain and logistics management (POM-SCL) ,also incorporating operation strategies. This book has been designed conforming to the standards of this common subject for the courses of Master of Business Administration (MBA) and Post Graduate Diploma in Management (PGDM) prescribed by the All India Council of Technical Education (AICTE) and University Grants Commission (UGC). The book consists of sixty five case study ideas covering almost the entire gamut of the subject concerned. All these cases are based on Indian organizations/industries using the characters with names typically Indian and the narrations of these cases reflect Indian work culture, value systems and ethos. All these cases are followed by a set of about half a dozen questions pertaining to the narrations with the corresponding answers suggested for the guidance of the teachers and the students alike. Apart from making the book very convenient and handy for studying the subject, it is also aimed at dispelling fears and apprehensions among the students with non –science/non-technical background that they seem to have about this subject. Getting familiar with the numerical exercises given and solved in this book by practice will make passing this subject a cakewalk for any average student. The cases are so designed as to expose the students to the realities and challenges to the actual professional life while still seating in the class rooms, much before entering a professional career. The book provides a colossal value addition as both a complement and a supplement to the theories in the text books.
