*Catalogue of Coptic Manuscripts in the Pierpont Morgan Library* May 30 2022 Following the newest procedures of the "archaeology of the book", this catalogue raisonne presents a detailed description of the Coptic holdings of the Pierpont Morgan Library. The first efforts to provide such a catalogue date back to the twenties and thirties of this century. The introduction includes chapters on the modern history of the Coptic manuscripts, their antiquity and provenance, the method employed in this catalogue to describe them, and the history of the ancient monastery of St. Michael near present-day Hamuli, whose library yielded the bulk of the Morgan Coptic collection. In the individual entries, the literary contents of the manuscripts are treated at length and secondary literature, including modern editions and translations, is listed. Extensive concordances facilitate the use of the catalogue.

**Catalogue of the Collection of Pottery, Porcelain, and Faience** Feb 24 2022 Relaying a chronological account of the Metropolitan Museum's collection of pottery, porcelain and faience, this book reveals the economic, cultural, and social history of diverse cultures through their ceramic and plastic arts. The catalogue has a global reach, covering the Far East, the Near East, and Europe while tracking the medium from its origins in Dynastic China to the elaborate works in the Rococo style. In his account, Pier also points to areas of the museum's ceramics and plastics collection that will continue to develop into a strong collection. At the time of writing, he identified the Museum's European and Near East collections as particularly promising.
