The Truth About Stories May 21 2021 Winner of the 2003 Trillium Book Award "Stories

are wondrous things," award-winning author and scholar Thomas King declares in his 2003 CBC Massey Lectures. "And they are dangerous." Beginning with a traditional Native oral story, King weaves his way through literature and history, religion and politics, popular culture and social protest, gracefully elucidating North America's relationship with its Native peoples. Native culture has deep ties to storytelling, and yet no other

North American culture has been the subject of more erroneous stories. The Indian of fact, as King says, bears little resemblance to the literary Indian, the dying Indian, the construct so powerfully and often destructively projected by White North America. With keen perception and wit, King illustrates that stories are the key to, and only hope for, human understanding. He compels us to listen well.

The Daily Show (The Book)

Aug 24 2021 The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from

legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, Steve Carell, Lewis Black, Jessica Williams, John Hodgman, and Larry Wilmore-plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program hosted by Craig Kilborn to Jon Stewart's long reign to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become

part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, Jon Stewart's emotional monologue in the wake of 9/11, his infamous confrontation on Crossfire, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, the Indecisions, Mess O'Potamia, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come

together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

Trickster Coyote is having his friends over for a festive solstice get-together in the woods when a little girl comes by unexpectedly. She leads the party-goers through the snowy woods to a shopping mall -- a place they have never seen before. Coyote gleefully shops

with abandon, only to discover that filling your shopping cart with goodies is not quite the same thing as actually paying for them. The trickster is tricked and goes back to his cabin in the woods -- somewhat subdued -- though nothing can keep Coyote down for long. A Man For All Seasons Jul 11

2020 A Man for All Seasons dramatises the conflict between King Henry VIII and Sir Thomas More. It depicts the confrontation between church and state, theology and politics, absolute power and individual freedom. Throughout the play Sir Thomas More's eloquence and endurance, his purity, saintliness and tenacity in the

face of ever-growing threats to his beliefs and family, earn him status as one of modern drama's greatest tragic heroes. The play was first staged in 1960 at the Globe Theatre in London and was voted New York's Best Foreign Play in 1962. In 1966 it was made into an Academy Award-winning film by Fred Zinneman starring Paul Scofield. "A Man for All Seasons is a stark play, sparse in its narrative, sinewy in its writing, which confirms Mr Bolt as a genuine and solid playwright, a force in our awakening theatre." (Daily Mail)

became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to express their opinions on subjects that ranged from

recreational drugs to the war in Vietnam. In this engaging and generously illustrated chronicle, Peabody Award-winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of The Daily Show; on-air interviewees ranged from John and Yoko to Noam Chomsky; a telephone "Listener Line" fielded questions on any subject, day and night. From 1968 to Watergate, Boston's WBCN was the hub of the rock-and-

The Inconvenient Indian Oct 26 2021 WINNER of the 2014 RBC Taylor Prize The Inconvenient Indian is at once a “history”

and the complete subversion of a history—in short, a critical and personal meditation that the remarkable Thomas King has conducted over the past 50 years about what it means to be “Indian” in North America. Rich with dark and light, pain and magic, this book distills the insights gleaned from that meditation, weaving the curiously circular tale of the relationship between non-Natives and Natives in the centuries since the two first encountered each other. In the process, King refashions old stories about historical events and figures, takes a sideways look at film and pop culture, relates his own complex experiences with activism, and

articulates a deep and revolutionary understanding of the cumulative effects of ever-shifting laws and treaties on Native peoples and lands. This is a book both timeless and timely, burnished with anger but tempered by wit, and ultimately a hard-won offering of hope -- a sometimes inconvenient, but nonetheless indispensable account for all of us, Indian and non-Indian alike, seeking to understand how we might tell a new story for the future.

(1807-1885) built covered bridges over every large river in Georgia, Alabama, and eastern Mississippi. That King, who began life as a slave in Cheraw, South Carolina, received no formal training makes his story all the more remarkable. This is the first major biography of the gifted architect and engineer who used his skills to transcend the limits of slavery and segregation and become a successful entrepreneur and builder. John S. Lupold and Thomas L. French Jr. add considerably to our knowledge of a man whose

accomplishments demand wider recognition. As a slave and then as a freedman, King built bridges, courthouses, warehouses, factories, and houses in the three-state area. The authors separate legend from facts as they carefully document King's life in the Chattahoochee Valley on the Georgia-Alabama border. We learn about King's freedom from slavery in 1846, his reluctant support of the Confederacy, and his two terms in Alabama's Reconstruction legislature. In addition, the biography reveals King's relationship with his fellow (white) contractors and investors, especially John Godwin, his master and

business partner, and Robert Jemison Jr., the Alabama entrepreneur and legislator who helped secure King's freedom. The story does not end with Horace, however, because he passed his skills on to his three sons, who also became prominent builders and businessmen. In King's world few other blacks had his opportunities to excel. King seized on his chances and became the most celebrated bridge builder in the Deep South. The reader comes away from King's story with respect for the man; insight into the problems of financing, building, and maintaining covered bridges; and a new sense of how essential bridges were to

the southern market economy. **Thomas King** Jan 29 2022 A comprehensive, up-to-date overview of the work of one of the foremost Native North American writers and his reception and influence.

Tropes and Territories Oct 14 2020 Tropes and Territories demonstrates how current debates in postcolonial criticism bear on the reading, writing, and status of short fiction. These debates, which hinge on competing definitions of "trope" (motif vs rhetorical turn) and "territory" (political or aesthetic), lead to studies of space, place, influence, and writing and reading practices across cultural divides. The essays also explore the

character of diasporic writing, the cultural significance of oral tale-telling, and interconnections between socio/political issues and strategies of style.

[English and Irish Settlement on the River Amazon, 1550-1646](#)

Dec 04 2019 From as early as the middle of the 16th century Englishmen were interested in the possibility of exploring the fabled resources of the great river of the Amazons. During the first half of the 17th century English and Irish projectors made persistent efforts to maintain trading factories and plantation there. From at least 1612 to 1632 they inhabited settlements along the north channel of the

estuary from Cabo do Norte to the Equator, making very considerable profits from tobacco, dyes and hardwoods. The profitability of their holdings was such that, when the Portuguese made the river too risky for foreign interlopers after 1630, former English and Irish planters sought to return there under licence of first the Spanish and then the Portuguese crown. The Irish may actually have been permitted to do so in the mid-1640s. Almost half a century has elapsed since J.A. Williamson and Aubrey Gwynne first published studies of these colonies. New material from English, Portuguese and Spanish archives has now made

it possible to re-evaluate their significance. The Irish ventures, although begun in partnership with the English, can now be seen to have developed into a quite distinct initiative. They are probably the earliest example of independent Irish colonial projects in the New World. By the early 1620s the Irish were known for their experience of the river and their expertise in Indian languages, proving far more efficient in their approach to exploiting Amazonia than the English. The tenacity with which both groups, the English and the Irish, pursued their goal of settlement also forces us to re-assess assumptions about the seemingly 'inevitable'

priority of North America for such activity in this period. The Amazon undertakings were in many ways more hopeful than contemporaneous enterprises in North America. They failed because their interests were sacrificed, at critical junctures, to the foreign policy priorities of the English crown, not because the Amazon was an unsuitable environment for northern Europeans.

Violent History of Benevolence

Jun 29 2019 A Violent History of Benevolence traces how

normative histories of liberalism, progress, and social work enact and obscure systemic violences. Chris Chapman and A.J. Withers explore how normative social work history is structured in such a way that contemporary social workers can know many details about social work's violences, without ever imagining that they may also be complicit in these violences. Framings of social work history actively create present-day political and ethical irresponsibility, even among those who imagine themselves to be anti-oppressive, liberal, or radical. The authors document many histories usually left out of social work

discourse, including communities of Black social workers (who, among other things, never removed children from their homes involuntarily), the role of early social workers in advancing eugenics and mass confinement, and the resonant emergence of colonial education, psychiatry, and the penitentiary in the same decade. Ultimately, *A Violent History of Benevolence* aims to invite contemporary social workers and others to reflect on the complex nature of contemporary social work, and specifically on the present-day structural violences that social work enacts in the name of benevolence.

Telling Stories Jan 17 2021 The

present volume is a highly comprehensive assessment of the postcolonial short story since the thirty-six contributions cover most geographical areas concerned. Another important feature is that it deals not only with exclusive practitioners of the genre (Mansfield, Munro), but also with well-known novelists (Achebe, Armah, Atwood, Carey, Rushdie), so that stimulating comparisons are suggested between shorter and longer works by the same authors. In addition, the volume is of interest for the study of aspects of orality (dialect, dance rhythms, circularity and trickster figure for instance) and of the more or

less conflictual relationships between the individual (character or implied author) and the community. Furthermore, the marginalized status of women emerges as another major theme, both as regards the past for white women settlers, or the present for urbanized characters, primarily in Africa and India. The reader will also have the rare pleasure of discovering Janice Kulik Keefer's "Fox," her version of what she calls in her commentary "displaced autobiography" or "creative non-fiction." Lastly, an extensive bibliography on the postcolonial short story opens up further possibilities for

research.
