Fierce Convictions Dec 01 2019 With a foreword by Eric Metaxas, best-selling author of *Bonhoeffer* and *Amazing Grace*. The enthralling biography of the woman writer who helped end the slave trade, changed Britain's upper classes, and taught a nation how to read. The history-changing reforms of Hannah More affected every level of 18th-Century British society through her keen intellect, literary achievements, collaborative spirit, strong Christian principles, and

colorful personality. A woman without connections or status, More took the world of British letters by storm when she arrived in London from Bristol, becoming a best-selling author and acclaimed playwright and quickly befriending the author Samuel Johnson, the politician Horace Walpole, and the actor David Garrick. Yet she was also a leader in the Evangelical movement, using her cultural position and her pen to support the growth of education for the poor, the reform of morals and manners, and the abolition of Britain's slave trade. *Fierce Convictions* weaves together world and personal history into a stirring story of life that intersected with Wesley and Whitefield's Great Awakening, the rise and influence of Evangelicalism, and convulsive effects of the French Revolution. A woman of exceptional intellectual gifts and literary talent, Hannah More was above all a person whose faith compelled her both to engage her culture and to transform it.

Stuffocation Aug 28 2019 Stuffocation is a movement manifesto for “experiential” living, a call to arms to stop accumulating stuff and start accumulating experiences, and a road map for a new way forward with the potential to transform our lives. Reject materialism. Embrace experientialism. Live more with less. Stuffocation is one of the most pressing problems of the twenty-first century. We have more stuff than we could ever need, and it isn't making us happier. It's bad for the planet. It's cluttering up our homes. It's making us stressed—and it might even be killing us. A rising number of us are already turning our backs on all-you-can-get consumption. We are choosing access over ownership, and taking our business to companies like Zipcar, Spotify, and Netflix. Fed up with materialism, we are ready for a new way forward. Trend forecaster James Wallman traces our obsession with stuff back to the original Mad Men, who first created desire through advertising. He interviews anthropologists studying the clutter crisis, economists searching for new ways of measuring progress, and psychologists who link stuffocation to declining well-being. And he introduces us to the innovators who are already living more consciously and with more meaning by choosing experience over stuff. Experientialism does not mean giving up all of our possessions. It is a solution that is less extreme but equally fundamental. It's about transforming what we value. Stuffocation is a

paradigm-shifting look at our habits and an inspiring call for living more with less. It's the one important book you won't be able to live without. Praise for *Stuffocation* "The revelations come fast and furious as he asserts that acquiring 'stuff' is often just an easy way to ignore the tougher questions of life, dodging 'why am I here?' and 'how should I live?' for 'will that go with the top I bought last week?' Tart and often funny . . . [*Stuffocation*] will be an eye-opener for those long ago persuaded that more is better. A scintillating read that will provoke conversation (or at least closet cleaning)." —Booklist "James Wallman deftly hits upon a major insight for our times: that acquiring 'stuff' and 'things' is not nearly as meaningful as collecting experiences. Some of the happiest days of my life were when I had nothing and lived on a houseboat. Without stuff to tie me down, I felt completely free." —Blake Mycoskie, founder of TOMS and author of the New York Times bestseller *Start Something That Matters* "A must-read . . . We think that more stuff will make us happier, but as the book nicely shows, we're just plain wrong. A great mix of stories and science, *Stuffocation* reveals the downside of more, and what we can do about it." —Jonah Berger, author of the New York Times bestseller *Contagious* "Wallman offers a deeply important message by weaving contemporary social science into very engaging stories. Reading the book is such a pleasure that you hardly recognize you're being told that you should change how you live your life." —Barry Schwartz, author of *The Paradox of Choice* "With a sociologist's eye and a storyteller's ear, Wallman takes us on a tour of today's experience economy from the perspective not of businesses, nor even of consumers per se, but of everyday people." —B. Joseph Pine II and James H. Gilmore, authors of *The Experience Economy*

06 2020 PLEASE NOTE: This is a key takeaways and analysis of the book and NOT the original book. Inside this Start Publishing Notes Summary, Analysis, and Review of Marie Kondo's The Life Changing Magic of Tidying Up includes: Summary of the book A Review Analysis & Key Takeaways A detailed "About the Author" section Preview: The Life-Changing Magic of Tidying Up by Marie Kondo, an organization expert, details her KonMari Method, a rigorous cleaning program that promises swift, profound results. Kondo's beliefs are simple and straightforward: clutter makes your household-and your life-feel chaotic. If you rid your home of clutter, you'll achieve organizational bliss. Permanently. The entire process takes about six months, with some tasks that should be completed in one sitting and others that may take days or weeks. Kondo's recommendation is to handle each and every object in your home-literally picking it up and holding it in your hands-to consider whether or not it "sparks joy." If the object makes you happy, it's a keeper. If it doesn't, it should be discarded or recycled. (It's essential to frame this decision as 'What should I keep?' rather than 'What should I throw away?') Once you have culled your belongings in this way, Kondo estimates you should have only about one-third of what you started with, perhaps less.

The Year of Less Feb 12 2021 The Year of Less In her late twenties, Cait Flanders found herself stuck in the consumerism cycle that grips so many of us: earn more, buy more, want more, rinse, repeat. Even after she worked her way out of nearly \$30,000 of consumer debt, her old habits took hold again. When she realized that nothing she was doing or buying was making her happy—only keeping her from meeting her goals—she decided to set herself a challenge: she would not shop for an entire year. The Year of Less documents Cait's life for twelve months during which she bought only consumables: groceries, toiletries, gas for her car. Along the way,

she challenged herself to consume less of many other things besides shopping. She decluttered her apartment and got rid of 70 percent of her belongings; learned how to fix things rather than throw them away; researched the zero waste movement; and completed a television ban. At every stage, she learned that the less she consumed, the more fulfilled she felt. The challenge became a lifeline when, in the course of the year, Cait found herself in situations that turned her life upside down. In the face of hardship, she realized why she had always turned to shopping, alcohol, and food—and what it had cost her. Unable to reach for any of her usual vices, she changed habits she'd spent years perfecting and discovered what truly mattered to her. Blending Cait's compelling story with inspiring insight and practical guidance, *The Year of Less* will leave you questioning what you're holding on to in your own life—and, quite possibly, lead you to find your own path of less.

Unf*ck Your Habitat Sep 29 2019 Finally, a housekeeping and organizational system developed for those who'd describe their current living situation as a 'f*cking mess' that you 'really need to get around to fixing one day'. Rachel Hoffman began *Unf*ck Your Habitat* as a

Tumblr blog using daily, weekly, and mini challenges to motivate the lazy to get up and start cleaning. She launched Unf*ck Your Habitat in book form, for anyone who has been left behind by traditional aspirational systems. The ones that so often ignore single people; people without kids; students; people with pets or roommates; those with full-time jobs; and people with mental illnesses, chronic illnesses, and physical limitations. Most organizational books are aimed at devoted homemakers, DIY-ers, and people who seem to have unimaginable amounts of free time. They assume we all iron our sheets, have linen napkins that match our table runners, and can keep plants alive for longer than a week. Basically, they ignore most of us living here in the real world. Interspersed with lists, challenges and other how-tos, this no-nonsense advice relies on UfYH's 20/10 system (20 minutes of cleaning followed by a 10-minute break; no marathon cleaning allowed) in order to help you develop lifelong habits. It's designed to encourage the reader to embrace a new lifestyle in manageable sections, so they can actually start applying the tactics as they progress. For everyone stuck between *The Life-Changing Magic of Tidying Up* and *Adulthood*, this philosophy is decidedly more realistic than aspirational, but the goal is the same: not everyone will have a showcase of a home, but whatever your habitat, you deserve for it to bring you happiness, not stress.
