Wikipedia went dark on January 18, 2012. So did thousands of other websites, including search giant Google, all to protest a controversial copyright bill called the Stop Online Piracy Act (SOPA). The protest even helped to ignite mass demonstrations on the streets of over 250 cities in all 27 countries of the European Union to stop a similar attempt to regulate the Internet under the Anti-Counterfeiting Trade Agreement (ACTA). This book provides a gripping, behind-the-scenes look at how people organized the largest Internet protest in history, plus the largest single-day demonstration in the streets of 27 countries of the European Union. This grassroots movement involving millions of people won an unexpected, but historic first victory in the fight for a "free and open Internet."

Big Sam's Guide to Life May 28 2020 "Manager of the Month. Manager of the year, I'd say. Manager of the century. Manager of your hearts." "Feast! Feast on my milky teat of triumph. For I am Big Sam, and I am a footballing god." Business leaders and politicians have long realised that there is much to be learned from the world of low-to-mid Premier League football. But what about the rest of us? What can the former manager of England, Crystal Palace and literally nine other teams teach us about our own lives? Across a book chock-full of utter brilliance, 'Big Sam' will pass on some of the wisdom he's accumulated over the years. Like how to deal with betrayal. Or how to seduce a woman in three easy steps. Or how to thwart disaster if someone plays Nickelback on a pub jukebox. There's very little that Big Sam can't turn his hand to and very little that he won't happily share with you lucky readers. So, whether you're trying to deal with online trolls, on a night out and saddled with a disabled or forced to make small talk with people in the goods and service industries, Big Sam's Guide to Life will guide you to the top, or at least avoid relegation.

American Kleptocracy Mar 18 2022 A remarkable debut by one of America's premier young reporters on financial corruption, Casey Michel's American Kleptocracy offers an explosive investigation into how the United States of America built the largest illicit offshore finance system the world has ever known. "An indefatigable young American journalist who has virtually cornered the international kleptocracy beat on the US end of the black aquifer." —The Los Angeles Review of Books For years, one country has acted as the greatest offshore haven in the world, attracting hundreds of billions of dollars in illicit finance tied directly to corrupt regimes, extremist networks, and the worst the world has to offer. But it hasn't been the sand-splattered

Caribbean islands, or even traditional financial secrecy havens like Switzerland or Panama, that have come to dominate the offshoring world. Instead, the country profiting the most also happens to be the one that still claims to be the moral leader of the free world, and the one that claims to be leading the fight against the crooked and the corrupt: the USA. American Kleptocracy examines just how the United States' implosion into a center of global offshoring took place: how states like Delaware and Nevada perfected the art of the anonymous shell company, and how post-9/11 reformers watched their success usher in a new flood of illicit finance directly into the U.S.; how African despots and post-Soviet oligarchs came to dominate American coastlines, American industries, and entire cities and small towns across the American Midwest; how Nazi-era lobbyists birthed an entire industry of spin-men whitewashing trans-national crooks and despots, and how dirty money has now begun infiltrating America's universities and think tanks and cultural centers; and how those on the front-line are trying to restore America's legacy of anti-corruption leadership—and finally end this reign of American kleptocracy.

Boganaire Dec 23 2019 From blue collar to billionaire ... Hunter Valley mine electrician Nathan Tinkler borrowed big in 2005, made a fortune from several speculative coal plays, and by 2011 was a self-made billionaire. He had gambled and won, but his volatility and reluctance to pay his debts were making him enemies. He lived the high life as only a young man would, buying luxury homes, private jets, sports cars and football teams, and splurging massively to build a horseracing empire. But Tinkler's dreams had extended beyond even his resources, and his business model worked only in a rising market. When coal prices slumped in 2012, Tinkler had no cash flow to service his massive borrowings and no allies to help him recover. Within months he was trying desperately to stave off his creditors, large and small, and fighting to save his businesses and his fortune. In this impressive new biography, leading business writer Paddy Manning tells the story of Tinkler's meteoric rise to wealth, and captures the drama of his equally rapid downfall.

With help of some friends I decided to create CARS THAT MATTER, a handy photographic guide with lots of descriptions and historical notes about the most interesting, rare, and fun cars produced over the last century. Every car collector and wannabe collector I knew found something they'd not heard of in this first edition but I kept adding cars. Finally at 333 pages of brilliant images I decided to share this with the car-loving world. I hope you like it.

Round the Bend Feb 23 2020 Jeremy Clarkson gets really riled in Round the Bend What's it like to drive a car that's actively trying to kill you? This and many other burning questions trouble Jeremy Clarkson as he sets out to explore the world from the safety of four wheels. Avoiding the legions of power-crazed traffic wombles attempting to block highway and byway, he: • Shows how the world of performance cars may be likened to Battersea Dogs' Home • Reveals why St Moritz may be the most bonkers town in all of the world • Reminds us that Switzerland is so afraid of snow that any flakes falling on the road are immediately arrested • Argues that washing a car is a waste of time Funny, globe-trotting, irreverent and sometimes downright rude, Round the Bend is packed with curious and fascinating but otherwise hopelessly useless stories and facts about everything under the sun (and just occasionally cars). It's Jeremy Clarkson at his brilliant best. Round the Bend is a collection of Jeremy's motoring journalism from his column in the Sunday Times. Water Marks (LP) Jun 16 2019 When Dale Donnahue brought an unmarked box to Rick Dante, he delivered more than the notebook inside it—he dumped a nightmare on the Milford, Iowa, Chief of Police. The contents of that taunting notebook point an accusatory finger straight at Chief Dante—with the brazen implication that he hasn't been doing his job. The cryptic caption on the title page says: Milford, Iowa: Unsolved Murders. The murderer must be a cocky dude with ice flowing through his veins. The notebook contains irrefutable evidence of five seemingly unrelated homicides: five obituaries matched to five signs which incorporate Milford's water tower into their sinister messages. Each sign follows the progression of the countdown to the grand finale: 1 down, 5 to go . . . 2 down, 4 to go . . . Rick and his police force must thaw five cold cases in search of clues. Unless they find the perpetrator of those heinous crimes, the execution of 0 down, 0 to go will stun the town. No one will feel safe anymore in Milford, Iowa.

International Money Laundering Through Real Estate and Agribusiness Apr 07 2021 This book examines two types of transnational money laundering: the use of offshores and wire transfers to “invest” in real estate; and agribusiness, a nebulous activity that is difficult to regulate. The author also examines current international mechanisms to combat money-laundering; whether these efforts have been successful or unsuccessful; and whether multilateral instruments are an effective tool in the war against international organized crime. As national borders have opened and trade barriers have fallen, transnational crime has grown at unprecedented levels. The current situation, better revealed by the so-called “Panama Papers,” is a result of a lack of local cooperation in the investigations, prosecution, and/or extradition of criminals. Governments profit from ill-gotten wealth hosting international criminal enterprises in their own territories, thus providing a fertile ground for illicit practices, closing their eyes to the nexus among false or inappropriate identification, fraudulent records, corruption, and money laundering. If these types of transnational money-laundering are allowed to remain as they are currently treated, the shift in the financial paradigm, from centralized and regulated to decentralized and “unregulated,” would allow for the continuation of some of the most dangerous criminal activity. In this timely book, the author presents arguments that by “following the money,” capital movements involved in transnational money laundering through real estate and agribusiness can be examined, revealed, and understood.
