Reporting District-Level NAEP Data Sep 15 2021 The National Assessment of Education Progress (NAEP) has earned a reputation as one of the nation's best measures of student achievement in key subject areas. Since its inception in 1969, NAEP has summarized

academic performance for the nation as a whole and, beginning in 1990, for the individual states. Increasingly, NAEP results get the attention of the press, the public, and policy makers. With this increasing prominence have come calls for reporting NAEP results below the national and state levels. Some education leaders argue that NAEP can provide important and useful information to local educators and policy makers. They want NAEP to serve as a district-level indicator of educational progress and call for NAEP results to be summarized at the school district level. Reporting District-Level NAEP Data explores with various stakeholders their interest in and perceptions regarding the likely impacts of district level reporting. *The Pros & Cons of Being a Frog* Nov 29 2022 "This celebration of differences displays great respect for readers' intelligence and yields more with each reading. —Kirkus Reviews (starred review) Two shy kids discover the power of friendship in this charming picture book that celebrates being different. A boy likes to dress as a cat, but his best friend's dog objects. What will he dress as now? A giraffe? A fox? A shark? When his best friend, Camille, suggests a frog, they work together to make the frog costume...until Camille runs out of patience. So the boy makes a list of the pros and cons of being a frog: Pros: 1. My friend Camille gave me the idea 2. I'm less likely to be chased by a dog 3. Being in a frog costume makes me feel brave Cons: 1. Not everyone loves wearing a frog costume as much as me 2. If you start getting bossy about your frog costume then your friend will get up and leave 3. A frog is NOT a solitary creature so it is no fun for a frog if his friend gets up and leaves Luckily, he won't have to choose, because true friendship means accepting each other's differences: he can be himself and have his friend Camille.

Philosophical Dilemmas Nov 05 2020 "Philosophical Dilemmas is a historical and thematic introduction to philosophy. The chapters are organized around traditional philosophical questions. Each presents two historical figures with different views, followed by two brief essays in a contemporary idiom defending opposing answers to the traditional question. Taxidermy assistant Callie Buchanan might be good at scooping brains out of deer skulls, but that doesn't mean it's her passion. Since her parents' divorce, her taxidermist father only cares about his work, and assisting him at the World Taxidermy and Fish-Carving Championships is the only way Callie knows to connect with him. When a crazy mix-up in the hotel lobby brings the three girls together, they form an unlikely friendship against a chaotic background of cosplay, competition, and carcasses!

The Future of the Office Jun 24 2022 The COVID-19 pandemic forced an unprecedented experiment that reshaped white-collar work and turned remote work into a kind of "new normal." Now comes the hard part. Many employees want to continue that normal and keep working

remotely, and most at least want the ability to work occasionally from home. But for employers, the benefits of employees working from home or hybrid approaches are not so obvious. What should both groups do? In a prescient new book, *The Future of the Office: Work from Home, Remote Work, and the Hard Choices We All Face*, Wharton professor Peter Cappelli lays out the facts in an effort to provide both employees and employers with a vision of their futures. Cappelli unveils the surprising tradeoffs both may have to accept to get what they want. Cappelli illustrates the challenges we face by in drawing lessons from the pandemic and deciding what to do moving forward. Do we allow some workers to be permanently remote? Do we let others choose when to work from home? Do we get rid of their offices? What else has to change, depending on the approach we choose? His research reveals there is no consensus among business leaders. Even the most high-profile and forward-thinking companies are taking divergent approaches: --Facebook, Twitter, and other tech companies say many employees can work remotely on a permanent basis. --Goldman Sachs, JP Morgan, and others say it is important for everyone to come back to the office. --Ford is redoing its office space so that most employees can work from home at least part of the time, and --GM is planning to let local managers work out arrangements on an ad-hoc basis. As Cappelli examines, earlier research on other types of remote work, including telecommuting offers some guidance as to what to expect when some people will be in the office and others work at home, and also what happened when employers tried to take back offices. Neither worked as expected. In a call to action for both employers and employees, Cappelli explores how we should think about the choices going forward as well as who wins and who loses. As he implores, we have to choose soon.

Reparations Jul 25 2022 Today, the debate over reparations--whether African-Americans should be compensated for decades of racial subjugation--stands as the most racially divisive issue in American politics. In this short, definitive work, Alfred L. Brophy, a leading expert on racial violence, traces the reparations issue from the 1820s to the present in order to assess the arguments on both sides of the current debate. Taking us inside litigation and legislatures past and present; examining failed and successful lawsuits; and exploring reparations actions by legislatures, newspapers, schools, businesses, and truth commissions, this book offers a valuable historical and legal perspective for reparations advocates and critics alike. "A book about reparations and its contentious qualities that is a must-read for all. If you want to know the essence of the debate, this book is for you." -- Charles K. A World of Standards Jan 27 2020 In this book we discuss standards, in particular how standards are produced and propagated. Standards constitute a special kind of rule, but a common and very important one. Most standards are produced by organizations. We argue that standardization is a fundamental form for governance and co-ordination in societies, and a form to which social science has paid far too little attention.

Abortion--Dissecting the Old and New Arguments Sep 03 2020

The right to abortion is a major concern in most countries, Should it ever be allowed? Should it be allowed only in the first trimester? When does life start? Should I seek an abortion? Does society need more unwanted babies? Does the Bible specifically condemn abortion? What does each child, wanted or unwanted, cost society? These are questions that women and men must ask. Legislators should inquire deeply--as should judges. These and many more questions are discussed--and answers often implied.
