Environmental Policy in an International Context, Perspectives on Environmental Problems Jun 10 2021

The three volumes of Environmental Policy in an International Context have been developed by the Dutch and UK Open

Universities as part of the International Environmental Series. They accompany a workbook and six videos. The first volume takes a critical and analytical look at contemporary environmental issues built around the key questions - what are international and environmental problems; and why have they become important politically? These questions are examined from a variety of viewpoints - science, sociology, politics, law and economics. A multi-disciplinary approach is emphasised and it shows how both technical and scientific solutions need to be sought alongside.

999 Nonquantitative Problems for FE

Examination Review Mar 27 2020

Nonquantitative problems on the exam don't require numerical calculations, but rather an understanding of theory and principle. It's essential that you answer these questions fast, leaving yourself more time to work on solutions for the quantitative problems. 999

Nonquantitative Problems for FE Examination Review will bring you up to speed on the concepts you need to know. Answers are included. After working through 999

Nonquantitative Problems, you'll be prepared to handle FE/EIT exam concepts swiftly and confidently. This book is part of PPI's Legacy Series--products developed for the former pencil-and-paper version of the NCEES FE exam, which is now delivered as a computer-based-test (CBT). Some of the content may appear in PPI's current CBT FE exam products.
