The Autobiography of Ltc John (Jack) H. Adams from 1931 to 2011 Apr 27 2022 This book is an autobiography of my life with my brother, Don from my early years growing up in Washington, D.C. as my mother Bernice Augusta along with my father, John H. Adams Sr. for part of the period nurtured, sacrificed and cared for us with meager funds. After separation from my father, my mother struggled even more and for several years twice sent us to Tulsa, Ok, where we were nurtured and given the utmost love, and learned to honor Jesus Christ by my maternal Grandmother, Minnie Mae Guess, who we affectionately called "Mama Dear". Quintessentially my greatest fortune in my life was meeting and marrying Helen, who I met at Howard University. As I reflect back on our 52 years of marriage, she was the catalyst for any career success I had in the military and later in the U.S Government and for writing this book. She loved & adored her four children and a committed worshiper of Jesus Christ. However after her passing, I was again so fortunate to meet a gracious and lovely lady, named Rolando who has also accepted me with all of my imperfections and have made my life complete. Jack Adams

Toward an Anti-Capitalist Composition Apr 03 2020 In *Toward an Anti-Capitalist Composition*, James Rushing Daniel argues that capitalism is eminently responsible for the entangled catastrophes of the twenty-first century—precarity, economic and racial inequality, the decline of democratic culture, and climate change—and that it must accordingly become a central focus in the teaching of writing. Delving into pedagogy, research, and institutional work, he calls for an ambitious reimagining of composition as a discipline opposed to capitalism's excesses. Drawing on an array of philosophers, political theorists, and activists, Daniel outlines an anti-capitalist approach informed by the common, a concept theorized by Pierre Dardot and Christian Laval as a solidaristic response to capitalism rooted in inventive political action. Rather than relying upon claims of membership or ownership, the common supports radical, collective acts of remaking that comprehensively reject capitalist logics. Applying this approach to collaborative writing, student debt, working culture, and digital writing, Daniel demonstrates how the writing classroom may be oriented toward capitalist harms and prepare students to critique and resist them. He likewise employs the common to theorize how anti-capitalist interventions beyond the classroom could challenge institutional privatization and oppose the adjunctification of the professoriate. Arguing that composition scholars have long neglected marketization and corporate power, *Toward an Anti-Capitalist Composition* extends a case for adopting a resolute anti-capitalist stance in the field and for remaking the university as a site of common work.

Mercury Rising: John Glenn, John Kennedy, and the New Battleground of the Cold War Sep 20 2021 A riveting history of the epic orbital flight that put America back into the space race. If the United States couldn't catch up to the Soviets in space, how could it compete with them on Earth? That was the question facing John F. Kennedy at the height of the Cold War—a perilous time when the Soviet Union built the wall in Berlin, tested nuclear bombs more destructive than any in history, and beat the United States to every major milestone in space. The race to the heavens seemed a race for survival—and America was losing. On February 20, 1962, when John Glenn blasted into orbit aboard Friendship 7, his mission was not only to circle the planet; it was to calm the fears of the free world and renew America's sense of self-belief. Mercury Rising re-creates the tension and excitement of a flight that shifted the momentum of the space race and put the United States on the path to the moon. Drawing on new archival sources, personal interviews, and previously unpublished notes by Glenn himself, Mercury Rising reveals how the astronaut's heroics lifted the nation's hopes in what Kennedy called the "hour of maximum danger."
