Words On Fire Jul 31 2020

When Vanessa Ochs begins to suspect her various physical ailments are due to her leading an 'unsanctified life,' she decides to travel to Jerusalem with her family to explore the sacred books of Judaism.

Armed with a list of institutions and the names of women who

specialize in teaching these sacred texts, Ochs sets out on a journey of discovery. She forges a personal relationship with her mentors, women who are determined to disprove the claim of Rabbi Eliezer ben Hyrcanus: 'The words of the Torah should be burnt rather than taught to women.' As her year in Jerusalem draws to a close, Ochs begins to find a way to reconcile her feminist

views with her quest to live a life according to laws shaped by the 'sexist' views of traditional Judaism. Part scholarly investigation, part anecdotal memoir, Words on Fire is an accessible portrait of a remote world and a fascinating, firsthand account of the clash between feminism and Judaism.

Getting Off Nov 03 2020

“Erica Garza has written a riveting, can’t-look-away memoir of a life lived hardcore...In an era when predatory male sexual behavior has finally become a topic of urgent national discourse...Getting Off makes for a wild, timely read” (Elle). A fixation on porn and orgasm, strings of failed relationships and serial hook-ups with strangers, inevitable blackouts to blunt the shame—these are not things we often hear

women share publicly, and not with the candor, eloquence, and introspection Erica Garza brings to *Getting Off*. What sets this courageous and riveting account apart from your typical misery memoir is the absence of any precipitating trauma beyond the garden variety of hurt we've all had to endure in simply becoming a person—reckoning with family, learning to be social, integrating what it means to be sexual. Whatever tenor of violence or abuse Erica's life took on through her behavior was of her own making, fueled by fear, guilt, self-loathing, self-pity, loneliness, and the hopelessness those feelings brought on as she runs from

one side of the world to the other in an effort to break her habits—from East Los Angeles to Hawaii and Southeast Asia, through the brothels of Bangkok and the yoga studios of Bali to disappointing stabs at therapy and twelve-steps back home. In these remarkable pages, Garza draws an evocative, studied portrait of the anxiety that fuels her obsessions, as well as the exhilaration and hope she begins to feel when she suspects she might be free of them. *Getting Off* offers a brave and necessary voice to our evolving conversations about addiction and the impact that internet culture has had on us all—"a profoundly genuine,

gripping story that any reader can appreciate" (Vice). "In reading Garza's insight into her own experiences, we better understand ourselves" (The New York Times Book Review). [The Sorcerer's Crossing Sep 13 2021](#) Some twenty years ago, anthropologist Carlos Castaneda electrified millions of readers by describing his initiation--under the Yaqui Indian brujo Don Juan--into an alternate reality. Now Taisha Abelar, who was taught by the female members of Don Juan's group, recounts her own "crossing" in this arresting book. While traveling in Mexico, Abelar became involved with a group of sorcerers and began a rigorous

physical and mental training process designed to enable her to breach the limits of ordinary perception. The Sorcerers Crossing details that process, giving us a highly practical sense of the responsibilities and perils that face a woman sorcerer. Abelar's enthralling story is invaluable as a virtual "sorcerers manual", as anthropology, and as a provocative work of women's spirituality.

The Widowed Self Dec 24 2019

How do older women come to terms with widowhood? Are they vulnerable or courageous, predictable or creative in dealing with this life challenge? Most books about widows usually focus on younger women; this book interweaves the voices of older widows their experiences and insights to show how they have come to terms with widowhood and have recreated their lives in new, unsuspected ways. The widows speak about how they relate to their children, their friends, to men. With powerful emotions they describe their husbands' final illnesses and deaths, and the challenging early days of widowhood. Disputing stereotypes about

older women and widows, *The Widowed Self* allows the reader to visualize the impact of losing one's life partner and offers a new way of thinking about widowhood. This new book by Deborah Kestin van den Hoonaard fills a void in previous work on widowhood. Rather than seeing these women as unfortunate, passive victims of life, the reader will come to appreciate the strength and creativity with which these women face one of life's greatest challenges, a challenge that affects more than half of all women over the age of sixty-five. Widows and their families, scholars, social workers and other professionals who work with

older adults will all be interested in reading *The Widowed Self: The Older Woman's Journey through Widowhood*.

One Woman's Journey Through a Challenging Century Aug 20 2019 One Woman's Journey through a Challenging Century is the beautiful, true story of a strong, resilient woman. Born

six days before WWI ended, Edrel grew up in the heart of that century and shares ninety years of her experiences. Edrel was one of eight children, whose parents instilled in them the need to have faith and trust in God. This is the story of a little timid girl who took more than twenty years to come out of her shell. But when she did, she accepted every challenge that came her way. The challenges ranged from initiating the first anti-drug club for children in the 1960s to serving on various national committees. The club, called Help Dan, grew in popularity and was implemented in thirty-eight states. This, and other accomplishments, earned her

several major awards including Alaska Mother of the Year and also Military Wife of the Year for all five branches of the military. Edrel toured with Art Linkletter and his entourage across the United States, was twice an honored guest in the White House, and is an honoree in the National Women's History Museum. Inspiring and bold, *One Woman's Journey through a Challenging Century* takes you along on a remarkable life journey that spans the twentieth century, two continents, and seven states.

You Are Woman, You Are Divine Aug 12 2021 The modern woman often does not know herself as a goddess; her

feminine energy is out of balance and her divine essence has yet to awaken. But the time has come, right now, for women to know that being female is special, sacred, and divine. This inspiring, poetic and magically potent book will entice women of all ages to explore and activate their relationship with the divine, feminine and most sacred part of themselves—the goddess within. In *You Are Woman, You Are Divine*, Back to the Goddess founder Renée Starr takes women on an enchanting, empowering journey, offering ancient wisdom in a fresh, modern way to help woman reclaim all the beauty, grace, and strength that being female

is. In Part 1 of the book, she leads readers back through history to revisit the reverence for women that every ancient culture possessed. From the dawn of pre-history, women were perceived as holy, sacred, and divine incarnations of the Great Mother Goddess. Powerful figures full of strength, wisdom, and leadership, women were the keepers of the human race, from which all life flowed. In Part 2, Starr retells in mesmerizing narrative seven of the greatest goddess myths from ancient cultures around the world: Ancient Egypt, Africa, India, Tibet, Ancient Greece, Lakota, and the Judeo-Christian Bible. Each myth

presents a quality that modern women can restore back into their lives: Lilith (Power), Yemaya (Creativity), Tara (Stillness), Radha (Passion), Cassandra (Voice), White Buffalo Calf Woman (Wisdom), and Eve (Awakening). Accompanying each myth are anointing, bathing and lunar rituals, instructions for altars, invocations, meditations, and more to deepen their connection to their own inner goddess and inspire living as a goddess on earth. In Part 3, Starr shows women how to integrate the teachings of The Divine Feminine into everyday life, honoring the sacredness of their body and how to be in energetic, feminine balance.

The book offers fresh, new ways for women to embrace their ancient and sacred traditions. It uplifts the spirit of any woman—from young womanhood to her elder, wise-woman years. It honors the Feminine spirit that all women can celebrate in themselves to rebalance the world. Readers will live more fulfilled lives and feel more confident, free and feminine...becoming the goddesses they were meant to be. Beautifully designed & illustrated; includes a foreword by Raquel Allegra, noted fashion designer.

My father was hardly around, my brother was in/out of prison, and my uncles had their own families to support mentally and emotionally, so I didn't have a good man in my life to show me what "Real Love" is, and I ended up learning a lot the hard way. I blame none of my mistakes I made on anyone, but a young black woman needs a "Good male Role Model" to show her the difference between "Salt and Sugar". After reading my book you will totally

[Year of the Elephant](#) Jun 10 2021 In this moving fictional treatment of a Muslim woman's life, a personal and family crisis impells the heroine to reexamine traditional cultural attitudes toward women. Cast out and divorced by her husband, she finds herself in a strange new world. Both obstacles and support systems change as she actively participates in the struggle for Moroccan independence from France. This feminist novel is a literary statement in a modern realist style. Many novels by women of the Middle East that have been translated reflect Western views, values, and education. By contrast, Year of

the Elephant is uniquely Moroccan and emerges from North African Islamic culture itself. Its subtle juxtaposition of past and present, of immediate thought and triggered memory, reflects the heroine's interior conflict between tradition and modern demands. The title refers to a famous battle described in the Koran. *Radio Heaven* Apr 08 2021 2nd edition with inspirational new content. [Coming Full Circle: One Woman'S Journey Through Spiritual Crisis](#) Oct 02 2020 Her journey of recovery from

bipolar disorder and her insights are described in this book, an autobiography of Carol Noyes. When Carol went through mid-life crisis in the spring of 2006 her world was turned upside-down. Carol was able to wean herself off drugs, after over four years on psychiatric medications. She found natural alternatives that effectively helped her to recover and to lead a productive life. Carol believes that the current medical paradigm is inadequate and often unable to help individuals to heal and to bounce back. Carol nearly died from a combination of the swine flu and lithium poisoning. Her descent to the bottom of the

metaphorical well provided the impetus for her to research non-drug therapies. These therapies, along with faith, hope, and courage, brought Carol back to a peaceful life. Carol recounts her life and investigates the factors that precipitated imbalance. She writes about her extraordinary experiences during expanded states of consciousness. She also delves into the world of symbols and mythologies, describing how they became poignant for her. Carol calls her experience a time of spiritual awakening; a time of developing self-esteem, learning to love herself, and finding her true purpose. She hopes that her insights will

help others going through spiritual crisis. Those interested in humanistic psychology, personal growth, and spirituality may find this book fascinating.

A Lab of One's Own Nov 22 2019 A “beautifully written” (Kirkus Reviews, starred review) memoir-manifesto from the first female director of the National Science Foundation about the entrenched sexism in science, the elaborate detours women have take to bypass the problem, and how to fix the system. If you think sexism thrives only on Wall Street or Hollywood, you haven’t visited a lab, a science department, a research foundation, or a biotech firm. Rita Colwell is

one of the top scientists in America: the groundbreaking microbiologist who discovered how cholera survives between epidemics and the former head of the National Science Foundation. But when she first applied for a graduate fellowship in bacteriology, she was told, “We don’t waste fellowships on women.” A lack of support from some male superiors would lead her to change her area of study six times before completing her PhD. *A Lab of One’s Own* is an “engaging” (Booklist) book that documents all Colwell has seen and heard over her six decades in science, from sexual harassment in the lab to obscure systems blocking

women from leading professional organizations or publishing their work. Along the way, she encounters other women pushing back against the status quo, including a group at MIT who revolt when they discover their labs are a fraction of the size of their male colleagues. Resistance gave female scientists special gifts: forced to change specialties so many times, they came to see things in a more interdisciplinary way, which turned out to be key to making new discoveries in the 20th and 21st centuries. Colwell would also witness the advances that could be made when men and women worked together—often under her direction, such as

when she headed a team that helped to uncover the source of anthrax used in the 2001 letter attacks. *A Lab of One’s Own* is “an inspiring read for women embarking on a career or experiencing career challenges” (Library Journal, starred review) that shares the sheer joy a scientist feels when moving toward a breakthrough, and the thrill of uncovering a whole new generation of female pioneers. It is the science book for the #MeToo era, offering an astute diagnosis of how to fix the problem of sexism in science—and a celebration of women pushing back.

[Women's Journey to Empowerment in the 21st](#)

[Century](#) Apr 20 2022 *Women's Journey to Empowerment in the 21st Century* offers a global view into the patriarchal attitudes that shape cultural practices that oppress women and continue to take form in the modern era. In closely examining a range of issues-- from the college campus rape epidemic in the United States to the climate change effects in Ghana--this book compels readers to utilize a contextual framework in order to take a closer look into contemporary

violence and oppression against women in our world. Written through the lens of transnational feminism, it examines the intersections of nationhood, race, gender, sexuality, and economics within the context of a world shaped by globalization and colonialism, causing the redefinition of borders and the realignment of migration patterns. A transnational feminist perspective also supports a definition of global sisterhood based on equity, understanding, and mutual experiences. Students focusing on social justice, social work, women's studies, feminist theory, and/or violence against women will find the book to be

an invaluable resource. **Unveiling India** Aug 24 2022 The women in this book are not extraordinary or famous, and yet their stories and testimonies, narrated here by one of India's best-known women journalists, provide a passionate, often deeply touching, revelation of what it means to be a woman in India today. The women tell of marriage and widowhood, unfair work practices, sexual servitude, the problems of bearing and rearing children in poverty, religion, discrimination, other forms of exploitation ... Yet they also talk of fulfilling relationships, the joys of marriage and children, the exhilaration of

breaking free from the bonds of tradition, ritual, caste, religion ... Interwoven with all this is the story of one woman's journey--of how Anees Jung, the author, brought up in purdah, succeeded in shaking off the restricting influences of her traditional upbringing to become a highly successful, independent career woman, still a comparatively rare phenomenon in India. As such, the book is essential reading for anyone wishing to understand the women of India-the silent majority that is now beginning to make itself heard.

The Well Woman book takes the reader through a journey starting with understanding wellness through the eyes of God, helping them to begin to see themselves as he does. It breaks down the false-definitions of wellness this world tells women they should strive for, and unfolds biblical truths that provide a foundation for wellness based on the love of Jesus. The book starts with a description of a well woman, then goes through a step-by-step process of spiritual, mental, and physical healing and growth that ends in taking on that description for themselves, as they become the well woman. The blend of

biblical depth with simple teaching makes this a wealth of easily digestible information. Vulnerable sharing of the author's personal experiences, with life application for the reader, makes The Well Woman a valuable tool for wellness, not simply a good read.

A Singularly Unfeminine Profession May 29 2020
In 1981 Mary K Gaillard became the first woman on the physics faculty at the University of California at Berkeley. Her career as a theoretical physicist spanned the period from the inception — in the late 1960s and early 1970s — of what is now known as the Standard Model of particle physics and its experimental

confirmation, culminating with the discovery of the Higgs particle in 2012. A Singularly Unfeminine Profession recounts Gaillard's experiences as a woman in a very male-dominated field, while tracing the development of the Standard Model as she witnessed it and participated in it. The generally nurturing environment of her childhood and college years, as well as experiences as an undergraduate in particle physics laboratories and as a graduate student at Columbia University — which cemented her passion for particle physics — left her unprepared for the difficulties that she confronted as a second year graduate

student in Paris, and later at CERN, another particle physics laboratory near Geneva, Switzerland. The development of the Standard Model, as well as attempts to go beyond it and aspects of early universe physics, are described through the lens of Gaillard's own work, in a language written for a lay audience.

Key Features: Professor Gaillard is a leading particle theorist who has participated in many important contributions to the development of the Standard Model, including the prediction of the quark mass and of gluon jets. She is a

recipient of the E O Lawrence Award and the J J Sakurai prize. She is a member of the National Academy of Sciences and the American Philosophical Society As a woman in physics at a time when there were very few, her account of the history of the Standard Model offers a unique perspective on both the physics and the issue of gender bias in a very male-dominated field The history of the development of the Standard Model, as well as attempts to understand deeper physics underlying that model and concomitant developments in cosmology, is described in conjunction with her own research and life experiences Keywords: Women

in Physics; Autobiography; Particle s and Fields; Cosmology Review: "Her frank autobiography is an honest, revelatory account of her many discoveries, made as she battled gender bias and faced the demands of raising three children ... Gaillard became a grande dame of particle physics, with positions on many committees that shaped particle-physics research in the United States and, ultimately, the world. The story is as much about a thrilling period in particle physics as about Gaillard's struggle to establish herself in a male-dominated sphere ... As a colleague comments in the book: 'She did it all!'" Nature

"It was clearly a hard time to be a successful theorist, and a woman, and Gaillard's account makes for a compelling tale. She was talented, determined and tough — she made the system accommodate her. Life isn't like that now, and we have people like her to thank for it." Times Higher Education **Peaceful Heart** Mar 19 2022 A book for both survivors and their loved ones, *Peaceful Heart: A Woman's Journey of Healing* outlines one person's existence consumed with the trauma of a sexual attack. As a small-town teenager in the Midwest, seventeen-year-old Aimee Jo Martin was brutally beaten and raped one night at home when her parents were

away. Attempting to forget about the attack, Martin would be plagued with eating disorders, depression, rage, and distrust for the next fifteen years. Thinking everything would be all right if she remained focused on goals, Martin became a police officer only to be forced out on disability after a drug-crazed assailant attacked her. Aimee retired from law enforcement and moved to Florida. She immersed herself in law school, passed the Florida bar exam, and was hired by a private law

firm-but her problems persisted. Nervous, hyper, and sleep deprived, Aimee Jo Martin still faced the emotional affects of the brutal trauma. With the help of a loyal friend as well as a licensed therapist who used a treatment often effective for trauma victims, EMDR (Eye Movement Desensitization and Reprocessing), the clouds finally began to part for Aimee Jo. Her story is disturbing, yet ultimately hopeful. *The Journey of a Woman* May 21 2022 The author of *Fashioned for Intimacy*
