The GrandLuxe Express Dec 18 2021 This lavish book invites readers aboard the glamorous renovated cars of the GrandLuxe railway train. In 1989, the American-European Express, a stylish train created in emulation of Europe's Orient Express, commenced operation between Washington and Chicago. Forced to close down two years later, it was reborn in 1994 as the American Orient Express. The AOE, as this luxury streamliner was often known, matured under the tutelage of various owners until 2006, when under new ownership it acquired a new name, the GrandLuxe Express. Tracksideside, the train gleamed as a classic American streamliner. Aboard, travelers enjoy old-fashioned, wood-paneled elegance that harkens back to the 1920s and Europe's posh Wagons-Lits sleepers and restaurant cars. American Automobiles of the Brass Era Mar 09 2021 From Abbott-Detroit to Zip, this unique reference book documents American gasoline-powered automobiles manufactured for the model years 1906 through 1915, the Brass Era. In these explosive early years of automotive history, a vast number of manufacturers--most of which failed within two years--produced a range of cars whose sheer diversity is unmatched in later times. The

short corporate lifespans and constant change throughout the industry left a fragmented historical record, with data about specific models scarce and scattered in later sources. Here the basic facts of 4,000+ cars, painstakingly researched in all available period sources, are collected and trends of the era are analyzed.
