Kropotkin (1842-1921) was the most outstanding anarchist thinker of his time. His writings, which combine revolutionary fervor with intellectual rigor, were influential far beyond the bounds of the anarchist movement. No mere propagandist, Kropotkin aimed to provide anarchism with a scientific base through research of dominant tendencies in society. This text is a meticulously researched and argued outline for redirecting agricultural and industrial production in a world of shrinking resources and increasing human needs. More prophetic than utopian, this volume remains remarkably pertinent to economic conditions at the end of the twentieth century. The analysis of trends at work in the United States, Japan and China are of amazing predictive power.

Future Shock Aug 09 2020 NEW YORK TIMES

BESTSELLER • The classic work that predicted the anxieties of a world upended by rapidly emerging technologies—and now provides a road map to solving many of our most pressing crises. “Explosive . . . brilliantly formulated.” —The Wall Street Journal *Future Shock* is the classic that changed our view of tomorrow. Its startling insights into accelerating change led a president to ask his advisers for a special report, inspired composers to write symphonies and rock music, gave a powerful new concept to social science, and added a phrase to our language. Published in over fifty countries, *Future Shock* is the most important study of change and adaptation in our time. In many ways, *Future Shock* is about the present. It is about what is happening today to people and groups who are overwhelmed by change. Change affects our products, communities, organizations—even our patterns of friendship and love. But *Future Shock* also illuminates the world of tomorrow by exploding countless clichés about today. It vividly describes the emerging global civilization: the rise of new businesses, subcultures, lifestyles, and human relationships—all of them temporary. *Future Shock* will intrigue, provoke, frighten, encourage, and, above all, change everyone who reads it.
